CEA 2023 Benchmarking, SNA 2025 Updates and Methodological Enhancements

The next issue of the National Accounts report, scheduled for publication in September 2026, will present revised National Accounts estimates benchmarked to the latest Census of Economic Activities 2023 (CEA 2023) and incorporating changes due to the adoption of the System of National Accounts (SNA) 2025 which will be done in a phased manner until 2029. The revised estimates will also reflect enhancements to the methodology and coverage. Consequently, the revised series will not be directly comparable with estimates published in previous editions, which were based on the Census of Economic Activities 2018 (CEA 2018).
