Foreword

External Trade - Second Semester 1994

This report on External Trade Statistics is published on a semester basis as from 1989. In 1987 and 1988 a single report incorporating data for the four quarters was published. It might also be recalled that a quarterly report on External Trade was published in 1985 and 1986.

This issue contains quarterly data on exports and imports relating to the year 1993 and 1994. The figures are provisional and are liable to revision in the next issue.

The basic data for the preparation of this publication are obtained from the Bills of entry filed in at the Customs and Excise Department, The Mauritius Sugar Syndicate and The State Trading Corporation provide supplementary information. The Central Information Systems Division (CISD) of the Ministry of Finance is responsible for the processing of the data. Grateful acknowledgement is expressed here to all these departments and organisations for their continued cooperation.

It is hoped that data given in this report proves useful to the public in general and to users of External Trade Statistics in particular.

External Trade

Notes

(1) Coverage

Trade figures are compiled according to the **General Trade System** as recommended by the United Nations. Using the national boundary as the statistical frontier, the General Trade System is a record of all goods entering (imports) and leaving the country (exports).

- Imports include goods brought in directly for domestic consumption plus goods imported into customs bonded warehouses
- Exports cover domestic exports and re-exports which include re-exports from customs bonded warehouses. Domestic exports are defined as goods of national origin. Re-exports are goods which are exported in the same condition as imported or after undergoing minor operations which leave them essentially unchanged.
- Ships stores and bunkers are included in total exports and are shown separately.
- Trade by parcel post is also included in imports and exports

(2) Valuation

Imports are valued on a C.I.F. (Cost, Insurance and Freight) basis whilst exports on a F.O.B. (Free On Board) basis.

C.I.F. value is the value in the market at the Customs frontier of a country of her imports of merchandise, other goods, etc. including all charges for transporting and insuring the goods from the country of exports to the given country but excluding the cost of unloading from the ship, aircraft etc. unless it is borne by the carrier.

F.O.B. value is the value in the market at the Customs frontier of a country of her exports of merchandise and other goods, including all costs of transporting the goods to the Customs frontier, export duties and the cost of loading the goods on to the carrier unless the latter cost is borne by the carrier.

(3) Classification

:

(i) Commodity Code

Commodities are coded according to the Harmonised Commodity Description and Coding System Nomenclature (HS). However, for the purposes of economic analysis and to facilitate international comparison of trade by commodity data, the commodities are also classified according to the Standard International Trade Classification (Revision 3) or SITC Rev. 3. The HS and the SITC Rev. 3 are six and five digit codes respectively but have been extended to eight and seven digits to accommodate national requirements.

4. **Terms of trade**

Terms of trade index: The terms of trade index measures the price movements of exports relative to imports. It is the ratio of exports price index to import price index. A rise in this ratio indicates that the real purchasing power of exports has increased whilst a decrease indicates a drop in the purchasing power

External Trade - 4th Quarter and Year 1994

Introduction

This report presents trade figures for the years 1993 and 1994. Data relating to the year 1993, in particular the unit value price indices, have been revised whilst those for 1994 are still provisional.

1. Total International Trade and Balance of visible trade.

During the fourth quarter of 1994, total international trade for the country was valued at around Rs 18,200 million, 21 percent higher than that of the corresponding period of 1993 and 16 per cent above the previous quarter's level. With exports totalling Rs 6,900 million, and imports, Rs 11,300 million, inclusive of Rs 2,000 million for purchase of an aircraft, the result was a higher deficit of Rs 4,400 million.

Total exports for the year 1994 reached Rs 24,700 million increasing by Rs 1,150 million or 5 percent over the previous year. As the import bill was some 14 percent higher, valued at Rs 34,500 million, the trade balance showed a deficit of Rs 9,800 million. Exclusive of the aircraft purchased during the fourth quarter of 1994, the works out to Rs 7,800 million as compared to deficits of Rs 4,500 million and Rs 6,800 million in 1992 and 1993 respectively.

2. Terms of trade (base year: 1992 = 100)

In 1994, the terms of trade index which shows price movements of exports relative to those of imports, fell by 5 percentage points to 94 from 99 in 1993. This unfavorable movement was the result of a 9 percent increase in the prices of imported goods, and a rise of only 4 percent for those of exports. Details on changes in the price of exports and imports are given in Tables 3 and 4.

3. Exports

Total export proceeds for the year 1994, which comprise domestic exports, re-exports, and ship's stores and bunkers amounted to Rs 24,700 million, representing an increase of Rs 1,150 million or 5 percent over the year 1993.

Domestic exports were up by 3 percent to Rs 23,200 million from Rs 22,400 million in 1993. After allowing for price increases of around 4 percent, domestic exports showed a contraction in volume of around 1 percent.

EPZ exports increased by nearly 5 percent to Rs 16,533 million from Rs 15,821 million a year ago whilst the proceeds from sugar remained almost at the previous year's level of Rs 5,742 million: 518,000 tonnes of sugar were exported against 540,000 tonnes in 1993. The other domestic exports comprised mainly molasses (Rs 115 million), tea (Rs 83 million), cut flowers (Rs 105 million), chemicals (Rs 106 million) and wheaten flour (Rs 65 million).

Re-exports in 1993 was almost doubled to Rs 900 million. The total includes the sale proceeds of a marine vessel.

Total exports by country of destination for the year 1994 (Table 10) shows that our main buyer remained the countries of the European Union which purchased some 71 percent of our export (Rs 17,200 million). The US market maintained its share of 18 percent.

4. Imports

The import bill for the year 1994 was valued at Rs 34,500 million some 14 percent above the previous year's figure of Rs 30,300 million. However, exclusive of the purchase of the aircraft valued at Rs 2,000 million, the increase works out to 7 percent. As import prices are estimated to have increased by around 9 percent, in volume terms, import showed a contraction of 2 percent. Volume increases in food (+8%) and fuel (+8%), were offset by decreases in machinery (-9%), crude materials inedible (-8%), manufactured goods (-3%) and chemicals (-1%).

Table 16 on imports by country of origin shows that during the year 1994, our major suppliers remained the European Union (36%). Outside the European Union, on an individual country basis, the Republic of South Africa remained our main supplier accounting for 12%, followed by India 7 percent, Hong Kong and Japan, 5 percent, each.

5. The EPZ sector

EPZ exports attained Rs 16,533 million against Rs 15,821 million in 1993. As the nominal increase of around 5 percent represents the effect of price increases, quantitywise, EPZ exports registered no growth.

Imports, on the other hand, reached Rs 10,125 million. Raw materials amounted to Rs 9,016 million, 10 percent higher than in 1993 whilst imports of machinery and equipment including spare parts remained at the previous year's level of Rs 1,100 million.

Net exports for the year 1994 therefore amounted to Rs 6,400 million, and its ratio to EPZ exports dropped to 39 percent from 41 percent in 1993.
