

PRODUCER PRICE INDEX – MANUFACTURING (PPI-M)
(Base year 2013 = 100)

April 2017	March 2018	April 2018
104.3	107.6	107.7

The Producer Price Index for the manufacturing sector (PPI-M) registered an increase of 0.1 point or 0.1% from March 2018 to April 2018. This increase was mainly due to higher prices in “Other transport equipment”, “Food products and beverages” and “Wearing apparel”, partly offset by lower prices of “Printing and reproduction of recorded media”.

Compared to April 2017, the PPI-M for April 2018 was higher by 3.4 points or 3.3%.

It is to be noted that the above figures are provisional.

Revised figures are usually published on a quarterly basis at
