OF

# MAURITIUS AND ITS DEPENDENCIES

TAKEN

ON THE 4<sup>TH</sup> APRIL 1881.

---

MAURITIUS:

THE MERCANTILE RECORD COMPANY PRINTING ESTABLISHMENT

1881.

CENSUS OFFICE,  
6th December 1881.

To

HIS EXCELLENCY

FREDERICK NAPIER BROOME, ESQ., C.M.G.,

*Lieutenant-Governor of Mauritius & its Dependencies,*

&c., &c., &c.

May it please Your Excellency,

I have the honor to submit to Your Excellency the detailed abstracts of the results of the Census of this Colony and its Dependencies which, in accordance with Ordinance No. 15 of 1880, was taken on the 4th April last.

*Appointment.*

2. In July 1880, I was informed that it was the intention of His Excellency the Governor to appoint me Census Commissioner, and I was instructed to make the necessary arrangements for the preparation of a Census Map, &c.

*Census Ordinance.*

3. On the 3rd August 1880, Ordinance No. 15 "For taking the Census of Mauritius and its Dependencies" was passed in Council, and my appointment as Census Commissioner, was duly notified in the Government Gazette, under Notice No. 164 of the 5th August.

*Census Map.*

4. The first thing I did was to put myself in communication with the Draughtsman in the Public Works' Department, Mr. Descubes, to whom the necessary instructions were given regarding the various census areas of the several districts, and the accompanying map was thereupon drawn up in accordance with the District Boundary Ordinance of 1875. The number, names and limits of each section will be found clearly defined in Appendix No. 1 of this Report. In addition to the general map, Mr. Descubes prepared a plan for each Enumerator, the Superintendents being furnished with the maps of their districts as lithographed by Mr. Crook with the several sections clearly outlined. It affords me much pleasure to state that the assistance I received from Mr. Descubes was invaluable.

*Services of Sanitary  
Officers and of Police.*

5. I also put myself in communication with the President of the General Board of Health and asked that the services of the Sanitary Warden be placed at my disposal, on the distinct understanding that the Census work should not interfere with his ordinary duties; but I regret to say that my application did not meet with the approval of the Board. I was more successful, however, in an application to the late Mr. Spencer, who, at the time, was Acting Inspector General of Police, and who, at my request, kindly placed the services of all his officers and men at my disposal.

*Superintendents.*

6. I selected as Superintendents several gentlemen who had acted in that capacity in 1871, and others who were well acquainted with the localities over which they were to exercise supervision in regard to Census matters, and I left the nomination of Enumerators and Sub-Enumerators entirely in their hands as I held them directly answerable for any lapses on the part of their nominees. The names of the Enumerators and Sub-Enumerators submitted by the Superintendents met with no opposition on my part:—they were accordingly enlisted, after having subscribed before me a declaration to the effect that they would carry out the requirements of the Ordinance to the best of their skill and ability.

*Names of Superin-  
tendents.*

7. The following gentlemen were entrusted with Superintendentships:—

<i>Port Louis</i> ... ..	Messrs. Elmour Hitié
<i>Pamplemousses—North</i> ...	E. Vigoureux de K <sub>1</sub> Morvant
— <i>South</i> ...	T. N. Graves
<i>Rivière du Rempart</i> ...	E. Bernon
<i>Ulcq</i> ... ..	H. Piat
<i>Grand Port—Upper</i> ...	F. Sheppard
— <i>Lower</i> ...	H. Byrnes
<i>Savanne</i> ... ..	T. Cannon
<i>Black River</i> ... ..	F. L. de la Butte
<i>Plaines Wilhems—Upper</i> ...	J. Robert
— <i>Lower</i> ...	A. Langlois
<i>Moka</i> ... ..	G. de Rauville

Messrs. Hitié, Vigoureux de K<sub>1</sub>Morvant, de la Butte, Langlois and de Rauville were Superintendents of the districts opposite their respective names at the taking of the Census in 1871.

*Efficient assistance  
rendered.*

8. I cannot speak too highly of the manner in which the Superintendents, Enumerators, and Sub-Enumerators attended to their duties, and the result obtained is due, in a very great measure, to them, and to the efficient assistance rendered by the employers of labor.

*Superintendent of Port  
Louis.*

9. As to the Superintendent of Port Louis, he took the matter completely to heart and did more than could have been reasonably expected of him. In company of certain Enumerators he called at the principal lodging-houses in town between 12 and 4 on the morning of the 4th April and, meeting with no opposition, he there and then filled up the Schedules of the inmates of those dwellings. He went to the Mahomedan Mosque in Royal Street, at 2 o'clock that morning, and claimed admission, which, after some hesitation, was granted, when he booked 52 Indians who were sleeping all over the place, and who would, under other circumstances, have escaped enumeration.

*Instructions to Superintendents and Enumerators.*

10. The instructions issued to the Superintendents and Enumerators (Appendices Nos. 3 and 4) differed in very slight essentials from those issued by the Census Commissioner of 1871, the Honorable H. N. D. Beyer, C.M.G.;—the principal difference consisted in this that the Enumerators were furnished with plans on a large scale, of their respective areas, with the names and limits of each, and the Superintendents were instructed to be particularly careful that *each* village and hamlet should be enumerated *separately*.

*Interview with Census Officers.*

11. I followed the instructions laid down in the 3rd paragraph of Article 2 of Ordinance No. 15 of 1880 to the very letter, and ascertained from the Superintendents and Enumerators, by personal communication with them on their respective areas, that they were well acquainted with the boundaries of their sections and thoroughly understood the manner in which their duties had to be performed.

*Division of Island. Enumerators.*

12. As will be seen on referring to Appendix No. 1, which gives the number, names and limits of each Census Section, the Island of Mauritius was divided into 107 Sections, each of which was placed under a special Enumerator, as follows :—

Port Louis	...	...	...	50	Sections
Pamplemousses	...	...	...	11	”
Rivière du Rempart	...	...	...	4	”
Flacq	...	...	...	6	”
Grand Port	...	...	...	7	”
Savanne	...	...	...	5	”
Black River	...	...	...	7	”
Plaines Wilhems	...	...	...	11	”
Moka	...	...	...	6	”

*Books issued to Officers.*

13. Each Superintendent was furnished with a Memo. book in which the divisions and boundaries of each Section of his district were well defined, and to which copies of Instructions both to Superintendents and Enumerators (Appendices Nos. 3 and 4) were annexed. Each Enumerator was supplied with a Memo. book, to which a plan of his Section and a copy of Instructions were annexed, and in which the boundaries of his Section were properly described.

*Public Notice.*

14. In March last, I published a notice in all the daily papers in English and French, and had posted up throughout the Colony, in all the principal places and in all nooks and corners, 5000 copies, in English, French, Hindi, Tamil, and Chinese, of Appendix No. 2, informing the public of the requirements of the Census Ordinance and the reasons which led to the enumeration of the inhabitants. I adopted this course because, in previous Censuses, the lower classes were led to believe that the object in view was to levy a capitation-tax,—“*taxe la tête*” as it was then currently called—and as I wished to remove all doubts which might exist in the minds of the public generally. I may as well mention that, at the time the notice was issued, some wags had spread the rumour that the Government, in taking the Census of 1881, only wished to ascertain the number of able-bodied men in the Colony in order to enrol them in regiments to be sent from this Colony to Natal to fight the “*White Zulus*” (Boers).

*Enumeration of Houses.*

15. In accordance with Article 14 of Ordinance No. 15 of 1880, the Enumerators had, within the first week of March, to take a written account of all the houses and huts, occupied or not, within their Section, on forms furnished by me, (Appendix No. 4);—which also shewed the number of house-holders who could not fill up their Schedules.

*House-holders' Schedules.* 16. As soon as the results had been reported to me, 60,000 house-holders' Schedules printed in English and French (Appendix No. 5) were issued to the Superintendents for distribution. These Schedules, with instructions at the back, only differed from those issued in 1871 in one or two particulars. It was considered advisable that the number of lepers in the Colony should be ascertained, and the information was accordingly asked for, and on the Schedule it was stated in very large type that "the information given for this Schedule will only be used for general statistical purposes and will otherwise be considered as strictly private."

*Sub-Enumerators.* 17. As I wished particularly that the Schedules of those who had stated that they could not fill them up,—and they numbered 31,265,—should be collected on the 4th April, I authorized the employment of 246 Sub-Enumerators, as follows:—

Port Louis	...	...	50	Sub-Enumerators
Pamplemousses	...	...	38	"
Rivière du Rempart	...	...	7	"
Flacq	...	...	37	"
Grand Port	...	...	28	"
Savanné	...	...	20	"
Black River	...	...	15	"
Plaines Wilhems	...	...	36	"
Moka	...	...	15	"

so that the staff at work on the 4th April, excluding the Superintendents, numbered 353.

*Deposit of Schedules.* 18. On the 30th March, the Enumerators, accompanied by the Sub-Enumerators appointed to assist them, began another tour through their Sections for the purpose of depositing the Schedules to be filled up by the house-holders, which Schedules had previously been numbered and addressed according to the order in which the names had been entered in the Return of Houses, and each Sub-Enumerator was not only shewn the various places where he would have to call, but also provided with a note of the different Schedules which he would have to fill up and collect.

*Collection of Schedules.* 19. As early as possible on the morning of the 4th of April, the Enumerators and Sub-Enumerators began their work, and after having collected and verified all their Schedules they handed them to the Superintendents who thereupon examined all the entries and made the necessary rectifications therein. They were afterwards sent to me;—on their receipt, I looked into every one of them, and had each Section bound up in books, with the divisions of villages, hamlets and sugar-estates properly noted thereon.

*Military.* 20. The Schedules relating to Her Majesty's Troops in the Colony were addressed to His Honor Major-General A. W. Murray, C.B., who kindly had them properly filled up.

*Shipping.* 21. Special Schedules were prepared for the shipping (not belonging to the Colony) in the Harbours and Roadsteads of the Island, and their distribution and collection were left to the charge of the Enumerator of Section No. 50.

## HOUSES.

*Houses in Mauritius.*

22. Appendix No. 6 gives the Number of Houses in each District of the Island, exclusive of those on Sugar Estates, and on comparing the return of 1881 with that of 1871, there is an increase of 10,140 in the decenniad, owing firstly to the increase in the population, and secondly to the fact that the huts on certain Sugar Estates which have been abandoned as such within the last few years were not taken into account in the previous Census. I may as well state here that the term *house* was taken in the same sense in 1881 as in 1871, viz: every distinct building, whether inhabited or not, was reckoned as a house.

*Houses in Port Louis.*

23. In Port Louis, the occupied houses of all sizes numbered 6,476 in 1881 against 6,071 in 1871, and the unoccupied, including stores, warehouses, uninhabited dwelling-houses and houses in course of construction 568 in 1881 against 667 in 1871.

24. The houses, exclusive of the Military Barracks, Civil and Military Hospitals, and Civil Prison, divided according to the numbers of their inmates, were as follows in 1881 and 1871:

Occupied by	Number of Houses.		1881	
	1881	1871	Increase.	Decrease.

*Increase of houses in*  
*1881.*

28. The following statement shews the increase in the number of houses in 1881 over 1871 in each district of the colony :

District.	Number of Houses.		Increase. 1881
	1881	1871

## POPULATION.

*Population of Mauritius.*

29. The total population of the colony on the 3rd April last, including the Military and all persons on board of vessels in the harbours and roadsteads of the colony as per Appendix 7, amounted to 360,847.

*Division of the population into two classes.*

30. As was done in 1861 and 1871, the population has been divided into two classes :—

- 1o. The Indian population ;
- 2o. The General population ;—

The former comprising not only Indians born in India, but all persons of unmixed Indian origin, whatever their birth-place or nationality, and the latter all the other inhabitants of the Island irrespective of descent, birth-place or nationality.

*Difficulties in future regarding proper classification of population.*

31. It has so far been comparatively easy to distinguish the one from the other, but the day is not far distant when such a distinction will be next to impossible, unless the parties themselves give their origin. In the present Census, I have seen the Schedule of an Indian of the name of Ramsamy who, on being christened, assumed the name of Pierre Antoine, and his wife, Meenatchee, that of Marie Rose ; and on the Schedule the *aliases* are given, thus : Ramsamy *alias* Pierre Antoine ; Meenatchee *alias* Marie Rose ; they have three children, one of whom is called François Xavier, the second Marie Ursule and the third Pierre Antoine. As soon as the parents disappear, who will be able to tell whether the children are of unmixed Indian origin or not ? I am rather inclined to believe that any one reading the name of François Xavier, would be sure to state that he belongs to the general population. It is no doubt desirable that the different classes of the population should continue to be enumerated separately from each other, but the time will come when it will be not only difficult but almost impossible to draw clear lines of demarcation between them. The same difficulty arose 20 years ago, when the population was divided into three classes :—

- 1o. General Population.
- 2o. Ex-apprentices.
- 3o. Indians.

The Census Commissioners of 1861 solved the problem by absorbing the class formerly called Ex-apprentices into the bulk of the General Population.

*Total population.*

32. The following statement shews the total population including the Military and Shipping not belonging to the Colony, at the several Censuses taken in this Colony :

Date of Census.	Indian Population.			General Population.			Total.		
	M.	F.	Total.	M.	F.	Total.	M.	F.	Grand Total.

*Resident population.* 33. The resident population of the Colony on the 3rd April last, excluding the Military and all persons on board ships not belonging to the Colony, amounted to 359,874, of whom 248,993 or 69.1 per cent were of the Indian Population, and 110,881 or 30.8 per cent of the General Population.

*Resident population at each Census.* 34. The following statement gives the number of the resident population at the several Censuses :

Date of Census.	Indian Population.			General Population.			Total.		
	M.	F.	Total	M.	F.	Total.	M.	F.	Grand Total.
August 1846	48935	7310	56245	55663	46551	102217	101598	53861	158462

*Population doubled in 25 years.* 35. From the above, it will be seen that, notwithstanding the severe Epidemics which visited this Island in 1854, 1856, 1862 and 1867, the population between August 1846 and April 1871,—not altogether 25 years,—had, within 882 souls, exactly doubled its numbers, owing to the impetus given to Indian Immigration in those years. In England and Wales, the population of 1801 doubled its numbers in 1851,—50 years.

*Rates of increase.* 36. The rates of increase in the resident population between the Censuses have been as follows :

From 1846 to 1851	...	...	...	14.1 per cent.
"   1851 " 1861	...	...	...	71.4 "   "
"   1861 " 1871	...	...	...	1.9 "   "
"   1871 " 1881	...	...	...	13.8 "   "

and between the two last Censuses :

The Indian male population	shews an increase of	6.7 per cent.
"   female	"   "   "	31.1 "   "
"   General male	"   "   "	10.6 "   "
"   "   female	"   "   "	11.5 "   "

The increase in the number of Indian females in the last decenniad is much less than from 1861 to 1871 when the increase was at the rate of 45.9 per cent.

*Population of each district of the Island.* 37. How the population was distributed over the Island on the 3rd April last is shewn in detail in Appendix No. 9, and the order in which the districts follow is in accordance with Ordinance No. 27 of 1875, the district boundary law.

*Sub-divisions of Villages, &c.* 38. I have given the population of as many sub-divisions of the Island as I possibly could, and villages even have been subdivided :—thus Curepipe, (Sections 98 and 99) the total population of which on the 3rd April last was 7,879 has been divided into 8 Sections, and, although the limits of these sub-divisions are not given, they are well known to the inhabitants of the various localities designated.

*Number of localities  
enumerated.*

39. The following is the number of sub-divisions in each district, including Sugar-Estates, of which the population has been given separately :—

Port Louis ... ..	...	...	...	50
Pamplemousses ... ..	...	...	...	83
Rivière du Rempart ... ..	...	...	...	41
Flacq ... ..	...	...	...	75

Black River ... ..	...	...	...	49
Plaines Wilhems ... ..	...	...	...	57
Moka ... ..	...	...	...	65
				568

*Population of districts  
at each Census.*

40. The Resident Population of each District was as follows at each of the five Censuses hitherto taken, the shipping belonging to the Colony being included in Port Louis, and the inhabitants of Flat Island, &c., being returned separately :—

	1846	1851	1861	1871	1881
Port Louis ... ..	45,212	49,909	74,426	63,230	66,625

	158,462	180,823	310,050	316,042	359,874

*Rates of proportion.*

41. The proportion which the Population of each district bore to the Total Resident Population at each Census is shown by the following figures :

Proportion per cent in	1846.	1851.	1861.	1871.	1881.
Port Louis ... ..	28.5	27.6	24.2	19.9	18.5

*Men engaged on Estates living in Villages.*

43. The population on Sugar-Estates on the 3rd April last thus constitutes 40.1 per cent of the resident population ; but the figures given above only shew those who actually spent the night of the 3rd April on the Estates. From returns applied for after the taking of the Census, it appears that on many estates all the men engaged to work do not sleep on the premises, and on enquiry I have found out that although lodging is duly found for all the laborers, many of them prefer living in villages adjoining the estates to which they belong, as they are not then subjected to what they consider very stringent measures as regards the live-stock kept in camps, &c., and in villages their families are more at liberty to attend to their cattle as they think proper without having to submit to the sanitary enactments of the labour law.

*Estimated population.*

44. In the periodical reports on Vital Statistics prepared by me as Registrar-General, an estimate has always been made of the population of the Colony at the end of the period under review, and it affords me much satisfaction to state that the difference between my estimate of the population on the 31st March last and the figures of the Census amounts only to 1,054 :— in other words, that in every 342 souls of the *estimated* population not more than *one* escaped enumeration—assuming the estimate to have been correct.

*Census of 1871 correct.*

45. The estimated population between 1871 and 1881 has been based on the figures of the Census of 1871, the correctness of which has been questioned on account of the great discrepancy which existed between the estimated and enumerated population of 1871. In estimating the population the number of deaths has, as a matter of course, to be taken into account, and, from the number of late declarations of persons who died in the ever-to-be-remembered Fever-Epidemic year of 1867 and who were buried without the formalities required by law having been gone through, my impression is that the number of deaths in 1867 was much nearer 50,000 than the number registered, viz : 40,114. If the Census figures of 1871 had not been correct, the discrepancy between the estimated and enumerated population of 1881 would have been much greater than it actually is, viz : 1054.

*Deaths in 1867 heavier than the number registered.*

*Estimate of population at end of each year, &c.*

46. The following statement gives the population of the Island between the two last Censuses as estimated on the 31st December of each year and on the 31st March last, district by district:—

DENSITY OF POPULATION.

*Density of Population*

47. This Island is 708 square miles in extent, and the density of the population at each of the five Censuses was as follows:—

Average to a square mile.

1846	...	...	...	...	...	225
1851	...	...	...	...	...	255
1861	...	...	...	...	...	437
1871	...	...	...	...	...	446
1881	...	...	...	...	...	508

48. Reckoned in square kilometers, as was done in 1871 the density of the population was as follows:—

	Average to a square kilometer.			
1846...	...	...	...	86
1851...	...	...	...	98
1861...	...	...	...	168
1871...	...	...	...	172
1881...	...	...	...	196

*Comparative density of Town and Country Population.*

49. In the above-mentioned rates of density, the whole population and the total acreage of the Colony are taken into account, but on separating Port Louis from the Rural Districts, the density of the Town Population compared to that of the Country Population at the several Censuses, stood as follows:—

	Population of Port Louis		Population of the Rural Districts.	
	Per Square Mile.	Per Square Kilometer.	Per Square Mile.	Per Square Kilometer.
1846..	4697	1813	162	62
1851...	4869	1880	187	72
1861...	7456	2877	337	130
1871...	5889	2273	362	139
1881...	6226	2403	420	162

50. But the density of the population varies considerably in the several districts of the Island as the following statement shews:

DISTRICTS.	Area in square miles.	Population to a square mile.				
		1846	1851	1861	1871	1881
Port Louis ..	10.7	4697	4869	7456	5889	6211

Plaines Wilhems ...	70.3	179	193	400	499	658
Moka ...	68	68	84	260	312	437

51. The area of the districts given above is similar to that published in previous reports, although the extent of some of the districts is much larger and that of others smaller than formerly,

owing to the new boundaries of the districts as defined in Ordinance No. 27 of 1875, but I have not been able to procure the precise measurement of each of the new areas as revised.

*Density of Population  
of other countries.*

52. In my Annual Reports on Vital Statistics, I have called attention to the density of the population of this Island, and from the following list, compiled from the latest Returns prepared by the Board of Trade, it will be seen that the Island of Mauritius, taken as a whole, is one of the most densely populated places in the world :

*Population of United Kingdom.* 53. From the 42nd Report of the Registrar-General of England, dated 31st March 1881, I glean the following information:—

	Area in square miles	Estimated population, 1879	Average to a sq. mile
United Kingdom ... ..	121,305	34,155,126	281
Great Britain ... ..	88,774	28,792,789	324

Dublin ... ..	15	314,666	20,977

*Population of Reunion.* 54. According to the "Annuaire de l'Île de la Reunion" for 1881, I find that the population of the Sister-Island is put down at 176,648 of both sexes. The density of the population is 176 to a square mile or 67 to a square kilometer.

*Population of Presidencies of India.**Bengal.*

55. In the Official Reports of the Censuses of Bengal, Madras and Bombay, taken in 1871-1872, I find that the average number of persons to the square mile in the five provinces under the Bengal Government, the total area of which is 248,231 square miles, with an average population of 269 to the square mile, was as follows :

	Average number to the square mile.			
Behar ... ..	...	...	...	165
Bengal ... ..	...	...	...	389
Orissa ... ..	...	...	...	181
Chota Nagpore ... ..	...	...	...	87
Assam ... ..	...	...	...	51

The area of the town of Calcutta is 8 square miles and the average number of persons per square mile is 55,950.

*Madras.*

56. The presidency of Madras made up of 21 districts includes an area of 139,698 square miles, and the average number of persons to a square mile throughout the presidency was 226, but in the Tanjore District, the average number was 540, while in the Neilgherry Hills the population was only 66 per square mile. The densest population of all was in the Madras Town District, where the 27 square miles of area had an average population of 14,724 per mile. The other districts where the population was most thickly distributed were as follows :

	Average number to the square mile.			
Malabar . ... ..	...	...	...	377
South Arcot ... ..	...	...	...	360
Trichinopoly ... ..	...	...	...	341
Chingleput ... ..	...	...	...	310
Tinnevely ... ..	...	...	...	327

*Bombay.*

57. Bombay is divided into four provinces, the combined area of which is 124,462 square miles, giving an average number of 130 persons per square mile.

	Average number to the square mile.			
The Deccan ... ..	...	...	...	147
The Konkan ... ..	...	...	...	250
Guzerat ... ..	...	...	...	279
Sind ... ..	...	...	...	47

The Town and Island of Bombay which form part of the Konkan division are 18.64 square miles in extent, having an average of 34,571 persons to a square mile.

## CIVIL STATUS.

*Civil Status.*

58. The Civil Status of the inhabitants of Mauritius at the last Census will be found in Appendix No. 10, which has been printed in detail to correspond with Appendix No. 9.

59. The numbers returned at the last Census were as follows :—

Civil Status.	Indian Population.			General Population.			Total.		
	M.	F.	Total.	M.	F.	Total.	M.	F.	Grand Total
Married ... ..	12932	12261	25193	9826	9724	19550	22758	21985	44743

Total... ..	151352	97641	248993	57303	53578	110881	208655	151219	359874

*Husbands and Wives.* 60. As compared with 1871, there is an increase in the number of husbands and wives, but a decrease when compared with 1861, as the following statement shows :—

		1861	1871	1881
Husbands ... ..		24236	22113	22758
Wives ... ..		22796	21381	21985
Total ... ..		47032	43494	44743

*The unmarried.* 61. The numbers of unmarried Males and Females of all ages are much higher than those of 1861 and 1871 :

		1861	1871	1881
Unmarried Males .....	63,109	162,048	180,933	
„ Females ... ..	26,290	90,487	121,074	
Total ... ..	89,399	252,535	302,007	

*Widowers and Widows.* 62. The widowers and widows, including the divorced, enumerated at the three last Censuses, stood as follows :

		1861	1871	1881
Widowers ... ..		2,025	2,872	3,082
Widows ... ..		4,149	6,782	7,146
Total... ..		6,174	9,654	10,228

*Not distinguished.* 63. The numbers returned without any distinction as to their Civil Status at the three last Censuses, were as follows, the figures of 1861 no doubt comprising children and others whose Civil Status had not been stated in the Schedules :

Not distinguished in regard to Civil Status.		1861	1871	1881
Males ... ..		113,591	6,542	1,882
Females ... ..		53,854	3,817	1,014
Total ... ..		167,445	10,359	2,896

*Concubinage.* 64. In the Report for 1871, the Hon. Mr. Beyts called attention to the large number of females shewn by the returns as living in concubinage, and very properly suggested amendments in the marriage-law of the Colony in so far as it affected Indians. The question has not been disposed of as yet. Whatever its difficulties, it is obviously desirable that it be taken in hand without further delay. I do not believe that,

from a legal point of view, there is less concubinage now than in former times; but, if the civil law is set at nought, the moral law is respected, inasmuch as nine-tenths of the Indians who apply for the extracts of birth of their children, declared illegitimate, inform me on being questioned that they are married according to the rites and ceremonies of their country, and that they are exactly in the same position and have gone through the same ordeal as their comrades who have arrived in this Colony with their wives; that the latter were simply privileged and recognized as having *legal wives* because they had told the Emigration authorities in India that they were married; but that otherwise these had done nothing more than they to obtain such a privilege. A great obstacle to marriages formerly were the fees levied for their celebration; but Ordinance No. 12 of 1880 having abolished all fees, I anticipate a great increase in the number of marriages from the passing of such a liberal measure.

## AGES AND SEXES.

*Ages and Sexes.*

65. Appendix No. 10 gives in detail, as per Appendix No. 8, the distribution of the population according to ages and sexes, and for the purposes of comparison, the ages have been divided as they were in the reports on the previous Censuses of Mauritius.

*Increase in number of children under 1.*

66. The number of infants under 1 have increased as follows:—

	Number.	Proportion to whole population.
1846	2981 .....	1.8 per cent.
1851	3692 .....	2.0     "
1861	7582 .....	2.4     "
1871	9348 .....	2.9     "
1881	11023 .....	3.0     "

*Increase in number of children under 10.*

67. Between the ages of 1 and 9 inclusive the increase has been as follows:

	Number.	Proportion to total population.
1846	25125 .....	15.8 per cent.
1851	31491 .....	17.4     "
1861	53556 .....	17.2     "
1871	60259 .....	19.0     "
1881	73335 .....	20.3     "

68. As stated in the report of 1871, the steady augmentation in the number of children under 10 is attributable to the number of female adults of the child-bearing ages having gone on increasing.

*Females between 14 and 44.*

69. The following statement gives the number of females, between 14 and 44 at the several Censuses:—

1851	...	...	...	29,749
1861	...	...	...	54,764
1871	...	...	...	59,761
1881	...	...	...	72,601

showing an increase between 1851 and 1861 of 84 per cent; between 1861 and 1871 of 9.1 per cent, and between 1871 and 1881 of 21.4 per cent. The increase in 30 years, between 1851 and 1881, is at the rate of 144 per cent.

*Proportion of children under 10 to total population.*

70. The total number of children under 10 at the date of the last Census, amounted to 84,353, or 23.1 per cent of the total resident population.

*Proportion of children under 10 in previous Censuses.* 71. At the previous Censuses, the numbers and proportion of children under 10 were as follows :

Year.	Number of children under 10.	Proportion to total resident population.
1846 ... ..	28,106	17.7
1851 ... ..	35,183	19.4

*Proportion of children under 15 to total population in 1881.* 72. The children enumerated under the age of 15 amounted to 116,616, or 32.4 per cent of the total resident population.

*At previous Censuses.* 73. At the previous Censuses, the numbers and proportion of children under 15 were as follows :

Year.	Number of children under 14.	Proportion to total resident population.
1846 ... ..	38,740	24.4
1851 ... ..	47,697	26.3
1861 ... ..	85,434	27.5
1871 ... ..	98,924	31.0

*Proportion of children in India.*

74. I have no reliable returns from which to establish the percentage of children under 15 to total population in Europe. According to the Reports on the Indian Censuses, I find the following :

Divisions.	Proportion of children to total population.
<i>Bengal Presidency.</i>	
Bengal ... ..	30.8 per cent.
Behar ... ..	34.0 "
Orissa ... ..	35.5 "
Chota Nagpore ... ..	38.6 "

*Persons between 10 and 19.*

75. The number of persons between the ages of 10 and 19 included at each Census was as follows :

					Number	Proportion to total population.
1846	...	...	...	...	23328	14.7
1851	...	...	...	...	25944	14.3

1871	...	...	...	...	54473	17.2
1881	...	...	...	...	63351	17.6

*Ages from 20 to 99.*

76. The other ages down to 100 exclusive, taken by vicennial periods, give the following numbers :

	1846	1851	1861	1871	1881	Centesimal increase or decrease between 1871 and 1881.
From 20 to 39	69264	79836	140404	121684	121483	Dec. 0.1

„ 80— 99	392	532	560	544	714	Inc. 31.2

77. The proportions which the vicennial numbers between 20 and 99 bore to the Total Resident Population at the several Censuses were as follows :—

	Proportion to Total Resident Population.				
	1846	1851	1861	1871	1881
Ages between 20 and 39 ...	43.7	22.1	39.0	38.5	33.7

„ „ 80 „ 99 ...	0.2	0.1	0.1	0.1	0.1

*Centenarians.*

78. The following is the number of Centenarians enumerated at each Census :—

							Number of Centenarians.
1846	...	...	...	...	...	...	12
1851	...	...	...	...	...	...	27
1861	...	...	...	...	...	...	23
1871	...	...	...	...	...	...	17
1881	...	...	...	...	...	...	17

*Ages not stated.*

79. I am sorry to say that the ages of 2418 persons have not been returned in 1881 :— 1978 of the Indian and 440 of the general population, or 0.6 per cent of the total population.

80. At the previous Censuses the numbers were as follows :—

Year.	Number of Persons whose ages were not stated.	Proportion to total Population.
1846 ... ..	5,306	3.3 per cent.
1851 ... ..	2,400	1.3 „
1861 ... ..	4,128	1.3 „
1871 ... ..	3,548	1.1 „

*Preponderance of Males in births and deaths.*

81. In the last decennial, there has been a preponderance of males in both Births and Deaths, as the following figures shew :—

	Births.		Deaths.	
	Males.	Females.	Males.	Females.
	1871-1880 ...	62,833	61,003	57,546

So that whilst the proportion as regards Births was 1,030 males to 1,000 females, as regards deaths the proportion was 1,427 males to every 1,000 females.

*Disparity in numbers fast disappearing.*

82. The disparity of numbers between the sexes is being considerably reduced, and if the female element goes on increasing as of late, one may safely predict that in a few years hence the sexes will be about equal. Further on it will be seen that amongst the Indo-Mauritians the proportion is 96.8 females to every 100 males, and in the General Population the proportion is 93.4 females to every 100 males.

*Sexes in total population.*

83. At each of the Censuses the proportion of females to males in the total population was as follows :

	Males.	Females.	Centesimal proportion of Females to Males
1846 ... ..	104598	53864	51.4
1851 ... ..	119341	61482	51.5
1861 ... ..	202961	107089	52.7
1871 ... ..	193575	122467	63.2
1881 ... ..	208655	151219	72.4

*Sexes in each class of population.*

84. In the Indian Population and General Population, separately considered, the sexes stood in the following proportions at the several Censuses :

	Males.	Females.	Centesimal proportion of Females to Males
(1) Indian Population.			
1846 ... ..	48935	7310	14.9
1851 ... ..	64282	13714	21.3
1861 ... ..	141615	51019	36.0
1871 ... ..	141804	74454	52.5
1881 ... ..	151352	97641	64.5
(2) General Population.			
1846 ... ..	55663	46554	83.6

1871 ... ..	51771	48013	92.7
1881 ... ..	57303	53578	93.4

85. Compared at different ages, the sexes give the following results at the several Censuses :

	Proportion of females to 100 males.			
	1851	1861	1871	1881
Under 10... ..	97.7	96.9	94.7	96.4

*Proportion of Females  
in United Kingdom.*

86. The only reliable returns I have for Europe are those for the United Kingdom, which shew that the proportion of Females to every 100 Males, is as follows :

	Proportion of females to 100 males.
In the United Kingdom... ..	105.9
„ England and Wales ... ..	105.4
„ Scotland ... ..	107.9
„ Ireland ... ..	106.5

*Proportion of females  
in India.*

87. In the official reports on Indian Censuses, I find the following proportion of Females to Males of all ages :

	Females to 100 males.
Bengal ... ..	98.9
Behar ... ..	101.4
Orissa ... ..	101.7
Chota Nagpore ... ..	97.8
Assam ... ..	93.0
Calcutta ... ..	49.2
Madras Presidency ... ..	99.0
City of Madras ... ..	104.2
The Deccan ... ..	95.2
The Konkan ... ..	90.1

Sind ... ..	80.2
Town and Island of Bombay ... ..	61.2

*Mauritius proportion  
of Indian Females com-  
pared to that of Calcutta  
and Bombay.*

88. In comparing the table of the Indian population in § 84 with the above, it will be seen that the centesimal proportion of females to males in this Colony compares very favorably with that of Calcutta and of Bombay.

#### OCCUPATIONS.

*OCCUPATIONS.  
Classification similar  
to that of 1871.*

89. Appendix No. 12 gives the employments of the population at the last Census, the classification of which is, with slight exceptions, similar to that instituted by the Hon. Mr. Beyts in 1871, viz :—

- 1.—Professional.
- 2.—Domestic.
- 3.—Commercial.
- 4.—Agricultural.
- 5.—Industrial.
- 6.—Indefinite and non-productive.

*Appendix not publish-  
ed division by division.*

90. It was my intention at first to have published this Appendix in extenso, but on finding that Appendix 11, which is about one-fifth less in size than the appendix of Occupations, embraced upwards of 250 pages, I gave up all idea of printing it in detail, but in addition to the usual statements published in previous reports, I have prepared another separating the population on Sugar-Estates from that not on Sugar-Estates.

Numbers returned in each class.

91. The numbers returned in each class in the three last Censuses are as follows:—

	1861.			1871.			1881.		
	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.

Surveyors (c). ... ..	...	10	13
Veterinary Surgeons ... ..	7	12	21

*Decreases in 1881.*

94. The employments in the Professional Class which show a decrease of numbers in 1881, as compared with 1861 and 1871, are as follows :

	1861	1871	1881
Actors ... ..	78	12	11
Attornies-at-Law ... ..	55	61	52
Consuls ... ..	2	10	4

Photographers ... ..	...	21	9
Physicians and Surgeons ... ..	52	62	54
Ushers ... ..	18	42	29

*Notaries.*

95. The number of notaries (14) was the same in 1871 and 1881.

96. In the Professional Class, the Indian Population numbered 1,323 against 3,359 of the General Population.

*DOMESTIC CLASS.  
Increases in 1881.*

97. The employments in the Domestic Class which show an increase in 1881 over 1861 and 1871 are as follows :

	1861	1871	1881
Barbers ... ..	—	265	498
Butlers ... ..	—	40	107
Carters (d) ... ..	—	...	1175

Nurses ... ..	—	347	408
Watchmen and Guardians ... ..	585	820	866

*Decreases in 1861.*

98. The following are the employments in the Domestic Class which show a decrease in 1881 as compared with 1861 and 1871 :—

	1861	1871	1881
Domestic Servants (general)...	12781	10591	8321
Grooms ... ..	—	769	606
Scavengers ... ..	4	27	24
Washermen and Laundresses .	2469	1857	1750

- (c) Surveyors numbered 36 in 1861.  
 (d) Carters were entered in Class IV in 1871.  
 (e) Coachmen numbered 2,367 in 1861.  
 (f) Hair-dressers numbered 268 in 1861.

*Pauperism cause of decrease in general servants.*

99. The decrease in the number of general servants is due, in a great measure, to the fact that families formerly in a good position belonging to the well-to-do classes, and keeping their three or four servants, have found themselves reduced in circumstances and obliged to keep only one, and it is a well known fact that in many families no servants at all are now kept.

100. In the Domestic class, the Indian Population numbered 10,797 against 6,968 of the General.

**COMMERCIAL CLASS.**  
*Increases in 1881.*

101. The employments in the Commercial class which shew an increase in 1881 over 1861 and 1871 are the following :—

	1861	1871	1881

*Overgrowth of population.*

130. In the course of last year, a Committee of the Council of Government reported on certain questions raised by me in 1878 regarding overgrowth of population and the 20,000 Indians whose means of existence I considered to be more or less enigmatical. The Committee taxed me with exaggeration and stated that though the population "is not in excess of the wants and resources of the Colony, it is unfortunately true that there exist in the Colony a considerable number of Indians, deserters and others, and of Chinese and Creoles, whose means of existence are uncertain; they constitute a mass of idlers and vagabonds who live almost entirely on the produce of thefts and robberies," and suggested that the term "Vagrant" should be more clearly defined in our laws.

*Stringent Vagrancy law much needed.*

131. It is not my intention to re-open the question, nor to attempt in any way to enter into any controversy in the matter. Suffice it to say that in calling attention to what I consider to be one of the greatest evils besetting this Colony, I was only prompted by a deep sense of duty, and although my views did seem to clash with private interests, it is nevertheless satisfactory to note that, by the enquiry instituted, I shall have been instrumental in bringing about a more healthy state of things. There is not the slightest doubt that stringent measures regarding Vagrancy, for all classes indistinctly, are of absolute necessity in this Colony;—their enactment will be hailed with satisfaction by a large portion of the community and will remedy a great evil.

#### INDIAN POPULATION.

*Indian Population.*

132. The numbers of the different classes of persons included in the Indian population, are given in Appendix No. 13, which shews 1o. the Indian population not on Sugar-Estates; 2o. the Indians on Sugar-Estates; and 3o. the aggregate Indian population in the Colony.

*Difference between enumerated and estimated number of Indian Immigrants.*

133. Only 129,978 Indian Immigrants were returned at the last Census, whereas my estimate of the number of Indian Immigrants in the Colony on the 31st March last was 131,766, shewing a difference of 1,788 between the two figures. My impression is that the estimated number is the more correct of the two, and the difference can be accounted for very easily, 1o. from

the fact that the Immigrants of old standing do not as a rule like the idea of shewing their papers and being called coolies; and 2o. that Indo-Mauritians, on their return to this Colony as Immigrants, get rid of their tickets and shew their extracts of birth from our Civil Status Registers whenever called upon for their papers. In the quarterly returns of Immigrants prepared by me I shall, for the reasons given above, report the estimated instead of the enumerated Indian Immigrant population.

134. On the 31st March last, I estimated the Indian Immigrant population as follows :

	Males.	Females.	Total.
	91,304	40,462	131,766
The Census figures shew :	89,976	40,002	129,978
Or a difference between	<u>1,328</u>	<u>460</u>	<u>1,788</u>
the two of... ..			

*Indian Immigrants.*

135. According to the Census Schedules, the Indian Immigrants were returned as follows :

136. At the Census of 1871, the number of Indian Immigrants were returned at 153,703, shewing a difference in the decenniad between the enumerated figures of 1871 and 1881, of 23,725 and between the enumeration of 1871 and the estimated figures of 1881 of 21,937, due to deaths and departures.

*Indo-Mauritians.*

137. The Indo-Mauritians, i.e. persons born in Mauritius of parents of unmixed Indian origin numbered 113,398 of whom 57,608 were males and 55,790 females shewing a percentage of 96.8 females to every 100 males in that section of the population. In 1871, there were 31,387 males and 29,504 females and the proportion was 94 females to every 100 males.

*Free-passengers.*

138. Of the Indians who have come to Mauritius as free passengers, there were in the Colony on the 3rd April last 3,763 males and 1,849 females against 1,244 males and 420 females in 1871. The difference referred to in §§ 133, 134 is clearly to be found in these figures.

BIRTH-PLACES AND NATIONALITIES.

139. The birth-places and nationalities of the resident population are shewn in Appendix No. 14.

*Birth-places.*

140. The following statement shews the birth-places of the resident population on the 3rd April 1881 :

*Nationalities.*

141. The nationalities of the resident population on the 3rd April 1881 were as follows :

	Males.	Females.	Total.
Americans ...	42	3	45
Arabs ...	28	1	29
Austrians ...	7	1	8

*Proportion of each Nationality.*

142. The proportion which the British bore to the total population was 978 per thousand. The most numerous of the other nationalities were the following :

	Per thousand.
Chinese ...	9
French ...	6
Malgassics ...	2
Mozambiques ...	1

None of the others came up to 1 per thousand.

*Chinese.*

143. The general impression was that the number of Chinese in the Colony had increased considerably within the last ten years, but the following statement shows that Chinese immigration has not assumed such proportions as to warrant the fear expressed that the Island will, from the number of Chinamen it holds, soon become a sort of dependency of the Celestial Empire :

	Number of Chinese.

#### RELIGIONS

*Religious creeds.*

145. The religious creeds of the inhabitants, as stated on the Schedules, are given in Appendix No. 15 ; which also shews how the followers of each creed were distributed over the Island. The following is the statement prepared therefrom :—

	Indian Population.	General Population.	Total.

146. Of the 248,993 Indians, only 9,262 or 3.7 per cent are Christians.

#### INFIRMITIES.

147. Appendix No. 16 shews the numbers of Blind, Deaf, Dumb, Insane and Lepers returned at the taking of the Census, and how they were distributed over the Island.

*Refusal to give information.*

148. I am sorry to say that the accuracy of this return cannot be relied upon, as, although it was distinctly stated on the Schedule that the information asked for would be used for statistical purposes only, in very many instances the infirmities in the families of a certain portion of the community have not been returned at all, as it was considered—it is useless to say, most wrongly—that by asking whether people were leprous or not, it was an attempt on the part of the Government to pry into family secrets. The object in view was simply to shew the number of persons laboring under that dire disease “Leprosy,” in order that steps should be taken for affording them that relief and seclusion which the melancholy state of their health clearly entitles them to expect at the hands of a paternal Government, and, although the numbers returned as Lepers if doubled would, in my opinion, hardly represent their exact numbers in this Colony, it seems to me that the question of organising a Leper Asylum, and maintaining it, under proper control, will force itself sooner than expected on the attention of the Authorities.

*Number of Blind, &c.*

149. The numbers returned were as follows :—

Infirmities.	Indian Population.	General Population.	Total.
Blind... ..	280	124	404
Deaf ... ..	365	292	657
Dumb ... ..	80	44	124
Insane ... ..	303	153	456
Lepers ... ..	395	253	648
Total ... ..	1423	866	2289

*Proportion to total population.*

150. The proportion which each of the above-mentioned categories of Infirm bore to the resident population was as follows :—

Infirmities.	To every 10,000 of the population.		
	Indian Population.	General Population.	Total.
Blind... ..	11	11	11
Deaf ... ..	14	26	18
Dumb ... ..	3	3	3
Insane ... ..	12	13	12
Lepers ... ..	15	22	17

Number enumerated in 1871 and 1881. 151. The following statement shows the number of Infirmitics enumerated at both Censuses :

			1871	1881
Blind ...	...	...	375	401
Deaf ...	...	...	540	657
Dumb ...	...	...	117	124
Insane ...	...	...	134	156

*Deaf and Dumb.* 152. Of the 657 deaf, 8 males, of the general population, were described as both deaf and dumb.

#### EDUCATION.

*Number of children at school.* 153. Appendix No. 17 gives the number of children receiving instruction at the date of the taking of the Census, as follows :—

Institutions.	Indian Population.			General Population.			Total.		
	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.
Royal College.	4	...	4	314	...	314	318	...	318

Total ...	1974	866	2840	6143	4722	10865	8117	5588	13705

154. The percentage which these figures show to the number of children between 6 and 15 is as follows :

In the Indian Population	...	...	6.0 per cent.
„ General „	...	...	46.9 „

#### DEPENDENCIES OF MAURITIUS.

##### POPULATION.

155. The Census was taken in the Dependencies on the same day as in Mauritius.

*Superintendents.*

156. The Superintendent of Seychelles was Mr. R. M. Renards, the District Clerk, who had acted in the same capacity in 1871; the Census of Rodrigues was confided to Mr. J. C. O'Halloran, the Police Magistrate;—and in the Minor Dependencies, the Managers of the Oil and other establishments, who are also Civil Status officers, were entrusted with the filling up of the Schedules.

*Indians not separated.* 157. As the Indian population only numbered 239 souls at the last Census, no separate account of them has been taken.

*Population of all Dependencies at Censuses.* 158. The population of all the Dependencies was, according to Appendix 18, as follows, at the several Censuses :

				Males	Females	Total
1851	...	...	...	4179	3522	8001
1861	...	...	...	4893	4162	9955
1871	...	...	...	7275	6116	13391
1881	...	...	...	8911	8021	16962

*Population of Seychelles.* 159. The population of Seychelles, at the several Censuses, was as follows :

				Males	Females	Total
1851	...	...	...	3626	3185	6811
1861	...	...	...	3567	3719	7486
1871	...	...	...	5793	5289	11082
1881	...	...	...	7179	6902	14081

*Population of Rodrigues.* 160. The population of Rodrigues in 1851, 1861, 1871 and 1881, stood as follows :

				Males	Females	Total
1851	...	...	...	327	168	495
1861	...	...	...	464	229	693
1871	...	...	...	693	415	1108
1881	...	...	...	812	619	1431

*Population of Minor Dependencies.* 161. All the Minor Dependencies together were returned as follows :

				Males	Females	Total
1851	...	...	...	526	169	695
1861	...	...	...	662	214	876
1871	...	...	...	789	412	1201
1881	...	...	...	950	500	1450

162. The following rates shew the centesimal increase of the population of the principal Dependencies between the Censuses :

Dependencies.	1851 to 1861	1861 to 1871	1871 to 1881
Seychelles ... ..	9.9	18.0	27.0
Rodrigues ... ..	40.0	59.8	29.1
Chagos ... ..	65.8	16.0	22.7
Agalega ... ..	...	95.7	16.3
Amirantes ... ..	146.6	31.0	13.4
Coëtivy ... ..	28.5	88.0	55.7

*Proportion of Sexes.*

163. The proportion of Females to Males in the principal Dependencies, stood as follows, at the two last Censuses :

			Females to 100 Males.	
			1871	1881
Seychelles	...	...	91.2	96.1
Rodrigues	...	...	59.8	76.2
Chagos	...	...	52.0	50.5
Agalega	...	...	55.9	50.0
Amirantes	...	...	51.5	66.6
Coëtivy	...	...	41.6	58.2
Islands North of Madagascar	...	...	34.7	56.5
Six Islands	...	...	109.0	64.0
Total population of the Dependencies.			82.7	89.7

*No females at St. Brandon.*

164. The only inhabited Island, without females, was St. Brandon, one of the Cargados Carajos group, with a population of 6 Males.

## CIVIL STATUS.

*Civil Status.*

165. The Civil Status of the population of the Dependencies at the several Censuses is shewn in Appendix No. 20, as follows :

			1861	1871	1881
Unmarried	...	...	2699	8588	13443
Married	...	...	1366	1956	3113
Widowed	...	...	204	301	379
Not stated	...	...	4786	2546	28

166. The proportions at each Census to total population were as follows :

			Proportion per cent.		
			1861	1871	1881
Unmarried	...	...	29.8	64.1	79.2
Married	...	...	15.0	14.6	18.3
Widowed	...	...	2.2	2.2	2.2
Not stated	...	...	52.8	19.0	0.1

## AGES.

*Ages.*

167. The ages of the aggregate population of the dependencies at the several Censuses are given in Appendix No. 21.

*Infants.*

168. As compared with 1871, the number of infants under 1 appears to have decreased :

			Number.	Proportion to whole population.
1851	...	...	236	2.9 per cent.
1861	...	...	222	2.4 „
1871	...	...	506	3.7 „
1881	...	...	438	2.5 „

*Children between 1 and 9.*

169. Between the ages of 1 and 9 inclusive, there has been an increase as the following figures shew :

			Number.	Proportion to total population.
1851	...	...	1879	23.4 per cent.
1861	...	...	1902	21.0 „
1871	...	...	3073	22.9 „
1881	...	...	3353	19.7 „

*Female Adults.*

170. The numbers of female adults between 14 and 44 have, as is the case in the Mauritius, considerably increased, as the following statement shews :

1851	...	...	...	...	1932
1861	...	...	...	...	1759
1871	...	...	...	...	2822
1881	...	...	...	...	3994

*Children under 10.*

171. The total number of children under 10, at the several Censuses was as follows :

		Number.	Proportion to total population.
1851	...	2115	26.4 per cent.
1861	...	2124	23.4 "
1871	...	3579	26.6 "
1881	...	3791	22.3 "

*Children under 15.*

172. The children enumerated under the age of 15, stood as follows, at the several Censuses :

		Number.	Proportion to total population.
1851	...	2769	34.6 per cent.
1861	...	3226	35.6 "
1871	...	5087	37.9 "
1881	...	5651	33.3 "

*Persons between 10 and 19.*

173. The number of persons between the ages of 10 and 19 inclusive, at each Census, was as follows :

		Number.	Proportion to total Population.
1851	...	1173	14.6
1861	...	1914	21.1
1871	...	2937	21.9
1881	...	3342	19.6

*From 20 to 99.*

174. The other ages down to 100 exclusive, taken by vicennial periods give the following numbers :

	1851.	1861.	1871.	1881.	Centesimal Increase or Decrease between 1871 and 1881.
From 20 to 39 ...	1996	2374	3982	6164	54.7 Increase
„ 40 „ 59 ...	1876	1325	1675	2736	63.3 „
„ 60 „ 79 ...	641	1031	792	688	10.7 „
„ 80 „ 99 ...	85	74	182	131	28.0 Decrease

175. The proportions which the vicennial numbers between 20 and 99 bore to the total population at the last Census, were :

		Proportion to total Population.	
Ages between 20 and 39	...	...	36.3
„ 40 „ 59	...	...	16.1
„ 60 „ 79	...	...	4.0
„ 80 „ 99	...	...	0.7

*Centenarians.*

176. The following is the number of Centenarians returned at each Census :

1851	...	...	...	1
1861	...	...	...	4
1871	...	...	...	2
1881	...	...	...	2

*Ages not stated.*

177. The number of persons whose ages were not stated were as follows :

1851	...	...	...	164
1861	...	...	...	199
1871	...	...	...	42
1881	...	...	...	108

OCCUPATIONS.

*Occupations.*

178. The occupations of the aggregate population of the Dependencies, at the several Censuses, are given in Appendix No. 22.

179. The occupations, according to each class, were as follows :

	1851	1861	1871	1881
Professional	69	79	105	224
Domestic	610	1095	1491	1557

Indefinite	4594	4167	6534	10029
	8001	9055	13391	16962

180. Whereas the above shows the occupations of the aggregate population of all the Dependencies, Appendix No. 23 gives the employments of the population of Seychelles and of Rodrigues separately.

*Seychelles and Rodrigues.*

181. The following statement shows the number of each class at the two last Censuses, in Seychelles and Rodrigues :

	Seychelles		Rodrigues

*Deaf and Dumb.*

188. Of the 53 deaf, 1 at Rodrigues was deaf and dumb.

*Lepers.*

189. The number of lepers in the dependencies on the 3rd April last was 43, of whom 32 were males and 11 females.

## EDUCATION.

*Children under Instruction.*

190. The following statement shews the number of children receiving instruction at Seychelles and Rodrigues. In the other Dependencies, there are no schools of any description whatever, the children of the Managers and Overseers are, I believe, taught by their parents :

## CONCLUSION.

191. My labors have now come to an end, and I cannot but express the hope that the result will be deemed satisfactory. The difficulties I have encountered in the execution of my duties have been very great indeed, and I am happy to be able to state that they have all been surmounted. The taking of the Census in this Colony is getting more and more difficult at each decennial period, and in saying so I speak from experience, as I was Census Enumerator in 1861, and subsequently employed as Clerk in the Census Office,—Secretary to the Census Commissioner of 1871,—and have had the management of the Census of 1881.

*Cost of Census.*

192. The sum provided in the Estimates for the Census of 1881 was Rs. 50,000—to which all the expenses connected with the undertaking have been charged—bringing the cost per head of enumerated population to R. 0.13.

193. I cannot conclude without stating that if I have been able to get through my work in a comparatively short time, it is entirely due to the efficient assistance I have received from those who undertook to aid me in the matter. To one and all my thanks are due, but more especially to the following gentlemen :

Mr. Edward BATTY, who was transferred from the Registrar General's Office to be my Secretary ;

Mr. Edouard BOUTON, of the Registrar General's Office ;

Mr. D. P. GARRIOCH, of the Colonial Secretary's Office ;

Mr. Thomas GRAVES, District Clerk, Pamplémousses ;

Mr. Silas GRAVES, of the Customs, and

Mr. Alfred DUPONT, of the Royal College.

194. The gentlemen, out of the service, whose assistance I have to acknowledge particularly, are Messrs Francis JOACHIM and E. BERGICOURT ; the former especially, from his experience in previous Censuses, facilitated my work to a considerable extent.

I have the honor to be,

Your Excellency's

Most obedient humble servant,

J. KYSHE,

*Census Commissioner.*

# CENSUS

## OF THE ISLAND OF MAURITIUS

### 1881

The inhabitants of Mauritius will be required to insert all the particulars specified in the Census Schedule which will be left at their houses, between the 25th March and 2nd April next, in compliance with Ordinance No. 15 of 1880.

The Schedule will be called for on MONDAY, the 4th April, by the appointed Enumerator, and it is desirable that all the INFORMATION WANTED should be written in the proper Columns on the MORNING OF THAT DAY, in order that the Enumerator's progress may not be delayed. It will be his duty under the Ordinance to complete the return if necessary, and to correct it if it be erroneous. Should the party receiving the Schedule be unable to fill it up, the Enumerator will be bound, on the information being given him, to do the needful in the matter, WITHOUT CLAIMING ANY REMUNERATION WHATEVER FOR THE SAME.

Persons refusing to give INFORMATION or wilfully giving FALSE INFORMATION as to any of the required particulars, will be liable, on summary conviction before a District Magistrate, to a PENALTY not exceeding TWO HUNDRED RUPEES.

The Schedule is not wanted for purposes of taxation or for sanitary or other measures, but it is only required to enable the Government to complete the FIFTH CENSUS which is to shew the exact NUMBERS, AGES, CONDITION and RELIGION of the inhabitants of Mauritius; their arrangement in different ranks, profession and trades, their distribution over the Island in hamlets, villages and towns; and their increase and progress during the last ten years.

The facts will be published in general abstracts only, AND STRICT CARE WILL BE TAKEN THAT PERSONS NOT CONCERNED IN THE RETURNS BE NOT ALLOWED ANY ACCESS TO THEM.

Central Census Office,  
15th February, 1881.

J. KYSHE,  
Census Commissioner.

## Appendix No. 3

### INSTRUCTIONS TO SUPERINTENDENTS AND ENUMERATORS.

#### (1) INSTRUCTIONS TO SUPERINTENDENTS.

- 1.—On receiving notice of his appointment, each Census Superintendent will have to call at the Census Office for a plan of his Sub-district, and for such verbal instructions as the Census Commissioner may have to give him.
- 2.—The Superintendent will first have to make himself thoroughly acquainted with the limits of his district, by a personal inspection of the roads and other boundary-lines which circumscribe the district, and to report, within the least possible delay, to the Census Commissioner accordingly.
- 3.—He will have to confer with the Superintendents of the districts contiguous to his, so that a mutual understanding may be come to with them, in reference to the limits of their respective districts.
- 4.—He will be furnished with plans of each of the Sections of his district as laid down by the Census Commissioner, and in which the limits of each Section will be clearly defined. He will have to be particularly careful that *each* village or hamlet in his district be enumerated *separately*.
- 5.—The Superintendent will have to call before him all the Enumerators appointed to his district, and assign to each his Section, explaining minutely and carefully what its boundaries are to be.
- 6.—He will then read and explain to them the printed "*Instructions to Enumerators*" issued by the Census Commissioner, and give over a copy of them to each Enumerator with a blank Memorandum-Book and two copies of form A, headed "*Return of Houses*," and explain how the form has to be filled up.—In the first page of the Memorandum-Book given to each Enumerator the Superintendent will have to write a correct description of the boundaries of the Enumerator's Section.
- 7.—The Superintendent must see that on or before the first of March next the Enumerators commence their tour of inspection, for the purpose of filling up the "*Return of Houses*"—and must give them all the requisite directions for the proper performance of that important duty.
- 8.—When brought to him, the Returns of Houses must be attentively examined by him, and, if found incorrect in any particular, must be rectified. Doubtful points as to locality must be settled by the Superintendent by a personal visit to each place which has to be verified. On the 12th of March at latest, a copy

of each Return of Houses, certified by the Superintendent to be correct, must be forwarded to the Census Commissioner.

9.—The Superintendent will then indent upon the Census Office for as many copies of the *House-Holder's Schedule* (form B.) as he will require for his district;—and will distribute them to his Enumerators explaining fully how they are to be filled up.

10.—Special Schedules will be supplied for Sugar Estates, Distilleries, Prisons, Asylums and other large Establishments.

11.—On the 30th March the Enumerators must be sent through their respective Sections, for the purpose of delivering a *House-Holder's Schedule* to each House-holder. Each Enumerator must then have in his possession his *Return of Houses* and his *Memorandum-Book*.

12.—On completing the delivery of his House-holders' Schedules each Enumerator must present himself before the Superintendent, and report that he has performed that duty;—and, at the same time, he must submit his *Memorandum-Book* to the Superintendent.

13.—On the 1th April, all the House-holders' Schedules will have to be collected by the Enumerators, and arranged by them in consecutive and numerical order.

14.—For the purpose of filling up the Schedules of those House-holders who cannot write, each Enumerator will have to be accompanied by as many Sub-Enumerators as the extent of the work to be gone through will require. The Superintendent will have to present a report to the Census Commissioner on or before the 15th March stating how many Sub-Enumerators are, in his opinion, necessary in his district,—and will act according to the instructions he will receive thereupon.

15.—When long distances have to be travelled over on the 4th of April, the Enumerators will also be supplied with such means of travelling as the Census Commissioner will have previously authorized.

16.—When all the Schedules of his district will have been collected and delivered to him, with the Declarations required by Art. 15 of Ord. No. 15 of 1880, it will be the business of the Superintendent to examine these Schedules and to see whether they have been completely and correctly filled up;—if they have not, he will, as quickly as practicable, cause every omission to be repaired and every inaccuracy to be rectified, as far as possible.

17.—No Enumerator will be entitled to his remuneration unless he present a Certificate from the Superintendent of his district, stating that the enumeration of his Section has been fully and satisfactorily gone through.

18.—After having examined all the Schedules and satisfied himself as to their accuracy, the Superintendent shall sign a Certificate to that effect and forward it to the Census Commissioner.

19.—The Superintendent shall thereafter make out a *Summary Report* of the results of his Schedules according to the special instructions he shall have received in that respect, and shall

forward the said Summary Report and the Schedules and all the Enumerators' memorandums-books, and in fact every thing appertaining to the Census to the Census Office, on or before the 15th April next.

20.—If any vacancy occur in the Staff of Enumerators, the Superintendent must immediately report it to the Census Commissioner with a view to the appointment of a new Enumerator. If there be no time for communicating with the Census Commissioner, the Superintendent may make the appointment himself taking care in either case to furnish the newly-appointed Enumerator with directions as to his duties and to ascertain that he understands how to discharge those duties.

J. KYSHE,

Census Commissioner.

## (2) INSTRUCTIONS TO ENUMERATORS.

### *Duties before the 1st of March 1881.*

1.—Every Enumerator, immediately after his appointment, must sign a document stating his acceptance of his office on the terms proposed to him. After such acceptance he will be considered bound to act as an Enumerator, and, in the event of any wilful default in the performance of his duties, will be liable to the penalties prescribed by Ord. No. 15 of 1880.

2.—He must acquire a thorough and minute knowledge of the section which he has undertaken to enumerate;—for which purpose he must make himself familiarly acquainted with its precise boundaries.

3.—He should also thoroughly familiarise himself with the various forms which will have to pass through his hands.

### *Duties between the 1st and 30th of March 1881.*

4.—Within the first week of March next, every Enumerator will have to take a written account of all the houses situated within his Section, whether they be occupied or not, in a printed form which will be supplied to him by his Superintendent.

5.—On receiving that form, the Enumerator must apply to the Superintendent for full instructions as to the manner of filling it up.

6.—On or before the 9th of March next, a certified Copy of the form so filled up must be submitted to the Superintendent for examination.

7.—If any error or omission be discovered in the form the Enumerator will have immediately to proceed to the part of his Section which has to be verified, and to rectify the form according to the directions of the Superintendent.

*Duties after the 29th March 1881.*

8.—On the morning of Wednesday the 30th March, the Enumerator will have to begin another tour through his Section for the purpose of depositing the Schedules which have to be filled up by the House-holders (Form B.)

9.—He must call at every house within his Section, taking the houses in the order in which they stand in his verified *Return of Houses* (Form A).

10.—If any important changes have taken place in any house since his first visit, (such as the removal of its Occupier or any of its inmates) he must note the change in his memorandum-book.

11.—Each Schedule must be *numbered* and deposited in the hands of the occupier; to whom the Enumerator must furnish all necessary explanations as to the manner of filling it up.

12.—Each House-holder must be *particularly reminded* that the Schedule has to be filled up on the morning of Monday the 4th April, and that it must be ready to be returned to the Enumerator on that day.

13.—Immediately after the delivery of all his Schedules, the Enumerator must report to the Superintendent that he has completed their delivery;—and at the same time he must submit the notes in his memorandum-book, relative to the changes which have taken within his Section since the Form A was filled up.

*Collection of the House-Holders' Schedules*

14.—As early as possible on the morning of Monday the 4th of April, the Enumerator will have to begin the collection of the Schedules of his Section.

15.—If, on inquiry for any Schedule, it be returned to him *not* filled up, he must fill it up himself asking all necessary questions. He should, if possible, see the Head of the Family, and obtain the requisite information from him. In his absence any other member of the family may supply the necessary particulars.

16.—If the deposited Schedule be lost or mislaid the Enumerator must supply a fresh one, reporting the fact to the Superintendent.

17.—After having completed his entries on the Schedule, he must read it over to the Occupier or person in charge of the house and get the informant to sign it with his or her name or mark.

18.—The Enumerator must not omit to enter persons in any Schedule, because he cannot get all the required information concerning them. He must enter them,—mentioning the reason why any of the particulars is not inserted.

19.—Where there are several Occupiers in one House *i. e. distinct House-Holders*, their Schedules, although they bear different Nos. should be pinned, tied or otherwise fastened together,—and on the packet should be written the No. of the House in form A.

20.—On the day of the collection of the Schedules, the Enumerator should take care to call *at every house in his Section*, whether it be described in form A as *occupied, uninhabited, or being built*.

*General Instructions.*

21.—The Enumerator must behave with the utmost courtesy towards every House-holder or other person with whom he has to deal in carrying out his duties. Any breach of this rule will render the Enumerator liable to the forfeiture of his allowances.

22.—If any person refuse to make a written return, or to answer the questions which the Enumerator is authorized to put, or in any way obstruct the Enumerator in the discharge of his duties, he will be free to remind such person of the penalties prescribed by law against such offences, and may shew such person the following extracts from Ord. No. 15 of 1880 :

Penalty for refusing information or giving false answers. 21.—The Superintendents and Enumerators employed in the execution of this Ordinance, shall be authorized to ask all such questions as shall be directed in any instructions issued to them by the Census Commissioner, and every person refusing to give an answer or return, or wilfully giving a false answer to any such question, or a false return upon any Schedule, shall, for every such refusal or wilfully false answer or return, forfeit a sum not exceeding Two hundred Rupees nor less than Ten Rupees.

Penalty for obstruction, &c., of Officers. 22.—Any person obstructing, assaulting or molesting any Enumerator or other Officer, while the latter shall be performing any duty assigned to him by this Ordinance, shall be adjudged guilty of an offence, and shall, upon conviction, be liable to a fine not exceeding Five hundred Rupees, and in case of non-payment to imprisonment not exceeding Three months.

Peines contre ceux qui refuseront de donner des renseignements ou qui en donneront de faux. 21.—Les Surintendants et Enumérateurs employés pour l'exécution de la présente Ordonnance seront autorisés à poser toutes les questions qui seront prescrites dans les Instructions qui leur seront fournies par le Commissaire du Recensement, et toute personne qui refusera de répondre ou qui volontairement donnera une fausse réponse à aucune des questions susdites, encourra, pour chaque refus ou fausse réponse faite volontairement, une amende qui n'excèdera pas Deux Cents Roupies et qui ne sera pas moindre de Dix Roupies.

Peines contre ceux qui empêchent, &c., les Officiers. 22.—Toute personne qui empêchera, attaquera ou gênera un Enumérateur ou autre Officier pendant qu'il remplira un devoir à lui confié par la présente Ordonnance, sera considérée comme coupable d'une infraction à la loi et sera, lorsqu'elle en aura été convaincue, passible d'une amende qui n'excèdera pas Cinq Cents Roupies et en cas de non paiement d'un emprisonnement qui n'excèdera pas Trois Mois.
