BUSINESS ACTIVITY STATISTICS

FINANCIAL YEAR 1998/1999

Business Activity Statistics – 1999

Foreword

This is the second issue of a regular publication of the Central Statistical Office on business activity statistics.

Data refer to business activities undertaken in the island of Mauritius, which are either licensed with the Local Authorities (Municipalities and District Councils) or registered with an organisation. All figures are provisional and subject to revision in later issues.

The business activities have been coded according to the system of National Standard Industrial Classification of Economic Activities(NSIC) given in Annex I.

It is hoped that this report will be of valuable help to the public in general and to planners and policy makers in particular.

The co-operation and assistance of the Local Authorities and other organisations are gratefully acknowledged.

Business Activity Statistics, Financial Year 1998/1999

Introduction

Business Activity Statistics refers to all activities, the conduct of which requires that the operator either obtains a licence from the Local Authorities (Municipalities and District Councils) or a registration with a government department or authority. Excluded therefore are all illegal activities carried out without a licence or registration.

It must also be pointed out that the statistics on business activity refer to the total number of activities and not to the total number of operation units or establishments. An analysis of the data on licences and registrations as well as new issues and cancellations, provides useful information on trends in business activities.

2. Concepts

An operator is required to obtain a licence from the Local Authorities for each type of activity carried out at a single location. For example, a general retailer may hold three licences: one for trading in foodstuffs, a second for sale of tobacco and a third for sale of liquor. This operator will therefore be assigned three activities.

In some cases, an operator has obtained a licence from the Local Authority and is also registered with a particular organisation, for example, EPZ and ESZ operators. In order to avoid double counting, such activities have been excluded from licences and included in registrations only. Licence statistics as obtained from the local authorities are given in Tables 1.1 to 1.8. The adjusted licence and registration data are given in Tables 2.1 to 5.8.

3. Data sources

The main data sources for the compilation of business activity statistics are:

- Municipalities and District Councils – Delivery of business licences
- Ministry of Commerce and Industry - Issue of Export Certificates to Enterprises (EPZ, ESZ)
- National Transport Authority - Issue of public transport licences
- Ministry of Education - Registration of pre-primary and other private schools

- Ministry of Social Security - Registration of employers
- Medical Bar Council – Registration of medical practitioners and lawyers
- Mauritius Freeport Authority - Registration of companies operating in the Freeport
- Mauritius Offshore Business Activities Authority - Registration of Offshore companies

4. Classification and presentation of data

Each activity has been assigned an activity code according to the National Standard Industrial Classification of Economic Activities, NSIC, which is an adaptation to the local context of the International Standard Industrial Classification (ISIC), Revision 3, 1990.

The International Standard Industrial Classification (ISIC) of all economic activities is a classification of productive economic activities according to kind of economic activity on the basis of the principal category of goods produced or services rendered. The objective of such a classification scheme is to group data in respect of the economy according to types of activities, the characteristics of which are similar.

5. Analysis of data

5.1 Number of licences delivered, July 1998 to June 1999

Between July 1998 and June 1999, 4,957 new licences were issued by the Local Authorities, of which 3,169 for 'Wholesale & Retail Trade'; 502 for 'Other community, social & personal services'; 470 for 'Transport, storage & communications'; 323 for 'Hotels & restaurants' and 247 for 'Manufacturing'. As for the same period, 1,299 licences were cancelled, the net addition works out to 3,658.

The total number of licences as at June 1999 stood at 60,042 which represents an increase of 6.5% over June 1998 (56,384).

5.2 Business activities, July 1998 to June 1999

The number of business activities at June 1999 totaled 75,842 (54,780 licences and 21,062 registrations), compared to 71,702 at June 1998 (51,603 licences and 20,099 registrations), showing an increase of 4,140 or 5.8 %.

Wholesale and retail trade, with 40,163 activities constituted the largest percentage (53%) of total activities, followed by Transport, storage & communications with 13,902 or

18.3%. Hotel and restaurants with 6,529, accounted for 8.6% and Manufacturing with 4,659 for 6.1%. 'Real estate, renting and business activities' and 'Other community, social and personal services' had around 3.7% each.

Compared to the previous financial year, 'Other community, social and personal services' registered the highest percentage rise (+17.2%), followed by 'Wholesale & retail trade' (+ 6.5%). More details are given in Table 3.

5.3 Distribution by district

The distribution of activities by geographical district and rural/urban region is given at Table 5.1.

In 1999, there were 38,485 activities licensed or registered in the rural districts as compared to 37,353 in the urban ones. Analysis of the data at section level reveals a predominance of mining, quarrying, hotels and restaurants activities in the rural areas as such activities are mainly carried out in the coastal regions. Passenger transport and some personal services which could be associated with hotels followed the same trend.

The table below shows comparative figures for rural and urban regions in respect of industry groups mentioned above.

	Rural	Urban
• Mining & quarrying	192	1
• Hotels & restaurants	4,581	1,948
• Transport, storage and communications	7,595	6,307
• Other community, social and personal services	1,773	1,176
