

PRODUCER PRICE INDEX – MANUFACTURING (PPI-M)
(Base year 2013 = 100)

November 2017	October 2018	November 2018
106.2	109.1	109.0

The Producer Price Index for the manufacturing sector (PPI-M) registered a decrease of 0.1 point or 0.1% from October 2018 to November 2018. This decrease was mainly due to lower prices in “Other transport equipment”, partly mitigated by higher prices of “Printing and reproduction of recorded media”.

Compared to November 2017, the PPI-M for November 2018 was higher by 2.8 points or 2.6%.

It is to be noted that the above figures are provisional.

Revised figures are usually published on a quarterly basis at
