Appendix : Population census schedule and population census map	Pocket in back cover

Introduction

1. General

This report is the fifth in the series published on the 1972 Housing and Population Census of Mauritius. It presents the final results of the population census of the island of Mauritius. Those of the housing census for the island of Mauritius have been published separately.

2. Historical background

Census taking in Mauritius dates as far back as the 18th century. The first complete census of the island of Mauritius, then known as Isle de France, was taken in 1735 under the governorship of Mahé de Labourdonnais. Since then numerous complete censuses or partial counts of the population have been made. Manuscript results of two complete censuses taken in 1776 and 1786 are still extant and are preserved in the archives of the 'Ministère de la France d'Outre-Mer' in Paris.

The first census report to be printed was probably that of 1846, but no copy has been traced in Mauritius. For all subsequent censuses, copies of printed reports are kept in the Archives of Mauritius.

The 1846 census was followed by that of 1851. Since then, up to 1931, censuses have been taken every ten years. With the outbreak of the second world war, the one which was due in 1941 had to be postponed to 1944. As from 1952, censuses have again been taken every ten years.

3. A joint housing and population census taken in two rounds

The 1972 census was a joint housing and population census but was taken in two rounds. Two separate schedules were used and subsequently the two sets of data have been matched by computer.

The housing census was taken at the first round between the 15th March and the 15th June 1972. It was followed by the population census at the end of June; census night was the night of the 30th June to 1st July 1972.

For the housing census, all buildings were visited. Information was collected on the structural characteristics of those that served wholly or partly for residential purposes. Further, to determine the housing conditions under which the population was living, information was recorded for each set of living quarters identified, on the number of rooms, the availability of facilities such as toilet, bathroom and kitchen, and on the provision of water and electricity.

At the housing census, a list of all heads of households was drawn up. The list served as frame for the population census and a separate questionnaire was used to collect demographic, economic and social data from each household.

4. Legal basis

The census was taken according to provisions laid down in Ordinance No. 11 of 1951 (the Statistics Ordinance). The questionnaire used for the Housing Census was prescribed in regulations published in Government Notice No. 31 of 1972 and that for the Population Census in Government Notice No. 44 of 1972.

5. Recommendations of the United Nations

The recommendations made by the United Nations in statistical papers "Principles and Recommendations for the 1970 Population Censuses" (Series M No. 44 and 45) have been followed as far as possible. The concepts and definitions published in these papers have been extensively used, with only slight modifications, where necessary, to suit local conditions.

The concepts and definitions used for the population census are published at pages vii to ix.

6. International classifications used

The International Standard Industrial Classification of All Economic Activities (ISIC) - Series M No. 4, Rev. 2 Add. 1 - has been used to classify the branches of economic activity in which the economically active persons were engaged.

Occupations have been classified according to the International Standard Classification of Occupations (revised edition, 1968) of the International Labour Office.

7. Financial and technical assistance from the United Nations

The United Nations Fund for Population Activities kindly accepted to finance part of the cost of the census. It has contributed towards the rental of the computer, the cost of punch cards and other supplies for the computer, the salaries of a systems analyst and of punch and verifier operators. It has also financed the assignment of a demographer to assist in the evaluation and analysis of the census data.

Mr. Z. Rajakovic, Regional Adviser in Demographic and Social Statistics of the United Nations Economic Commission for Africa and Mr. P. G. Bantegui, Population Programme Officer of the United Nations Development Programme, gave very useful advice on the planning and conduct of the census during their respective visits to this country.

8. Preparatory work done at the housing census

The housing census commenced on the 15th March, and was completed a fortnight before the population census. For the housing census, the island was divided into 21 census districts which were further subdivided into 376 enumeration areas with approximately 400 to 500 households each.

For urban areas, the delimitation of enumeration areas was done on the latest maps available from the municipalities. For rural areas the 1 : 25,000 map of the Ministry of Housing, Lands and Town and Country Planning was used. At the housing census, while buildings were being enumerated, a list of all heads of households and their addresses was compiled. The list served as frame for the population census. All buildings that were vacant or under construction were included in the list.

The taking of the population census

9. Enumeration procedure

For the housing census each enumeration area was covered by a chief enumerator. For the population census, each chief enumerator has a team of 5 to 7 enumerators to carry out, under his supervision, the census in his area.

As from mid-May, the enumerators received intensive training from their supervisors and the senior supervisors. They were also taken on reconnaissance rounds by their chief enumerators and were given a small plan showing how the buildings in the area they had to cover has been numbered at the housing census.

The office staff had, in the meantime, numbered and addressed a census form for each household that had been registered by the chief enumerators at the housing census. Forms were also prepared for buildings that were either vacant or under construction at the time of the housing census.

The census forms were delivered by the enumerators to households from the 26th to the 29th June.

Collection of the census forms started on the 1st July. While collecting the forms, enumerators has to record personally information on economic activity in columns 16 to 23 of the forms. There were instructions on the forms to draw the attention of households not to fill in these columns, as this was to be done by enumerators only. The latter had also to fill in completely forms for households which had not been able to do so.

By the 9th July, almost all census forms had been collected.

10. Population enumerated

The count was made on a "de facto" basis. All persons alive in Mauritius at midnight on census night, 30th June - 1st July 1972, were enumerated, whether they were residents or not.

Passengers and crews of ships lying at anchor in the harbour of Port Louis were also enumerated. They numbered 224 but have not been included in the census figures.

11. Place of enumeration

All persons were enumerated at the place where they spent the census night, whether it was their place of usual residence or not. However, a question was asked of households on their usual address, and, when entire households did not spend the night at their usual address, they were, as far as possible, enumerated at their usual place of residence.

12. Topics covered by the census

The following topics were covered at the census:-

Geographical characteristics

- (i) place where found at time of census;
- (ii) place of birth;
- (iii) duration of residence.

Personal and household characteristics

- (iv) household composition;
- (v) sex;
- (vi) age;
- (vii) marital status;
- (viii) citizenship and community;

- (ix) religion;
- (x) language;
- (xi) school attendance and level of education;
- (xii) age at marriage;
- (xiii) duration of marriage;
- (xiv) children born alive;
- (xv) children living.

Economic characteristics

- (xvi) type of activity;
- (xvii) industry;
- (xviii) occupation;
- (xix) employment status.

A copy of the census questionnaire is appended at the end of the report.

13. Population by locality

Legal boundaries exist for geographical districts, electoral districts, municipal areas and village council areas. However, villages and hamlets, whether falling within or outside the limits of village council areas, do not have legal or fixed boundaries, and, quite often consist of clusters of houses. Sometimes, when expanding, neighbouring villages merge together. It then becomes impossible to delimit each one of them. Some of the localities listed in 1962 could not therefore be demarcated at this census. On the other hand, some new localities have sprung up since 1962. Besides, it is possible that boundaries of villages within which enumeration was carried out have differed from one census to another.

14. Field Staff

The field staff recruited for conducting the housing census was reinforced by 2,100 enumerators for the population census, bringing the field enumeration force to 2,503, consisting of:-

1 Deputy Census Commissioner
4 Senior Supervisors
22 Supervisors
376 Chief Enumerators
2,100 Enumerators

The chief enumerators who had performed the enumeration of buildings at the housing census, supervised the work of the enumerators in their enumeration areas. They were specially responsible for ensuring that every household in their area filled in a census form. They had also to check the forms for completeness. In cases of serious omissions, the forms were returned to the enumerators who had to obtain the missing information from the households.

The supervisors trained enumerators and chief enumerators for the census and supervised the taking of the census in their districts.

The senior supervisors and the deputy census commissioner supervised the training of the staff and controlled the whole operation.

15. Processing of data

The data were processed by the Data Processing Division of the Ministry of Finance on a 1900 ICL computer.

The census data on housing and population were processed independently and were matched at a later stage to relate the demographic and economic characteristics of households and population to the characteristics of dwellings in which they were living.

Complete matching of the two sets of data has not been possible due to households moving between the housing and population censuses. For the island of Mauritius matching has not been possible for 2,038 households consisting of 1,697 family nuclei and 8,167 persons, i.e. for slightly less than 1% of the population.

16. Publication of results

The preliminary results of the census have been presented in two volumes:

1972 Housing Census of Mauritius

1972 Population Census of Mauritius

Previous to this one, two other reports have been published on the final results of the census. One covered the housing and population census of the island of Rodrigues and the other the housing census of the island of Mauritius.

17. Acknowledgements

We wish to thank all members of the office and field staff who were engaged in the census. The success of the census was to a large measure the result of their sustained efforts at all stages of the census. Our thanks also go to the staff of the Data Processing Division of the Ministry of Finance for processing the data.

We are grateful to the United Nations Fund for Population Activities for their kind financial and technical assistance.

We wish to thank the public for their helpful co-operation and to express our gratitude to the large number of persons and organizations who have contributed to make the census a success.

J. AH KONG
Director of Statistics

Central Statistical Office,
Rose Hill.

February 1976.

Concepts and definitions

1. Household

A household is either:-

- (a) A person who makes provision for his own food or other essentials for living; or
- (b) A group of two or more persons related by ties of kinship or not, who make common provision (i.e. who share the expenses) for food and other essentials for living.

Two families living in a housing unit constitute one household if they have common housekeeping arrangements, but are considered as separate households if they have separate housekeeping arrangements.

- (c) In case of varying degrees of housekeeping, a group of persons who share at least one meal a day is regarded as one household.

2. Family Nucleus

A family nucleus is either:-

- (a) a married couple without children;
- (b) a married couple with one or more never-married children;
- (c) one parent (either father or mother) with one or more never-married children.

Couples in consensual unions are regarded as married couples.

3. Age refers to completed years or age at the census date and has been calculated from the date of birth given in col. 4 of the questionnaire.

4. Marital Status

- (i) Single persons are persons who have never married (i.e. bachelors and spinsters).
- (ii) Married persons include persons who are currently married religiously and civilly, married religiously only and married civilly only.
- (iii) Consensually married persons are those living in a union but not married religiously or civilly.
- (iv) Widowed persons are those who have not remarried since their spouse died.
- (v) Divorced persons are those who have not remarried after divorce.
- (vi) Separated persons include those who are separated legally or not and have not remarried.

5. Linguistic group refers to the language spoken by the person's fore-fathers.

6. Usual language means the language usually or most often spoken by the individual in his home. For children who were not yet able to speak, the usual language of the parents was adopted.

"Créole patois", a vernacular derived mostly from French, has been accepted as a language for the purposes of the census.

7. Educational attainment:- For persons who have "attended school in the past", information relates to the highest level of education completed i.e. to the highest degree, diploma or certificate obtained.

For persons "now attending school, college or university", the data refer to the standard, form or course being attended.

8. Economic Activity

Population covered:- The statistics on economic activity refer to the enumerated population aged 12 and over, excluding the persons on visit to Mauritius, either on business or on holiday.

Type of Activity

Columns 16 and 17 of the questionnaire allow for the classification of the population into those economically active and those economically inactive and further into those in and out of employment among the economically active.

Economically active persons are those aged 12 and above, who furnished the supply of labour for the production of economic goods and services at any time during the month of June 1972. They comprise persons in employment and persons out of employment who have been looking for work.

Persons in employment are those who,

- (a) at some time during the month of June,
 - (i) have worked for pay or profit or have performed work in anticipation of money earnings to be received at some future date, or have helped, without pay, a member of the same household in his enterprise for at least 3 hours each working day or for six full working days which need not be consecutive. Enterprise includes: workshop, shop, plantation, cow-keeping, cattle rearing, dairying, fishing, handicrafts, etc;
 - (ii) although being old age or retired pensioners or engaged in household duties, have been working for pay or profit or have helped, without pay, in a family enterprise as mentioned in (i) above;
 - (iii) although receiving a regular wage or salary were attending a training course;
- (b) had a job but were on sick or local leave during the whole month of June.

Persons not in employment and looking for work are those who,

- (a) had not worked during the month of June and had been looking for work during the month of June or previously.
- (b) were out of work during the month of June and could not look for a job because of temporary sickness.

A person is considered as "looking for work" if he/she has made a positive effort to find work by :-

- (a) placing advertisements or answering advertisements;
 - (b) writing letters of application;
 - (c) registering with an employment exchange;
 - (d) visiting prospective employers;
 - (e) enquiring from other persons about existing vacancies; or
 - (f) asking other persons to find a job for him/her.

Persons not in employment and looking for work have been classified into 2 categories:

- (a) "first job seekers" i.e. those who had never worked before, and
 - (b) "employed before" i.e. those who were working previously, including self-employment and who were out of work during the month of June.

Economically inactive persons are those aged 12 and above who were neither engaged in gainful economic activity nor were on sick leave during the month of June 1972 and were not looking for work. These include housewives, wholly retired persons and rentiers not engaged in other gainful activity; children between ages 12 and 15 who were not at school and not looking for work; persons engaged in unpaid voluntary work and permanently disabled persons; full time students even if they have also been engaged in any paid activity or have helped in a family enterprise.

However, exception has been made in the case of inmates of resident institutions such as convents, mental and penal institutions, homes for the care of the aged or children, who were engaged in producing goods of economic value and members of cloistered institutions who worked for the congregation. Such persons have been treated as economically inactive.

The residual category of persons who were neither engaged in gainful economic activity nor looking for work, who were not income recipients and did not fall under any of the categories mentioned above, is also included among the economically inactive.

Table 1 - Population of island of Mauritius as enumerated at each census
(1846 - 1972)

Census year	Population enumerated at Census			Intercensal increase	Average annual rate of increase %

Manufacture of soap and cleaning preparations, perfumes, cosmetics and other toilet preparations	123	96	27
Manufacture of chemical products not elsewhere classified	211	85	128

Table 39 (cont'd) - Population in employment (12 years of age and over) by detailed industrial classification and sex

	Industrial classification (Major division, division, major group and group of the ISIC, Revised Edition, 1968)	Both sexes	Male	Female
Manufacture of Chemicals and of Chemical, Petroleum, Coal, Rubber and Plastic Products (cont'd)				
Manufacture of miscellaneous products of petroleum and coal		8	8	-
Manufacture of miscellaneous products of petroleum and coal		164	161	3
Manufacture of rubber products		28	9	19
Tyre and tube industries		19	12	7
Manufacture of rubber products not elsewhere classified		871	336	25
Manufacture of plastic products not elsewhere classified		40	38	2
Manufacture of plastic products not elsewhere classified		91	71	20
Manufacture of Non-Metallic Mineral Products, except Products of Petroleum and Coal		740	727	13
Manufacture of glass and glass products		160	156	4
Manufacture of glass and glass products		160	156	4
Manufacture of other non-metallic mineral products		160	156	4
Manufacture of lime		160	156	4
Manufacture of non-metallic products not elsewhere classified		2,479	2,426	53
<u>Basic Metal Industries</u>				
Iron and steel basic industries				
Iron and steel basic industries		312	304	8
Manufacture of Fabricated Metal Products, Machinery and Equipment		188	187	1
Manufacture of fabricated metal products, except machinery and equipment		31	29	2
Manufacture of cutlery, hand tools and general hardware (including razor blade)		283	275	8
Manufacture of furniture and fixtures primarily of metal				
Manufacture of structural metal products				
Manufacture of fabricated metal products, except machinery and equipment not elsewhere classified				

Table 39 (cont'd) - Population in employment (12 years of age and over) by detailed industrial classification and sex

Industrial classification (Major division, division, major group and group of the ICI, revised Edition, 1962)	Both sexes	Male	Female
Manufacture of Fabricated Metal Products, Machinery and Equipment (cont'd)			
Manufacture of machinery except electrical			
Manufacture of agricultural machinery and equipment (including repair)	120	115	5
Manufacture of metal and wood working machinery	423	415	8
Manufacture of special industrial machinery and equipment except metal and wood working machinery (including alteration and repair)	23	22	-
Manufacture of office, computing and accounting machinery (including renovation and repair)	12	12	-
Manufacture of electrical machinery, apparatus, appliances and supplies			
Manufacture of electrical industrial machinery and apparatus (including renovation and repair)	30	29	1
Manufacture of electrical apparatus and supplies not elsewhere classified	46	46	-
Manufacture of transport equipment			
Ship building and repairing	609	795	14
Manufacture of tramway on sugar estates	32	38	-
Manufacture of motor vehicles (including assembly, re-building and major alteration)	135	134	1
Manufacture of transport equipment not elsewhere classified	5	4	1
Manufacture of photographic and optical goods			
Manufacture of photographic and optical goods	24	20	4
Other Manufacturing Industries	849	623	226
Other manufacturing industries			
Manufacture of jewellery and related articles	541	493	48
Cutting and polishing of precious and semi-precious stones	118	70	48

Population Census of Mauritius

30th June-1st July 1972

These notes are to help you in filling in the census form. If you have any other difficulty, please ask the enumerator to guide you when he calls to collect your form

Column 1—NAMES AND SURNAME

(i) HOUSEHOLD

A household may be either:

- (a) a one-person household, that is, a person who makes provision for his own food or other essentials for living;
- (b) a group of two or more persons who may or may not be related by ties of kinship, but who make common provision (i.e. who share the expenses) for food or other essentials for living. Two families living in one house constitute one household if they have common housekeeping arrangements, but should be considered as separate households if they have separate housekeeping arrangements and should then be entered on two separate census forms.

All members of the household who are present on census night must be counted. *Do not include those who are absent unless they come back on the next day and have not been counted elsewhere.*

Must be counted also other persons who, though not usually forming part of the household (e.g. relatives, visitors, boarders or servants), spend the census night on the premises or arrive the next day *without* having been counted elsewhere.

(ii) NAMES AND SURNAME

In entering a person's name, the surname should be written first. Where the surname is the same as on the line above, 'ditto marks' can be entered instead.

(iii) HEAD OF HOUSEHOLD

Enter as head of household the person who is acknowledged as such by the other members of the household. In an institution or hotel, enter as head the highest ranking officer or employee.

(iv) INSTITUTIONS

The names of persons belonging to the general institutional household should be entered in the following order: head, other officers or employees, inmates, servants. Separate households in one institution should be entered separately.

Column 2—RELATIONSHIP TO HEAD OF HOUSEHOLD

Describe other members of the household according to their relationship to the head of the household. Where members of the same household constitute a separate family from that of the head of the household (e.g. a married son, his wife and children), this separate family, while forming part of the same household, should be clearly shown by placing the members within brackets, thus: {, in column 1.

Column 5—AGE

For persons over 1 year, the age should be given in completed years as at the date of the 30th June 1972.

For children under 1 year, the age should be entered in completed months as at the date of the 30th June 1972.

It is important that the exact age be given. In case of doubt, the birth certificate should be consulted.

Column 10—COMMUNITY

According to paragraph 3 (4) of Schedule I to the Constitution, the population of Mauritius is regarded as including: "A Hindu community, a Muslim community and a Sino-Mauritian community and every person who does not appear, from his way of life, to belong to one or other of those three communities shall be regarded as belonging to the General Population, which shall itself be regarded as a fourth community".

Further, by virtue of paragraph 5 (8) of the same Schedule, the results of the latest published official census of the whole population of Mauritius shall be used to determine the allocation of additional seats in the Legislative Assembly.

Column 11—RELIGION

Insert the appropriate religious denomination:

Roman Catholic	Hindi-speaking Sanatanist
Church of England	Marathi-speaking Sanatanist
Church of Scotland	Telugu-speaking Sanatanist
Adventist	Tamil-speaking Sanatanist
Baptist	Gujrati-speaking Sanatanist
Christian Science	Hindi-speaking Arya Samajist
New Jerusalem	Marathi-speaking Arya Samajist
Methodist	Telugu-speaking Arya Samajist
Jewish	Tamil-speaking Arya Samajist
Jehovah's witness	Gujrati-speaking Arya Samajist
Quaker	Kabir-Panthis

.....

Sunnee Hanafee

Sunnee Shafee

Shiah.

Ahmadi

.....

Buddhist

Confucian

.....

Baha'i

Other religion, specify.....

Columns 12 and 13—LINGUISTIC GROUP AND USUAL LANGUAGE

For the purposes of the census only, 'créole patois' should be considered as a language.

Column 15—LEVEL OF EDUCATION

For persons who have, *in the past*, attended primary schools *only*, the highest standard passed should be inserted. VIth Standard should be inserted only for persons who have actually obtained the Primary School Leaving Certificate from the Ministry of Education.

For persons who have attended secondary schools *in the past* and who have *not* passed the Cambridge School Certificate or Senior Cambridge, or the General Certificate of Education (Ordinary Level) in at least 5 subjects, or the London Matriculation, or the Brevet d'Etudes du Premier Cycle (B.E.P.C.), insert 'L. S.' for Lower Secondary.

If a person holds any of the following qualifications, insert the *highest* certificate, degree or diploma obtained:

- (a) Primary School Teachers' Certificate.
(b) Cambridge School Certificate or Senior Cambridge, G.C.E. 'O' level (in at least 5 subjects), B.E.P.C.
(c) Higher School Certificate, G.C.E. 'A' level, Inter B.A., Inter B.Sc., Baccalauréat.
(d) A university degree or diploma.
(e) Membership of a professional institution.

If there is any difficulty in deciding which of two qualifications held by a person is the higher, insert both.

For university degrees and professional diplomas, the qualification, the major subject or subjects and the awarding institution should be mentioned.

Recensement de la Population de Maurice

30 juin au 1er juillet 1972

Ces notes sont destinées à vous aider à remplir le formulaire du recensement. Si vous éprouvez quelque autre difficulté veuillez demander à l'agent recenseur de vous guider lorsqu'il passera pour recueillir votre formulaire.

Colonne 1 — NOM ET PRENOMS

(i) Ménage

Un ménage peut être, soit:

- (a) un ménage composé d'une personne, c'est-à-dire une personne qui subvient elle-même à ses besoins essentiels, alimentaires et autres; ou
- (b) un groupe de deux ou plusieurs personnes apparentées ou non apparentées qui s'associent afin de pourvoir à leurs besoins alimentaires et à leurs autres besoins vitaux.

Deux familles vivant sous le même toit constituent un ménage si elles mettent leurs revenus en commun et ont un budget unique; mais elles doivent être considérées comme deux ménages si elles ont deux budgets séparés. Elles doivent alors être inscrites sur deux formulaires séparés.

Tous les membres du ménage présents la nuit du recensement doivent être comptés. *N'inclure les membres absents que s'ils reviennent le lendemain et s'ils n'ont pas été comptés ailleurs.* Doivent aussi être comprises les autres personnes, telles que des parents, des visiteurs, des pensionnaires ou des serviteurs, qui, quoique habituellement ne faisant pas partie du ménage, passent la nuit du recensement sur les lieux, ou arrivent le lendemain sans avoir été comptées ailleurs.

(ii) Nom de famille et prénoms

En inscrivant le nom d'une personne, écrire d'abord le nom de famille. Si le nom de famille est le même que pour la ligne précédente, inscrire 'ditto'.

(iii) Chef de ménage

Inscrire comme chef de ménage la personne qui est reconnue comme tel par les autres membres du ménage. Dans une institution ou un hôtel, inscrire comme chef la personne qui détient l'autorité.

(iv) Institutions

Pour les institutions, inscrire les noms dans l'ordre suivant: chef, autres employés, pensionnaires, serviteurs. Les membres du personnel qui vivent seuls ou avec leurs familles dans un immeuble séparé de l'institution mais dans la même cour, doivent être comptés comme des ménages séparés et doivent être inscrits sur un formulaire séparé.

Colonne 2 — LIEN DE PARENTE AVEC LE CHEF DE MENAGE

Désigner les autres membres du ménage selon leur lien de parenté avec le chef de ménage.

Si les membres d'un même ménage constituent une famille distincte de celle du chef de ménage—par exemple un fils marié, son épouse et ses enfants—tous les membres de cette famille doivent être accolés ainsi: , à la colonne 1.

Colonne 5 — AGE

Pour les personnes âgées de plus d'une année, indiquer l'âge en années révolues au 30 juin 1972.

Pour les enfants de moins d'un an, indiquer l'âge en mois révolus au 30 juin 1972.

Il est important de donner l'âge exact. En cas de doute, consulter l'acte de naissance.

Colonne 10 — COMMUNAUTE

Conformément au paragraphe 3 (4) de l'Annexe I à la Constitution, la population de Maurice est considérée comme comprenant une communauté hindoue, une communauté musulmane et une communauté sino-mauricienne, et, toute personne qui ne semble pas, par son mode de vie, appartenir à l'une de ces trois communautés sera considérée comme appartenant à la Population Générale qui sera elle-même considérée comme une quatrième communauté.

De plus, en vertu du paragraphe 5 (8) de la même Annexe, les résultats du dernier recensement officiel publié de toute la population de Maurice serviront à déterminer l'allocation des sièges additionnels à l'Assemblée Législative.

Colonne 11 — RELIGION

Inscrire la religion qui convient selon le cas:

Catholique romain	Sanataniste parlant l'Hindi
Eglise d'Angleterre	Sanataniste parlant le Marati
Eglise d'Ecosse	Sanataniste parlant le Télougou
Adventiste	Sanataniste parlant le Tamil
Baptiste	Sanataniste parlant le Gujrati
Science Chrétienne	Arya Samajiste parlant l'Hindi
Nouvelle Jérusalem	Arya Samajiste parlant le Marati
Méthodiste	Arya Samajiste parlant le Télougou
Juif	Arya Samajiste parlant le Tamil
Témoin de Jéhovah	Arya Samajiste parlant le Gujrati
Quaker	Kabir-Panthis
.....
Sunnee Hanafee
Sunnee Shafee
Shiah
Ahmadi
.....
Bouddhiste
Confucien
.....
Baha'i
Autre religion, spécifier

Colonnes 12 et 13 — GROUPE LINGUISTIQUE ET LANGUE HABITUÉLLEMENT PARLEE

Pour les besoins du recensement seulement, le 'patois créole' doit être considéré comme une langue.

Colonne 15 — NIVEAU D'INSTRUCTION

Pour les personnes qui, dans le passé, n'ont fréquenté que les écoles primaires, inscrire la classe (primaire) la plus élevée qu'ils ont passée. Ne mentionner 'la sixième' que lorsque la personne a, en fait, obtenu un certificat de la Sixième du Ministère de l'Education.

Inscrire 'L. S.' pour 'Lower Secondary' pour les personnes qui, dans le passé, ont fréquenté des écoles secondaires mais n'ont pas passé l'examen de la Cambridge School Certificate ou de la Senior Cambridge ou de la General Certificate of Education (G.C.E.), ordinary level, dans au moins cinq matières, ou de la Matriculation, ou du Brevet d'Etudes du Premier Cycle (B.E.P.C.).

Si une personne détient un ou plusieurs des certificats ou diplômes suivants, inscrire le certificat, la licence ou le diplôme du niveau le plus élevé:

- (a) Certificat d'aptitude à l'enseignement primaire.
- (b) Cambridge School Certificate ou Senior Cambridge G.C.E. 'O' level (dans au moins 5 matières), B.E.P.C.
- (c) Higher School Certificate, G.C.E. 'A' level, Inter B.A., Inter B.Sc., Baccalaureat.
- (d) Un degré, une licence ou un diplôme d'une université.
- (e) Appartenance à une association professionnelle.

Au cas où il serait difficile d'établir lequel de deux diplômes détenus par une personne est du niveau le plus élevé, inscrire les deux.

En ce qui concerne les licences ou degrés universitaires et les diplômes professionnels, inscrire le titre du diplôme obtenu, la matière principale ou les matières principales et l'institution d'enseignement supérieur où ce degré ou diplôme a été délivré.
