# **HOUSING AND POPULATION CENSUS**

Republic of Mauritius

**Volume IV: Disability**

July 2024

## FOREWORD

This report is the fourth in the series showing the results of the 2022 Housing and Population Census. The first was published in June 2023 and contained the results of the Housing Census which preceded the Population Census by a few months. The previous two reports covered the demographic and fertility characteristics and the geographical and migration characteristics of the population. The present report presents data on disability.

Data published in this report have been prepared at different geographical area levels. The code in the left-hand margin of the table of contents indicates the geographical level at which the tables are presented, namely, I: Island level, D: District level and R: Municipal Council Ward and Village Council Area level.

Like all census data, the figures presented in the tables may still contain slight inaccuracies, which will be too costly to identify and correct. However, these do not in any way detract from the quality of the data and their usefulness. It is hoped that the present report will be particularly useful to administrators, planners and policy makers, and the public in general.

I wish to express my sincere gratitude to all persons and organisations who have contributed in one way or another to the success of the Census. In particular, I am thankful to members of the general public for their co-operation, the census field staff, United Nations Population Fund (UNFPA), United Nations Economic Commission for Africa (UNECA) for technical support, U.S. Census Bureau for IT support, the Kenya National Bureau of Statistics (KNBS) for lending the tablets used for data collection and my own staff.

# **Introduction**

## **1. Background**

The history of census taking in Mauritius dates back to the eighteenth century. The Population Census conducted in year 2022 was the nineteenth for the Island of Mauritius and the ninth for the Island of Rodrigues.

## **2. Strategy**

The 2022 Housing and Population Census, which cost about 400 million rupees and mobilized some 7,000 field officers, was taken in two distinct rounds: the Housing Census followed by the Population Census. The main reason for adopting this procedure was to obtain at the Housing Census a list of names and addresses of heads of households which served as frame for the Population Census.

The Housing Census was conducted between 30 April and 20 June 2022 and the Population Census between 19 June and 01 August 2022 in respect of all persons alive on the night of 3 - 4 July 2022.

The Population Census questionnaire, a copy of which is at the end of the report, was filled in by fieldstaff on tablet with information provided by respondents. The data collection exercise was done using the Computer Assisted Personal Interview (CAPI) method. The CAPI programme was initially developed by the U.S. Census Bureau and later on by the UNFPA with support from Statistics Mauritius (SM) staff. This was the first time Statistics Mauritius made use of tablets to collect Census data. Some basic validations were in-built in the CAPI programme but more extensive validation and tabulations were done using the software Census and Survey Processing System (CSPro) developed by a UNFPA consultant with support from SM staff.

## **3. Coverage**

The Housing and Population Census covered the Islands of Mauritius, Rodrigues and Agalega. As regards St Brandon, only a count of persons spending the census night was made; these islands are mainly fishing outposts, with no permanent residents.

## **4. Population enumerated**

The Census counted all persons present on Census night in all private households and communal establishments, including collective quarters, as well as usual residents who were absent on Census night. Combinations of answers to questions asked on whereabouts and usual address allowed for the computation of both the present population (de facto) and the resident population (de juré) counts.

At the 2022 Census the "de facto" population was 1,242,003 in the Republic of Mauritius whereas the resident population was 1,233,427. Census tables, unless otherwise stated, show the resident population; the distribution by the different islands was as follows:

<b>Island</b>	<b>Area (sq. km)</b>	<b>Male</b>	<b>Female</b>	<b>Both Sexes</b>
Island of Mauritius	1,868.4	586,450	603,043	1,189,493
Island of Rodrigues	110.1	21,311	22,293	43,604
Agalega	2.7	167	163	330
St Brandon	26.0	-	-	-
<b>Republic of Mauritius</b>	<b>2,007.2</b>	<b>607,928</b>	<b>625,499</b>	<b>1,233,427</b>

None of the published tables include Agalega and St. Brandon. The exclusion of the very small resident population in Agalega does not affect the usefulness of the tables. As for St. Brandon, there were no permanent residents at the time of the census, although some fishermen, were present on the island on Census night.

## **5. Area level of tabulation**

Different area levels of tabulation are used in this publication. An indication on the area levels at which tables are presented is given in the table of contents.

Several census tables have been prepared down to the level of Municipal Council Wards or Village Council Areas (MCW/VCA). Maps showing boundaries of the Municipal Council Wards and Village Council Areas are included in the Appendices together with a list of these areas within each district and their codes. All Municipal Council Ward and Village Council Area boundaries are given as they were on 3 July 2022, and all census data are in relation to these boundaries. Comparison of the 2022 Census data with the 2011 Census data at MCW/VCA level should be made with caution since there have been revisions of boundaries between the two censuses.

As regards Rodrigues, six local regions grouping adjacent localities were demarcated at the 2022 Census and some tables are published accordingly. A map showing the boundaries of these six local regions as well as a list of localities found therein are included in the Appendices.

## 6. Publication of results

The Housing Census data were published in June 2023 as Volume I of the series of the 2022 Census reports. Volume II dealt with the demographic and fertility characteristics of the population, while Volume III dealt with geographical and migration characteristics. The present one contains data on disability. In the coming months, several additional reports will be published providing information on economic, educational and household characteristics.

## 7. Concepts, definitions and classification

### (a) Household

A household is either:

- (i) a one-person household, i.e., a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household; or
- (ii) a multi-person household, i.e., a group of two or more persons living together who make common provision for food or other essentials for living. The persons in the group may pool their incomes and have a common budget to a greater or lesser extent; they may be related or unrelated persons or a combination of both.

### (b) Family nucleus

A family nucleus is either a couple with or without unmarried children, or a lone parent with unmarried children.

### (c) Household type

One person household is defined as a private household with only one usual resident.

A nuclear household is defined as a private household consisting entirely of a single-family nucleus.

An extended household is defined as a private household consisting of any one of the following:

- (i) a single-family nucleus plus other persons related to the nucleus
- (ii) two or more family nuclei related to each other, without any other persons
- (iii) two or more family nuclei related to each other with other persons related to at least one of the family nuclei
- (iv) two or more persons related to each other, none of whom constitute a family nucleus.

A composite household is defined as a private household consisting of any one of the following:

- (i) a single-family nucleus plus other persons, some or none of whom being related to the nucleus
- (ii) two or more family nuclei related to each other, plus other persons, some or none of whom being related to any of the nuclei
- (iii) two or more persons related to each other, none of whom constitute a family nucleus plus other unrelated persons
- (iv) two or more family nuclei not related to each other
- (v) Non-related persons only.

- (d) Enumerated population      This category includes all persons who spent census night in the household (whether private or communal) as well as persons who usually live in the household but were absent on census night.
- (e) Present population      This category includes all persons who spent census night in the household.  
The total of all persons present is generally referred as the ‘de facto’ population.
- (f) Resident population      The resident population is a count of all usual residents of a country at the time of the census. For census purposes, “usual residence” is defined as the place at which the person lives at the time of the census, and has been there continuously for the past 12 months or intends to live there continuously for at least 12 months.  
The total of all usual residents is generally referred as the ‘de juré’ population.
- (g) Languages read and written (literacy)      Persons were asked to state the language(s) in which they could, with understanding, both read and write a short, simple statement in their everyday life.
- (h) Educational attainment      For persons not attending school, this refers to the highest level of education completed, whereas for persons attending school, it refers to the standard, form, grade or course being attended.  
  
Highest qualification other than Primary or Secondary that leads to a certificate, diploma or degree has been classified under the appropriate level.

(i) Disability

Persons were asked about the difficulties they may have, as listed below, while doing certain activities because of health problem. They were asked to report all disabilities that they had, and the severity.

The classification used for tabulation is as follows:

EYE	- Seeing even if wearing glasses
EAR	- Hearing even if using a hearing aid
MTION	- Walking or climbing stairs
LEARN	- Remembering or concentrating
PERSONAL CARE	- With self-care such as washing all over or dressing
SPEECH	- Communicating using his/her usual language, for example understanding or being understood by others
MANU	- With manual activities such as gripping and holding
BEHAVIOUR	- Such as disturbances of behaviour, including antisocial behaviour, maladjustment and liability to self-injury.

However, each disabled person was counted only once, depending on the type of disability(ies) he/she had and the order in which the type of disability(ies) were tabulated. Similar to previous censuses, for comparability purposes, the following order was applied when classifying disabled persons so that they fall in only one category even if they had more than one disability:

- |                   |                 |
|-------------------|-----------------|
| 1. MTION only     | 2. MANU only    |
| 3. MTION & MANU   | 4. EYE only     |
| 5. EAR only       | 6. EYE & EAR    |
| 7. SPEECH         | 8. EAR & SPEECH |
| 9. LEARN          | 10. BEHAVIOUR   |
| 11. PERSONAL CARE | 12. OTHER       |

Response categories on severity were: (i) None, and if “Yes”: (ii) Some difficulty, (iii) A lot of difficulty, and (iv) Cannot do (the activity) at all.

- (j) Currently employed This category includes (i) any person, aged 16 years and over who worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2022, and (ii) any person who held a job during that week although he/she did not do any work. Work means any work for pay, profit or family gain, including self-employment with or without employees as well as work without pay in a family enterprise or farm; but it excludes housework in one's own home.
- (k) Currently unemployed These are persons aged 16 years and over who had not worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2022, and did not hold a job during that week, and took active steps to look for work anytime during the previous 4 weeks, and were available for work during the week ending 3 July 2022.
- (l) Currently active This category consists of the currently employed and the currently unemployed population.
- (m) Currently inactive This category consists of persons who were currently neither employed nor unemployed.
- (n) Occupation This was the job at which the person worked the most hours during the reference period. The National Standard Classification of Occupations, an adapted version of the 2008 International Standard Classification of Occupations was used for coding.
- (o) Kind of business, industry or service This was the kind of business, industry or service activities carried on at the person's place of work. The National Standard Industrial Classification of Economic Activities, based on the International Standard Industrial Classification of Economic Activities – ISIC Rev.4 of 2007, was used for coding.

Notes:

- (i) In the 2011 Population Census, a filter question was first asked to identify whether the respondent had any disability or not, before proceeding with the question on type and severity of disability.

As recommended by the Washington Group on Disability Statistics (formed as a United Nations Statistical Commission City Group, to work on disability statistics for international comparisons), no filter question was set in 2022. Each respondent was asked nine independent questions, covering a wide spectrum of disability, on whether he/she has any difficulty doing certain activities because of a health problem.

- (ii) The tables that follow are based on information as reported by members of households.

**Note:**

*Unlike the previous tables in this publication, in which each person was counted only once, in this table the count of persons have been made independently for each type of disability resulting in the counting of a person several times if he/she happens to suffer from multiple disabilities. As such, figures from this table are not comparable with figures from the previous tables.*

## Map of Island of Mauritius showing Municipal Wards and Village Council Areas by District

### Legend

- District
- Municipal Wards
- Village Council Areas

Kilometers  
 0 2.5 5 10 15 20

Areas are based according to new boundaries as amended and gazetted in the Local Government Act 2011  
 (Act No.36 of 2011) and the Representation of the People Act (GN no.1 of 2012, 3rd January 2012).

## Description of codes of Municipal Wards and Village Council Areas shown at Appendix I

Code	Region	Code	Region	Code	Region	Code	Region
<i>District of Port Louis (P/L)</i>		<i>District of Pamplemousses (contd)</i>		<i>District of Riviere du Rempart (R/R)</i>		<i>District of Riviere du Rempart (contd)</i>

G	Wholesale and retail trade; repair of motor vehicles and motorcycles	U	Activities of extra territorial organisations and bodies
H	Transportation and storage		
I	Accommodation and food service activities		
J	Information and communication		
K	Financial and insurance activities		
L	Real estate activities		
M	Professional, scientific and technical activities		
N	Administrative and support service activities		

**REPUBLIC OF MAURITIUS**  
**MINISTRY OF FINANCE, ECONOMIC PLANNING AND DEVELOPMENT**  
**STATISTICS MAURITIUS**  
**2022 CENSUS OF POPULATION (CENSUS NIGHT 3 - 4 July 2022)**

**Confidentiality**

The census is being carried out under the provisions of Statistics Act and in accordance with the Data Protection Act, which guarantees the confidentiality of personal information.

**Who should be counted?**

- Every person who spends Census night 3-4 July 2022 on the household's premises, whether he or she is a member of the household, a visitor, a guest, a boarder or a servant.

- Every person who usually lives in the household, but was away on Census night; e.g.:
  - a) on night work, staying overnight or temporarily with relatives, friends, staying in secondary residence, resort hotel, in hospital, even if person is being enumerated elsewhere;
  - b) on vacation outside Mauritius;
  - c) on business trip;
  - d) studying abroad;
  - e) working abroad, provided his/her usual place of residence is still at this address

- Every person who arrives on the premises and joins the household on Monday 4 July 2022 without having been enumerated elsewhere.

**Type of household/institution:**

1. Single
2. Combined
3. Part of household
4. Hospital, infirmary, asylum, prison
5. Orphanage, old people's home, convent and others\*
6. Hotel population
7. Collective quarters
8. Homeless
9. Vacant
10. Under construction
11. Ships, barges or other vessels
12. Naval forces, Air forces, Special Mobile Force or Police training force

\* *Others include student dormitories/campus*

	Total	Male	Female	Undetermined
No. of Persons at Housing Census (HC)	-----	-----	-----	-----
No. of Persons at Population Census (PC)	-----	-----	-----	-----

Reason for discrepancy	Number		Number
Moved in (E.g. marriage, etc.)	.....	Death	.....
Merged Household	.....	Split household	.....
Birth	.....	Left household (e.g. moved way, marriage, etc.)	.....
Missed member at HC	.....		
Newly formed household	.....		
Household moved in from another address	.....	Other	.....
