EXTERNAL TRADE STATISTICS - YEAR 1991

F o r e w o r d

This report, on External Trade Statistics used to be published every quarter since 1985. In 1987 and 1988, only one single annual report consolidating the four quarterly data was published and as from 1989, it is being published on a semester basis.

This issue contains quarterly data on exports and imports relating to the year 1991. The figures are provisional and are liable to revision in the next issue.

The basic data for the preparation of this publication are obtained from the Bills of Entry filed in at the Customs & Excise Department and from the Mauritius Sugar Syndicate and the State Trading Corporation which provide supplementary information. The Central Information Systems Division (CISD) of the Ministry of Finance is responsible for the processing of the data. Grateful acknowledgement is expressed here to all these departements for their continued cooperation.

It is hoped that data given in this report proves useful to the public in general and to all those in the field of external trade.

3. COMMODITY CLASSIFICATION

The classification used for the compilation of trade statistics is since January 1988 based on the Standard International Trade Classification (Revised III) or S.I.T.C. (Rev. III). However, import and export bills of entry are being worked upon according to the Harmonized Commodity Description and Coding System Nomenclature, shortly known as the Harmonized System Nomenclature (H.S.N.).

4. DATA PROCESSING

As from September 1990 the data on bills of entries are being captured using the Asycuda software installed at the Customs Department. All tabulations are processed by the C.I.S.D. of the Ministry of Finance.

5. ROUNDING OF FIGURES

Figures have been rounded off to the nearest final digit and in some cases to the nearest one decimal place. As a result in some tables there may be discrepancies between the sum of the constituent items and the total.

EXTERNAL TRADE - YEAR 1991

Introduction

1. Total value of international trade

Total international trade between July - December 1991 was valued at Rs 24,500 million, 4% higher than in the corresponding period of 1990 but 26% higher than in the previous semester. The total for the year 1991 therefore amounted to Rs 43,920 million, representing an increase of Rs 1,660 million or 4% over the previous year's level.

2. Balance of visible trade

Total exports for the year 1991 increased, in nominal terms by 6% to attain Rs 19,300 million whilst imports were up by 3% and amounted to Rs 24,650 million. Consequently, the trade balance yielded a deficit of around Rs 5,400 million which compares with deficits of Rs 5,800 million in 1990 and Rs 4,700 million in 1989. The balance for the year 1990, however, includes some Rs 1,200 million imports of aircraft and marine vessels excluding which the deficit in 1990 would have been at Rs 4,600 million.

3. Terms of trade (1988 = 100)

In 1991, the terms of trade index which shows price movements of exports relative to imports improved by 2 percentage points to reach 100 as compared with 98 in 1990.

This favourable movement of the terms of trade resulted from higher prices of exports relative to import prices. Prices of exported goods recorded increases of around 6%, with those of sugar rising by 7% and EPZ products, 5%. Import prices, on the other hand, went up by only around 5%. Higher prices were paid for the following: food products, (+2%), alcoholic beverages and tobacco, (+4%), petroleum products, (+6%), chemicals, (+10%), and manufactured goods, (+11%).

4. Exports

Total export proceeds, inclusive of ships' stores and bunkers, amounted to Rs 19,300 million as contrasted to Rs 18,250 million in 1990. In nominal terms, the increase works out to 6% explained solely by the effect of price increases. In volume terms, total exports therefore, showed no growth.

During the year 1991, a lower volume of sugar was exported: 551,000 metric tons were sold for Rs 5,200 million as compared to 578,000 metric tons for the same amount a year earlier. EPZ exports attained Rs 12,136 million as compared to Rs 11,474 million in 1990. The 6% rise in the value of EPZ exports is mostly attributable to the effect of price which is estimated to have increased by 5%. EPZ exports therefore grew by only around 1% compared to 6% in 1990.

Re-exports almost doubled last year's figure and reached Rs 700 million, fuel and other goods supplied to aircraft and ships amounted to Rs 600 million.

As in the previous years, the European Economic Community (EEC) remained the leading buyer of Mauritian products absorbing some 80% of total goods sold. The United States of America (USA) bought another 12%.

5. Imports

In 1991, the import bill of the country was valued at Rs 24,650 million 3% higher than the 1990's figure of around Rs 24,000 million. As mentioned earlier, 1990 figures include the purchase of aircraft and marine vessels amounting to Rs 1,200 million. Import prices went up by some 5% so that in volume terms, imports, exclusive of aircraft and marine vessels, grew by nearly 3%.

The comparative table below shows product groups which have registered major changes in 1991.

<u>Product Group</u>	<u>C.I.F. Value (Rs Mn)</u>		
	<u>1990</u>	<u>1991</u>	<u>Change</u>
Food products	2,611	2,692	+ 81
Beverages and tobacco	90	113	+ 23
Petroleum products	1,939	2,053	+ 114
Chemicals	1,619	1,739	+ 120
EPZ	7,348	7,068	- 280
of which: machinery	(794)	(719)	(-75)
raw materials	(6,554)	(6,349)	(-205)
Other manufactured goods	3,675	4,435	+ 760
Machinery (excluding EPZ)	4,386	5,298	+ 912
Aircraft and marine vessels	1,186	90	-1,096
Other goods and services	1,165	1,162	- 3
	<hr/>	<hr/>	<hr/>
Total Imports	24,019	24,650	+ 631
	<hr/>	<hr/>	<hr/>

As shown in the table above, all product groups (exclusive of aircraft and marine vessels) have recorded increases with the exception of EPZ purchase of raw materials and machinery which fell by 3% and 9% respectively.

Table 17, on imports by country of origin, shows that the EEC was the major supplier accounting for 33% of the total. Other important suppliers were: Republic of South Africa, 12%, Japan, 7%, India, 5% and Taiwan, 4%.

6. The EPZ sector

EPZ exports in 1991 rose in nominal terms by nearly 6% to reach Rs 12,136 million from Rs 11,474 million in 1990. After eliminating the effect of price increases which are estimated at around 5%, in volume terms, EPZ exports grew by only 1% as compared to 6% in 1990.

As in the previous years, EPZ exports comprised mainly textiles and clothing which accounted for 80% of the total.

The EPZ sector's import bill was lower than expected amounting to Rs 7,100 million compared to Rs 7,350 million in 1990. Imports of machinery and equipment dropped by some of Rs 75 million to Rs 719 million and that of raw materials fell by some Rs 200 million.

Consequently net EPZ exports went up by around 23% or Rs 1,100 million and attained Rs 5,100 million. The ratio of net exports to exports correspondingly rose to 42% from 36% in 1990 and only 17% in 1989.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

2. The second part covers the process of reconciling accounts. It involves comparing the internal records with the bank statements to identify any discrepancies. This step is crucial for detecting errors or unauthorized transactions early on.

3. The third part addresses the issue of budgeting. It suggests creating a detailed budget at the beginning of each period to track expenses against the planned amounts. This helps in controlling costs and staying within the allocated funds.

4. The final part of the document provides some general advice on financial management. It encourages regular reviews of the financial statements and maintaining a clear understanding of the overall financial position at all times.

5. In addition to the above points, it is also important to ensure that all financial data is entered accurately and promptly. Delaying entries can lead to confusion and make it difficult to identify trends or problems.

6. Furthermore, it is recommended to use standardized accounting practices and terminology. This makes it easier to compare and contrast financial data across different periods or departments.

7. The document also highlights the need for clear communication between all parties involved in the financial process. Regular meetings and reports can help in staying informed and addressing any issues that may arise.

8. Finally, it is essential to maintain a secure and reliable system for storing financial records. This could involve using cloud-based solutions or secure physical storage, depending on the organization's needs and resources.

9. The document concludes by reiterating the importance of a systematic and disciplined approach to financial management. By following these guidelines, organizations can ensure the accuracy and integrity of their financial data, leading to better decision-making and overall financial health.

10. It is hoped that these guidelines will be helpful in improving the financial management practices of all organizations.
