DIGEST OF AGRICULTURAL STATISTICS – 2001

F O R E W O R D

This is the eighteenth issue of a regular publication of the Central Statistics Office on Agricultural Statistics for the Republic of Mauritius.

The digest is designed to bring together in a single report as many series as possible on agricultural statistics. It thus contains information on the sugar, tea, tobacco, foodcrops, livestock and fisheries sectors. Data showing the pattern of food consumption of the population are given in the yearly "Food Balance Sheets". Agricultural price statistics are shown in the section "Producer Price Index - Agriculture (PPI-A)".

The data published cover the five-year period from 1997 to 2001 and are the latest available as at end of June 2002. Some of the figures are provisional and subject to revision in later issues. Figures in this issue supersede those appearing in previous ones.

It is hoped that the data assembled in this digest will prove useful to all users, in particular to agricultural policy makers, planners and scientists. The preparation of this digest has required the co-operation of numerous organisations, both public and private. This co-operation is gratefully acknowledged.

TECHNICAL NOTES

1. All tables refer to Island of Mauritius unless otherwise specified.

2. Basic price

Basic price is the amount receivable by the producer, exclusive of taxes payable on products and inclusive of subsidies receivable on products whilst **producers' price** is the amount receivable by the producer inclusive of taxes on products (except deductible value added tax) and exclusive of subsidies on products.

3. Regions (note to Table 2.5)

| Regions | Corresponding Districts |
|----------------|--|
| North | Port Louis, Pamplemousses and Riviere du Rempart |
| South | Grand Port and Savanne |
| East | Flacq |
| West | Black River |
| Centre | Plaines Wilhems and Moka |

4. Symbols and abbreviations

The following symbols and abbreviations are used throughout:

| | | |
|--------|---|-------------------------|
| ... | : | Negligible |
| — | : | Nil |
| Rs | : | Rupees (Mauritian) |
| '000 | : | Thousand |
| M | : | Million |
| No. | : | Number |
| N.A. | : | Not available |
| n.e.s. | : | Not elsewhere specified |

5. Conversion factors

1 hectare = 2.36922 arpents

1 inch = 25.4 millimetres

To convert degrees Celsius (Centigrade) into degrees

Fahrenheit multiply by $\frac{9}{5}$ and add 32°

1 tonne = 1,000 kilograms = 0.9842 long ton

Notes: (1) Harvesting generally extends from June to December, while export and local sales are spread over the period 1st July to 30th June the following year.

(2) Production may not tally with exports and local sales due to loss or surplus in storage.

(3) Local sales for crop years 1995/96, 1996/97, 1997/98 do not include imports of white sugar destined for the local market.

FOOD BALANCE SHEET

Food Balance Sheet

General Notes

1. All data relate to the residents (i.e. excluding tourists) of the Island of Mauritius only (not its dependencies).
2. Quantity is in tonnes unless otherwise specified.
3. (a) Gross imports include imports from dependencies.
(b) Gross exports include exports to dependencies.
4. Estimated changes in stock:

A plus sign indicates that there has been a decrease in stock, that is, an increase in supply. A negative sign would mean the converse.
5. Data on production of foodcrops may not tally with production data published in other section since allowance has been made here for backyard production.
6. Local production of meat include imported live animals slaughtered in Mauritius. Estimates for off-abattoir slaughters have been included.
7. Data on fish and crustaceans are given in terms of wet-weight equivalent.
8. As from 1989 onward, population includes Mauritian residents and Mauritians residing abroad.
