

What is MauStats?

MauStats is Mauritius' modern national statistics platform. Developed with the support of UNDP and technology partner I-Tech Mission (iTM), it provides a single, secure hub for official statistics, accessible to everyone.

Official Data Hub

All national statistics in one place

Global Standard

SDDS+ & GSBPM aligned

Mobile Friendly

Optimized for viewing on any device

Efficient & Secure

Streamlined collation & trusted data

Why MauStats Matters

1.1M+

data points migrated

50+

SM staff trained

Polymakers

Evidence-based planning

Businesses

Market insights

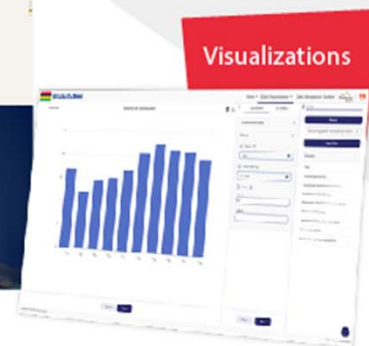

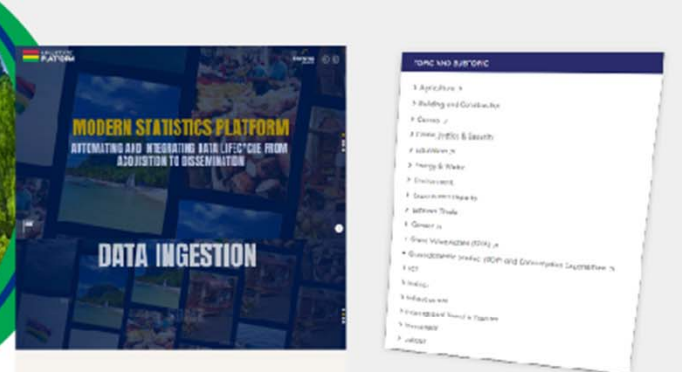

Researchers & Students

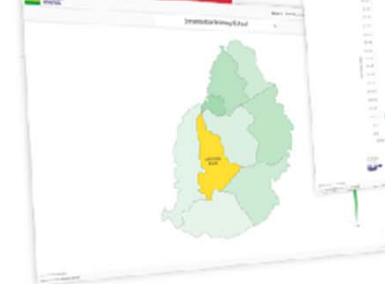

Reliable datasets

Citizens & Media

Transparent information

Advanced Analytics

Dashboards

Future Ready Phase II

01 Automated Economic Indices

CPI PPI WRI

02 SDG Monitoring Dashboard

Track progress globally

03 AI-Based Automation

Coding and classification of data

04 Dedicated Mobile App

Planned for a later phase

Implementation Features

Primary Data Ingestion

Integrated GIS Data

Survey Data Collection

Data Validation and Aggregation

Disseminate Data using Customized Data

Visualization, Galleries, and Dashboards

Controlled Access with Roles and Users

Generate Customized Reports

One Stop Data Hub

Unlocking key datasets to power Mauritius' digital transformation
