1. Introduction

This is the ninth issue of the ‘Economic and Social Indicators’ on Social Security Statistics. The data refer to the main social security benefits provided by the Ministry of Social Security, National Solidarity, Senior Citizen Welfare and Reform Institutions for the period July 1998 to June 2004. Data on the number of beneficiaries refer to the last month of each financial year whereas the amount paid is given on a financial year basis. Figures for 2003/2004 are subject to revision in future issues.

2. Social Security benefits

Social Security benefits can be classified as - non-contributory benefits and contributory benefits.

Non-contributory benefits are entirely financed by government and are payable to every Mauritian citizen under certain conditions. These benefits include

- basic pensions which cater for the elderly, the invalids, the widows and the orphans irrespective of their economic status.

- allowances such as Social Aid, Food Aid, Unemployment Hardship Relief and Funeral Grant which are payable to the low-income group of the population.

- Inmates allowance and indoor relief payable to, or on behalf of, those Mauritians residing in government-subsidized institutions (such as old-people homes, infirmaries and orphanages) provided they would have otherwise benefited from a basic pension or from Social Aid.

Contributory benefits, on the other hand, are payable only to, or on behalf of, those persons who have contributed to the National Pensions Fund (NPF). The contributory pensions include old age, invalidity, widows and orphans pensions in addition to industrial injury allowances.

The pension rates for non-contributory benefits are given at Annex 1. In the case of contributory benefits, the allowances payable vary according to the amount contributed to the NPF by the insured worker. For those persons whose contributions were marginal, government guarantees a minimum contributory pension.
3. Population age-structure (Tables 1 – 3)
The estimated mid-year population of the Republic of Mauritius increased from 1,174,417 in 1999 to 1,233,386 in 2004 representing an average annual increase of about 1.0%. During that period, the child population aged below 15 years increased from 303,998 to 306,394. However as a percentage of the total population, it decreased from 25.9% to 24.8%. The elderly population aged 60 years and above grew both in absolute and relative terms from 102,748 (8.7% of the total) to 115,701 (9.4% of the total).

It should be pointed out that these estimates, computed by the Central Statistics Office on the basis of the 1990 and 2000 Censuses, differ from the number of persons reported by the Ministry of Social Security as drawing the old-age pension (109,571 in June 1999 and 119,448 in June 2004). This discrepancy may be due to various reasons, such as misreporting of age at the Population Census and delays in updating the list of old-age pensioners on account of deaths or absences from the country for more than 6 months.

The number of widows by age group as reported at the 2000 Census was 58,309, representing 13% of all women aged 15 years and over. Those who were eligible for Basic Widow’s Pension, that is aged 15 to 59 years, numbered 21,719.

4. Expenditure on Social Security and Welfare (Table 4)
Government expenditure on Social Security and Welfare consists of expenditure and transfers made by government for the social welfare of the community, in line with the recommendations of the Government Finance Statistics Manual 1986 of the International Monetary Fund. It covers all expenses made by the Ministry of Social Security and the Ministry of Women’s Rights together with components of social welfare of all government organizations as well as Local Government.

Expenditure on Social Security and Welfare for the financial year 2003/2004 was Rs 8,852 million compared to Rs 5,448 million in 1998/99. This amount represents 20.8% of total government expenditure in 2003/2004 against 21.1% in 1998/99.

The pie chart above (Figure 1) shows the share of each component of government expenditure on Social Security and Welfare. It is observed that the main components are the Basic Retirement Pension with a share of 36% followed by public service pensions (28%).

![Figure 1 - Components of Government expenditure on social security and welfare, 2003/04](image-url)
NON-CONTRIBUTORY BENEFITS

5.1 Basic pensions (Tables 5.1 – 5.3)

(a) Basic Retirement Pensions (BRP)

Basic Retirement Pension, also known as old-age pension, is payable to every Mauritian citizen aged 60 years and above subject to certain residency conditions. The number of such beneficiaries increased by 9.0% from 109,571 (106,650 in the island of Mauritius and 2,921 in the island of Rodrigues) in June 1999 to 119,448 (116,047 in the island of Mauritius and 3,401 in the island of Rodrigues) in June 2004.

The Enhanced Basic Retirement Pension is an additional allowance payable to old-age pensioners who are either

(i) totally blind, or
(ii) suffer from total paralysis, or
(iii) need the constant care of another person

The number of beneficiaries of the Enhanced Basic Retirement Pension in June 2004 was 16,366 (15,870 in the island of Mauritius and 496 in the island of Rodrigues).

The total amount disbursed to all old-age pensioners (inclusive of Enhanced Basic Retirement Pension and Child’s Allowance) was Rs 3,156.9 million in 2003/2004 compared to Rs 2,047.8 million in 1998/1999.

(b) Basic Widow's Pension (BWP)

Basic Widow's Pension is payable to widows aged 15 to 59 years who were either civilly or religiously married to their late husband. In June 2004, the number of beneficiaries of such pension rose by 7.6%, from 21,153 (20,813 in the island of Mauritius and 340 in the island of Rodrigues) in June 1999 to 22,757 (22,399 in the island of Mauritius and 358 in the island of Rodrigues) in June 2004.

Government expenditure on Basic Widow's Pension was Rs 610.1 million in 2003/2004 compared to Rs 422.0 million in 1998/99.

(c) Basic Invalid's Pension (BIP)

The Basic Invalid’s Pension is payable to any person aged 15 to 59 years if certified by a Medical Board that the person is either permanently or substantially incapacitated to work to a degree of 60% or more for at least 12 months. The number of such beneficiaries increased significantly by 32.7% from 18,860 (18,390 in the island of Mauritius and 470 in the island of Rodrigues) in June 1999 to 25,035 (24,441 in the island of Mauritius and 594 in the island of Rodrigues) in June 2004.
Basic Invalid Pensioners, who need the constant care and attention of another person, benefit from an additional allowance known as the Carer’s Allowance. In June 2004, there were 7,132 such beneficiaries compared to 4,976 in June 1999.

The total amount spent on Basic Invalid's Pension (inclusive of Carer’s Allowance and Child’s Allowance) increased from Rs 430.1 million in 1998/99 to Rs 805.5 million in 2003/2004 showing an increase of about 87.3% during that five-year period.

**(d) Basic Orphan’s Pension (BOP)**

Basic Orphan’s Pension is payable to all orphans up to the age of 15, and up to 20 years if they are in full-time education. A Guardian’s allowance is also paid to the person looking after one or more orphans. However, only one allowance is payable per guardian irrespective of the number of orphans under his/her care.

The number of beneficiaries of Basic Orphan’s Pension in the Republic of Mauritius decreased from 719 in June 1999 to 529 in June 2004. A similar trend is noted in the islands of Mauritius (from 563 to 428) and Rodrigues (from 156 to 101) during that period. Consequently, the total number of guardians declined from 590 to 437 in the Republic of Mauritius. However, the number of orphans per guardian remained at around 1.2.

Though the number of such beneficiaries has decreased, expenditure on Basic Orphan’s Pension and Guardian’s Allowance rose from Rs 10.9 million in 1998/99 to Rs 14.4 million in 2003/2004. This is due to increases in the rates payable.

**(e) Child’s Allowance**

Child’s allowance is payable to children of beneficiaries of Basic Retirement Pension, Basic Widow’s Pension and Basic Invalid's Pension in respect of a child below 15 years, or below 20 years, if in full-time education. Child’s allowance is payable for up to three dependent children. The total number of children benefiting from Child’s allowance went up from 15,642 (15,198 for the island of Mauritius and 444 for the island of Rodrigues) in June 1999 to 18,194 (17,686 for the island of Mauritius and 508 for Rodrigues) in June 2004.

The amount spent by government on Child’s allowance is not available separately; it is included in the overall amount paid to beneficiaries of Basic Retirement Pension, Basic Widow’s Pension and Basic Invalid’s Pension.

### 5.2 OTHER NON-CONTRIBUTORY SOCIAL BENEFITS (Tables 6 – 7)

**(a) Social Aid**

Social Aid is an income-tested scheme. It is payable to the head of a family who is incapable of earning his living adequately and who has insufficient means to support himself and his dependents. Social Aid is payable to the poorer section of the population, including the
dependents of prisoners and abandoned spouses, especially those with dependent children. The allowance payable is calculated as the difference between the total income and the expected overall expenditure of the family.

The total number of families benefiting from such assistance increased by 37.8% from 11,865 in June 1999 to 16,346 in June 2004. In the Island of Mauritius, the corresponding increase was 34.1% (from 10,855 to 14,558) and in Rodrigues, 77.0% (from 1,010 to 1,788).

The total amount paid to beneficiaries of Social Aid in 2003/2004 was Rs 295.3 million, nearly twice the amount in 1998/99 (Rs 150.8 million).

(b) Food Aid

The Food Aid Scheme was introduced in March 1993 when government subsidy on rice and flour was temporarily discontinued. Under the Food Aid Scheme, a monthly stipend of Rs 30 for the purchase of rice and flour is given to every needy Mauritian, i.e.

(i) All recipients of Social Aid and their dependents.
(ii) All beneficiaries of Unemployment Hardship Relief.
(iii) All needy beneficiaries of a basic pension under the National Pensions Act, i.e. beneficiaries of Basic Retirement Pension, Basic Widow’s Pension, Basic Invalid’s Pension and Basic Orphan’s Pensions, who would have qualified to receive social aid if the basic pensions were not payable.

The number of persons who were granted Food Aid was around 44,500 in June 2004 and the total amount paid in 2003/2004 was Rs 17.4 million. It is to be noted that though subsidy on rice and flour was reintroduced as from 1995/96, payment of Food Aid has continued.

(c) Indoor Relief

Indoor relief is the grant paid to an institution in respect of every person residing in the institution if that person would have otherwise benefited from a basic pension or from Social Aid. There were 826 recipients of Indoor Relief in June 2004 as compared to 807 in June 1999. The amount paid under that scheme increased from Rs 18.8 million in 1998/99 to Rs 29.9 million in 2003/2004, showing an increase of 59.0%.

(d) Inmate’s Allowance

Inmate's Allowance refers to the pocket money given to certain residents of government-subsidized institutions and of the government psychiatric hospital, Brown Sequard Hospital. In June 2004, 935 persons received such money as compared to 938 in June 1999. However, due to increases in the rates paid, the amount spent under this item increased by 46.9% from Rs 3.2 million in 1998/1999 to Rs 4.7 million in 2003/2004.
(e) Unemployment Hardship Relief

The Unemployment Hardship Relief (UHR) is payable to unemployed heads of families whose family income is not sufficient to meet the needs of the members. The head should be registered,

(i) As unemployed at the Employment Exchange,
(ii) Be willing and able to take up employment and
(iii) Be actively looking for work.

A disabled person, who can work but has not been able to find a job, receives an Unemployment Hardship Relief in addition to his Basic Invalid's Pension. The number of beneficiaries of UHR nearly doubled from 212 in June 1999 to 402 in June 2004. The amount paid to these beneficiaries was Rs 2.4 million in 2003/2004 compared to Rs 0.9 million in 1998/99, showing an increase of 166.7%.

(f) Funeral Grant

A funeral grant is meant to cover funeral expenses of persons from low-income families. The number of payments for funeral expenses rose from 1,278 in 1998/99 to 2,050 in 2003/2004. The amount disbursed more than doubled during that period, from Rs 2.6 million in 1998/99 to Rs 5.4 million in 2003/2004.

6. Contribution to the National Pension Fund and contributory benefits

(a) The National Pension Scheme

The National Pension Scheme was introduced in April 1976. It provides for the payment of contributory pensions to those employees of the private sector who have contributed to the National Pensions Fund (NPF). All employees working for employers with more than 10 employees had to join the Scheme as from July 1978. Other employees joined the Scheme as from January 1980 except for household workers for whom the operative date was July 1980. The self-employed were also eligible to join the Scheme as from July 1980 on a voluntary basis.

Contributions to the Scheme are payable at the rate of 10.5% by millers and large employers of the Sugar Industry (those having at least 100 arpents of sugar cane cultivation); other employers pay contribution at the rate of 6%. For all employees, the contribution rate is 3%. Contributions are not payable on bonus, overtime pay and allowances. The minimum monthly remuneration on which contributions are payable was Rs 615 for household employees and Rs 1,025 for other employees during the financial year 2003/2004. The maximum monthly remuneration for both categories was Rs 6,765 during that period.

(b) The National Pensions Fund (Table 8)

The number of employers contributing to the NPF in respect of their employees was estimated at around 16,300 in 2003/2004 compared to 15,400 in 1998/99. The contributions
received, exclusive of surcharge, rose from Rs 890.7 million in 1998/99 to Rs 1,256.1 million in 2003/2004. During that period, the surcharge received increased from Rs 7.1 million to Rs 9.8 million.

At the end of June 2004, total net assets of the National Pension Fund stood at Rs 34,067.3 million compared to Rs 16,442.3 million in June 1999.

**(c) Contributory Pensions (Tables 9(a) - (b))**

*(i) Contributory Retirement Pension (CRP)*

The Contributory Retirement Pension is payable to a person on reaching the age of 60 years if that person has contributed to the National Pension Fund. In the Republic of Mauritius, the number of beneficiaries of this type of pension has been increasing during the past years - from 29,797 in June 1999 to 36,100 in June 2004. During that period, the total amount paid out went up from Rs 178.8 million to Rs 340.8 million.

*(ii) Contributory Widow’s Pension (CWP)*

The Contributory Widow’s Pension is payable to a widow whose late husband had contributed to the National Pensions Fund. The total number of widows who benefited from such a pension increased by 45.7 % from 9,080 in June 1999 to 13,235 in June 2004. In consequence, the amount paid went up from Rs 34.5 million in 1998/99 to Rs 78.1 million in 2003/2004.

*(iii) Contributory Invalid’s Pension (CIP)*

A person is entitled to a Contributory Invalid’s Pension if he/she has previously contributed to the National Pension Fund and suffers from a permanent incapacity of at least 60%. There were 5,427 such beneficiaries in June 2004 compared to 3,124 in June 1999. The amount paid to them more than doubled from Rs 10.2 million in 1998/99 to Rs 21.7 million in 2003/2004.

*(iv) Contributory Orphan’s pension (COP)*

The Contributory Orphan’s pension is payable to orphans under the age of 15 years (or 18 years if the child is at school) if any of the deceased parents had contributed to the National Pension Fund. In the five-year period June 1999 to June 2004, the number of orphans benefiting from this pension declined marginally from 104 to 102 and the amount disbursed which was Rs 0.2 million in 1998/99 remained at the same level in 2003/2004.

*(v) Industrial Injury Benefits*

The different types of allowances payable in respect of a work accident affecting an employee insured under the National Pension Scheme are:
(i) Industrial Injury allowance as a result of a total temporary incapacity, subject to medical evidence.
(ii) Disablement pension due to a permanent incapacity (partial or total).
(iii) Survivor’s Pension as a result of the death.
(iv) Constant attendance allowance resulting in a total temporary incapacity or a 100% disability and requiring the constant attendance of another person.
(v) Dependent’s pension, orphan’s pension, child allowance, clinical expenses, clothing expenses, hospital expenses, artificial aid.

The number of cases increased from 926 in June 1999 to 1,003 in June 2004 while the total amount paid out rose from Rs 21.8 million to Rs 26.2 million.

The National Solidarity Fund (Tables 10(a) – 10(b))

The National Solidarity Fund started operating under the aegis of the Ministry of Social Security and National Solidarity on 1 June 1991. Initially, its objectives were to provide financial assistance to:

(i) Mauritian citizens residing in Mauritius who require surgical operations that can only be performed abroad.
(ii) Those undergoing Severe Personal Hardships.

Since November 1999, with the creation of the “Trust Fund for Overseas Treatment” operating under the aegis of the Ministry of Health, all surgical operations cases have been transferred there. The National Solidarity Fund has then enlarged the scope of its activities under the “Severe Personal Hardship Scheme” to cover also tragic accidents, needy students, victims of natural calamities, multiple births, medical cases etc.

The sources of revenue of the Fund are manifold. These include:

– Contribution from the General Public
– Contribution from Ministries and Departments
– Interests on investment
– Unclaimed prizes and unclaimed winning tickets from e.g. Automatics Systems Ltd., Mauritius Turf Club and commercial promotions.

During the year 2003/2004, the National Solidarity Fund assisted 428 cases compared to only 109 in 2000/2001. The amount disbursed rose from Rs 1.3 million to Rs 6.1 million.
Projected number of pensioners and related future costs of basic pensions (Tables 11 – 12)

Assumptions used in the projections of the number of beneficiaries of basic pensions and their eventual costs are given at Annex 2.

At June 2004, the population aged 60 years and over was estimated at 115,701, that in the working age group 15-59 years at 811,291 and that under 15 years at 306,394. The pensioner support ratio, defined as the number of persons of working age (15-59) years per old age pensioner (aged 60 years and over) worked out to 7.0. The index of ageing defined as the number of persons aged 60 years and over per 100 children aged under 15 years was 37.8. The pensioner support ratio is expected to fall to about 2.3 and the index of ageing to increase to 135.1 in 2044.

It is expected that the number of beneficiaries of Basic Retirement Pension, which was around 119,400 in 2004 will increase to about 361,600 in forty years while the number of these persons who will suffer from a severe disability will rise from 16,400 to 54,300.

The number of beneficiaries of Basic Widow's Pension, which was 22,800 in June 2004, is expected to grow to about 30,400 in the next four decades. During that period, the number of beneficiaries of Basic Invalid’s Pension will increase from 25,000 to around 29,300.

The amount to be disbursed by government on Basic Retirement pensions (including Enhanced Basic Retirement Pension and Child’s Allowance) is expected to triple from Rs 3.2 billion in 2003/2004 to around Rs 9.8 billion in some forty years due to the ageing of the population.

The chart below (Figure 2) shows the evolution in the number of beneficiaries and future cost of the Basic Retirement Pension.

![Figure 2 - Projected number of Retirement Pension beneficiaries and future cost, 2003/04 - 2043/44](chart.png)
As for the other pensions, namely, Basic Widow's pensions, Basic Invalid's pensions and Basic Orphan's pensions, the future costs will increase in line with the projected number of beneficiaries. These pensions are expected to total Rs 1.6 billion within the next forty years compared to Rs 1.4 billion in 2003/2004.

</table>
1.0 - All future costs are calculated on pension rates of 2003/2004 (flat rate).

2.1 - Basic Retirement Pension (including Enhanced Basic Retirement Pension and Child's Allowance)

Beneficiaries of Basic Retirement Pension
These are assumed to be the projected population aged 60 and over.

Beneficiaries of Enhanced Basic Retirement Pension
The proportion of beneficiaries of BRP who obtain this additional pension has been worked out by 5-year age-group and sex for 2004. It has been assumed that this proportion remains constant during the projected period.

Beneficiaries of Child's Allowance
The proportion of children receiving Child's Allowance (BRP cases) has been worked out by 5-year age-group and sex for 2004. It has been assumed that this proportion remains constant during the projected period.

2.2 - Basic Widow's Pension (including Child's Allowance)

Beneficiaries of Basic Widow's Pension
The proportion of women who are widows has been worked out by 5-year age-group for 2004. It has been assumed that this proportion remains constant during the projected period.

Beneficiaries of Child's Allowance
The proportion of children receiving Child's Allowance (BWP cases) has been worked out by 5-year age-group and sex for 2004. It has been assumed that this proportion remains constant during the projected period.

2.3 - Basic Invalid's Pension (including Carer's Allowance and Child's Allowance)

Beneficiaries of Basic Invalid's Pension
The proportion of the population who are such pensioners has been worked out by 5-year age-group and sex for 2004. It has been assumed that this proportion remains constant during the projected period.

Beneficiaries of Carer's Allowance
It has been assumed that the proportion of BIP beneficiaries who obtain this additional pension remains the same as in 2004.

Beneficiaries of Child's Allowance
The proportion of children receiving Child's Allowance (BIP cases) has been worked out by 5-year age-group and sex for 2004. It has been assumed that this proportion remains constant during the projected period.

2.4 - Basic Orphan's Pension (including Guardian's Allowance)

Beneficiaries of Basic Orphan's Pension
The proportion of children receiving Basic Orphan's Pension has been worked out by 5-year age-group and sex for 2004. It has been assumed that this proportion remains constant during the projected period.

Beneficiaries of Guardian's Allowance
The average number of beneficiaries of Basic Orphan's Pension per guardian has been assumed to remain the same as in 2004.
