# INTERNATIONAL TRAVEL AND TOURISM STATISTICS

Vol. 38

2011

" International Travel and Tourism Statistics" is a regular publication of the Statistics Mauritius, designed to present in a single report, detailed statistics concerning international travel and tourism relating to Mauritius.

The statistical tables presented in this report have been compiled from data collected from the passport of travellers, disembarkation cards filled in by non-residents, questions put to non-residents entering the country, hotels and administrative records.

Statistical data on International Travel and Tourism are constantly updated as more reliable information become available, necessitating minor changes over previous issues of this publication. The figures published in this issue therefore supersede those of all previous issues.

It is hoped that the data herewith assembled will prove useful to the public in general and to policy makers, planners and research workers in particular.

The publication of this report has been made possible with the collaboration of the Passport and Immigration Office and the Ministry of Tourism and Leisure. Their co-operation is herewith gratefully acknowledged.

### III - TOURISM

#### Definition and notes

##### 1. Definition of tourist

- (a) Prior to 1964, a tourist has been defined as a non-resident staying in Mauritius for more than 24 hours but less than 6 months.
- (b) From 1964 to 2008, a tourist is defined as a non-resident staying in Mauritius for more than 24 hours but less than a year and is not involved in any gainful occupation.
- (c) As from 2009, a tourist is defined as a non-resident staying overnight but less than a year, and who has no employer-employee relationship with a resident.

The figures for the three periods are nevertheless comparable because of the small number of tourists staying for more than 6 months.

##### 2. Visitors include the following:

- (a) Tourists as defined above and
- (b) Excursionists or same day visitors, i.e non-residents, other than those who do not leave the airport/ships, who depart on the same day they arrived.

##### 3. Method of compilation

###### Sources of data

The main source of data for the compilation of passenger traffic statistics is the Passport and Immigration Office, which maintains a database of all passengers entering and leaving the country. The data are collected from the passport of travellers, disembarkation cards filled in by non-residents and questions put to non-residents entering the country. At the end of every month, passenger traffic for that particular month is downloaded and supplied to the Statistics Unit of the Ministry of Tourism and Leisure within fifteen days. Additional data on cruises are supplied by the Mauritius Ports Authority.

Prior to 1994, figures have been compiled from a 10% sample of embarkation and disembarkation cards filled in by passengers. However, as from January 1994, they are based on movements of all passengers. Thus disaggregated data for 1994 onwards may not be strictly comparable to previous series.

#### Tourism receipts

The Bank of Mauritius is responsible for the estimation of tourism receipts based on monthly statements of Inward and Outward Remittances of Commercial Banks.

#### Monthly Occupancy Rates

All hotels are contacted by mail and/or phone at the end of every month on room / bed nights available and rented during the month for the calculation of room and bed occupancy.

#### 4. Tourist nights

Tables on tourist nights show the number of nights spent by tourists who were present in the country during the period under review. Thus the number of tourist nights for 2011 include:

- (a) the nights spent during 2011 by tourists who arrived prior to 1st January 2011; and
- (b) the nights spent during 2011 by tourists who arrived during the same year.

However, nights spent after 31st December 2011 by tourists who arrived in 2011 are excluded.

#### 5. Large hotels

Large hotels are well established beach hotels of over 80 rooms.
