# **Business Activity Statistics – Financial Year 2009/2010**

## **Foreword**

This is the thirteenth issue of a regular publication of the Central Statistics Office on business activity statistics.

Data refer to business activities undertaken in the island of Mauritius, which are either licensed with the local authorities (municipalities and district councils) or registered with the appropriate organisations such as the Medical Council, the Ministry of Education and Human Resources, the National Transport Authority, etc. However, all agricultural related activities, except those in the manufacture of food products, are not covered.

The business activities have been coded according to the National Standard Industrial Classification of All Economic Activities (NSIC) which is an adapted version of the International Standard Industrial Classification of All Economic Activities (ISIC) Rev. 3, 1990.

It is hoped that this report will be of valuable help to the public in general and to planners and policy makers in particular.

The co-operation and assistance of the local authorities, professional councils and other organisations are gratefully acknowledged.

## Technical Notes

### 1. General

Data compiled in this publication provide the information on demography and trend of business activities in the different economic sectors of the country.

### 2. Concepts and Coverage

An operator is required to obtain a licence from the Municipal or District Councils or to register with the appropriate Ministry or organisations (e.g Ministry of Education and Human Resources, the Medical Council, the National Transport Authority, the Tourism Authority, etc.) in order to operate. Statistics published in this report pertain only to activities that are either licensed or registered. However, all agricultural related activities, except those in the manufacture of food products, are not covered.

Statistics on licences relate to the number of licences as delivered by the local authorities. Similarly statistics on registrations are those as registered with the appropriate Ministries or organisations. In some cases, an operator may hold both a licence and a registration certificate. To avoid double counting, while compiling statistics on both licences and registrations, such activities have been accounted for in registration only. For example the owner of a bus, besides registering his vehicle with the National Transport Authority may also hold a licence issued by a district council. In the table giving figures for both licences and registrations, the activity of the bus owner is accounted for in registration only.

### 3. Classification and presentation of data

To cater for the wide range and diverse business activities and for classification purposes, each activity has been assigned an activity code according to the **National Standard Industrial classification of Economic Activities (NSIC)**, which is an adapted version of the International Standard Industrial Classification (ISIC), Rev. 3, 1990.

The NSIC consists of 5 levels of classification namely:

Level 1	<b>Section:</b>	17 sections identified by one of the letters A to Q
Level 2	<b>Division:</b>	56 divisions identified by the first 2 digits
Level 3	<b>Group:</b>	151 groups identified by the first 3 digits
Level 4	<b>Classes:</b>	302 classes identified by the first 4 digits
Level 5	<b>Sub-classes:</b>	548 sub-classes identified by the 5 digits

The 17 sections are as follows:

<b>Section</b>	<b>Description</b>	<b>Division</b>
A	Agriculture, Hunting & Forestry	01 and 02
B	Fishing	05
C	Mining & Quarrying	14
D	Manufacturing	15 – 37
E	Electricity, Gas & Water supply	40 and 41
F	Construction	45
G	Wholesale and Retail trade; Repair of motor vehicles, motorcycles & personal and households goods	50 – 52
H	Hotels and Restaurants	55
I	Transport, Storage & Communications	60 – 64
J	Financial Intermediation	65 – 67
K	Real Estate, Renting & Business activities	70 – 74
L	Public administration & Defence; Compulsory Social security	75
M	Education	80
N	Health & Social work	85
O	Other Community, Social & Personal service activities	90 – 93
P	Private households with employed persons	95
Q	Extra-territorial organisations & bodies	99

### 3. Data sources

**Licences:** - Municipalities and District Councils

- Registrations:**
- National Transport Authority (Public transport)
  - Ministry of Education and Human Resources (Private schools)
  - Judicial Department (Legal activities)
  - Professional Councils (Medical Practitioners, Dentists, Architects, etc.)
  - Customs Department (Freeport companies)
  - Financial Services Commission (Offshore companies)
  - The Police Department (Driving schools)
  - Tourism Authority
  - Beach Authority

## **Business Activity Statistics, July 2009 - June 2010**

### **Introduction**

Statistics on business activities undertaken in the Island of Mauritius are compiled mainly from administrative records. They cover activities which are either licensed with the local authorities (registered with the appropriate municipalities and district councils) or organisations such as the Medical and Dental Council, the National Transport Authority, the Tourism Authority, etc. All agricultural activities are presently excluded.

It is to be noted that statistics on business activity presented in this publication refer to the total number of licensed or registered activities and not to the total number of operation units or enterprises.

With the coming into operation of the Business Registration and Business Facilitation Acts on the 1<sup>st</sup> of October 2006 and amendments brought to various regulations, several trades have been grouped under different clusters. As a result, an operator may carry out several activities grouped within the same cluster without having to hold separate licences.

Consequently, statistics on licences and registrations collected prior to 1<sup>st</sup> October 2006 are not strictly comparable with those collected after that date. Care should therefore be taken when comparing figures presented in this publication with figures published prior to October 2006.

### **2. Evolution of licences between July 2009 and June 2010**

The total number of licences increased by 7% from 94,609 in June 2009 to 101,697 in June 2010 (Table 1). During the period July 2009 to June 2010, 9,798 new licences were issued, the majority of which

(6,542 or 67%) was in the industry group 'Wholesale and retail trade; repair of motor vehicles, personal and household goods'. For the period under review 2,710 licences were cancelled.

Table 2 gives the distribution of licences by industry group and district.

### **3. Registrations by industry group and district**

The number of registered activities increased by 3% from 31,618 in June 2009 to reach 32,609 in June 2010. This represents an increase of 991 activities of which 289 (29%) were from the industry group 'Real estate, renting and business activities', 285 (29%) from the group 'Health and social work' and 239 (24%) from the group 'Transport, storage and communications'.

### **4. Adjusted licences and registrations**

Table 4 shows the total number of licensed and registered activities as at June 2010, adjusted for double counting. Activities which are both licensed and registered are included in registrations only.

The total number of adjusted licensed and registered activities went up by 7% from 120,076 in June 2009 to 128,155 in June 2010. An analysis by industry group, shows that the majority of activities (65,935 or 55%) falls under the group 'Wholesale and retail trade; repair of motor vehicles, personal and household goods', followed by 'Transport, storage and communications' with 22,781 activities (18%).

**Fig.1: Number of licences and registrations by industry group as at June 2010**

### 5. Distribution of adjusted licences and registrations by industry group and region

Table 5 shows the distribution of adjusted licensed and registered activities by industry group and region (urban and rural). The number of activities was higher (55%) in rural areas compared to urban ones. Activities predominant in the rural regions were from the industry groups 'Other community, social and personal service activities' (67%) and 'Hotels and restaurants' (65%) and 'Transport, storage and communications' (57%). On the other hand, activities pertaining to the following industry groups were found mostly in the urban areas: 'Health and social work' (71%), 'Real estate, renting and business activities' (61%) and 'Education' (55%).

### 6. Distribution of adjusted licences and registrations by activity, district and industry group

Table 6 shows that the district of Plaines Wilhems accounted for the highest number of licensed and registered activities (35,104 or 27%), followed by the district of Port Louis (22,633 or 18%) whilst the district of Savanne had the smallest number with 5,492 or 4% of activities.

**Fig.2: Licences and registrations by district as at June 2010**

### 7. Licences and registrations by activity, district and industry group

Tables 7.1 to 7.8 give a breakdown of the licensed and registered activities for the different industry groups, by activity and district.
