**DIGEST  
OF  
PUBLIC FINANCE STATISTICS  
1986—1990**

**(Price: Rs 50.00)**

**June 1990**

## FOREWORLD

This is the third issue of the Digest of Public Finance Statistics, a regular annual publication of the Central Statistical Office.

The digest contains data on central and local government finance, details of which have not been published elsewhere. Apart from the accounts of departments covered by the general budget of the government, figures for the National Pensions Fund and other government agencies have also been given in accordance with the recommendations of the Government Finance Statistics Manual of the International Monetary Fund. The digest thus presents details of revenue and expenditure, financing and debt classified by type and purpose. Also included are tables containing data relating to employment and wages & salaries in the public sector for the years 1986/87 to 1989/90 and a set of tables on income tax statistics.

It is hoped that the statistics which have been herewith assembled will be useful to the public in general and to planners and policy makers in particular.

The basic data required for the preparation of this report were mainly obtained from the financial reports of the Accountant-General's Department, the National Pensions Fund, municipalities and district councils as well as other decentralised agencies of government. Use of these sources is herewith acknowledged.

(D. Zmey)  
Director of Statistics

Central Statistical Office

## Concepts and definitions

### Central government accounts

The tables in this digest relating to central government have been derived from the detailed information published in the following reports:-

1. Financial Report published by the Accountant General's Department
2. Recurrent Budget Estimates
3. Capital Budget Estimates
4. Final accounts of the National Pensions Fund
5. Final accounts of Decentralised agencies (extra budgetary units), forming part of central government

A list of extra budgetary units is given on page 3.

Meant primarily for the purposes of control and accountability, the data in these publications are not amenable directly to economic analysis. The IMF, recognising the important role of government activities in most economies, has derived a system of statistics of government finance which is more suitable for analysis, planning and policy determination. This has been set down in its Manual on 'Government Finance Statistics' (GFS).

### The GFS Manual

The focus of the manual is upon government financial transactions - taxation, borrowing, spending and lending - unlike the System of National Accounts where the emphasis is rather on production, consumption and investment. The main aggregates derived in the GFS system are revenue and grants, expenditure, net lending, deficit/surplus, financing and debt.

In order to get a better understanding of the government's effect on the economy, these aggregates are broken down into details classified by economic characteristics, purpose and financial effects.

Tables relating to central government as presented in this digest, have been prepared according to the concepts and definitions of the GFS manual.

### Main aggregates

Revenue includes receipts from taxes (i.e., compulsory payments to government), income from property such as interests and dividends, fees and other charges. Non repayable receipts from other governments and international institutions are separately classified under grants.

Expenditure includes all payments made by government, whether for current or capital purposes. Unlike the treatment in receipts, payments of grants or transfers are included within expenditure itself rather than forming a separate category.

Net lending consists of loans made by government to public and private bodies net of repayments of past loans. Government's acquisition of equities for public policy purposes is also included here.

Deficit or surplus is defined as revenue and grants received less total expenditure and net lending. It is also equal (with an opposite sign) to the amount of net borrowing by the government.

Financing represents the means by which a government provides financial resources to cover a budget deficit or allocates financial resources arising from a surplus. It thus includes government borrowing and amortization vis-a-vis all other sectors, domestic and foreign. According to the GFS manual, since transactions with the IMF are directly connected with management of the country's international reserves, they should be included in the functions of the Central Bank (Bank of Mauritius). Hence, receipt of funds from, and payments to, the IMF have been excluded from government accounts and the net transactions treated as a net borrowing from the central bank. Similarly, in the tables relating to central government debt, borrowings from the IMF are included in domestic debt, i.e., from the central bank.

Central government debt represents the outstanding stock of liabilities of the government to the rest of the economy and the world. It excludes borrowing and lending transactions among units forming part of central government. For example, investment of the surpluses of the National Pensions Fund with government are not included in central government debt.

#### Coverage

Government is defined as consisting of all units performing government functions - that is, the implementation of public policy through the provision of primarily non-market services and the transfer of income, supported mainly by compulsory levies.

Central government covers all units that are agencies of the country's central authority, i.e.,

1. Budgetary central government
2. Extra budgetary units
3. Social security schemes

Budgetary central government includes the Governor-General's Office, the Legislative Assembly, the Judiciary, the various ministries and departments as well as Rodrigues. The Consolidated Sinking Fund which is made up of contributions provided by the government for the gradual redemption of government domestic debt, is also considered to form part of the budgetary central government accounts.

Extra budgetary units are agencies responsible for the performance of specialised governmental functions in such fields as health, education, social welfare, construction and so on, under the authority of central government. Examples are :

The Development Works Corporation

The Private Secondary Schools Authority

The University of Mauritius

Major portions of government's social security programs are carried out through social security schemes. In view of the recommendations of the GFS manual, the operation of the National Pensions Fund has been included under central government.

The public sector consists of the central government, local government, non-financial public enterprises and public financial institutions. An enterprise is considered as public if it is entirely or mainly owned and/or controlled by government itself or by some other public institution.

By 'own' is meant having all or a majority of the shares or other forms of capital participation.

'Control' implies having an effective influence in the main aspects of management.

A list of institutions classified as public is given below.

#### Budgetary central government

Ministries and departments covered by the general budget with the exception of the Civil Aviation Department, the Posts and Telegraphs Department and the Telecommunications Department.

#### Other units of central government (extra budgetary units)

Development Works Corporation

Mahatma Gundhi Institute

Mauritius College of the Air

Mauritius Examinations Syndicate

Mauritius Institute of Education

National Pensions Fund

Outer Islands Development Corporation

Private Secondary Schools Authority

Sugar Industry Labour Welfare Fund

Tea Board

Town and Country Planning Board

University of Mauritius

Widows' and Children's Pension Scheme Board

#### Local government

Municipal councils

District councils including village councils

Non financial public enterprises

Agricultural Marketing Board  
Air Mauritius Ltd  
Belle Rive Tea Factory  
Cargo Handling Corporation  
Central Electricity Board  
Central Housing Authority  
Central Water Authority  
Civil Aviation Department  
Dubreuil Tea Factory  
Irrigation Authority  
La Chartreuse Tea Factory  
La Pipe Tea Factory  
Mauritius Broadcasting Corporation  
Mauritius Export Development and Investment Authority  
Mauritius Marine Authority  
Mauritius Meat Authority  
Mauritius Shipping Corporation  
Mauritius Sugar Authority  
Mauritius Sugar Industry Research Institute  
Mauritius Sugar Bulk Terminal Corporation  
Mauritius Tea Factories Co Ltd  
Mauritius Telecommunications Services  
National Transport Corporation  
Nouvelle France Tea Estate  
Overseas Telecommunications Services Co Ltd  
Posts and Telegraphs Department  
Rose Belle Sugar Estate  
State Informatics Ltd  
State Trading Corporation  
Sugar Industry Development Fund  
Sugar Planters Mechanical Pool Corporation  
Tea Development Authority  
Tobacco Board

Public financial institutions

Bank of Mauritius  
Development Bank of Mauritius Ltd  
Mauritius Cooperative Central Bank  
Mauritius Housing Corporation  
Post Office Savings Bank  
State Commercial Bank  
State Insurance Corporation of Mauritius Ltd  
State Investment Corporation Ltd  
Stock Exchange Commission  
Stock Exchange of Mauritius  
Sugar Insurance Fund Board
