**Vol. 21**

**1994**

" International Travel and Tourism Statistics" is a regular publication of the Central Statistical Office, designed to present in a single report, available detailed statistics concerning international travel and tourism relating to Mauritius. It is hoped that the data herewith assembled will prove useful to the public in general and to policy makers, planners and research workers in particular.

The statistical tables presented here are based on the embarkation / disembarkation cards filled in by passengers as they leave or enter the country in the course of their travel.

Statistical data on International Travel and Tourism are constantly updated as more reliable information become available, necessitating minor changes over previous issues of this publication. The figures published in this issue therefore supersede those of all previous issues.

The publication of this report has been made possible by the co-operation obtained from the Passport and Immigration Office and the Mauritius Government Tourist Office. Their co-operation is herewith gratefully acknowledged.

## IV - TOURISM

### Definition and notes

1. Definition of tourist

(a) prior to 1964, a tourist has been defined as a non-resident staying in Mauritius for more than 24 hours but less than 6 months.

(b) as from 1964, a tourist is defined as a non-resident staying in the island for more than 24 hours but less than a year and is not involved in any gainful occupation .

The figures for the two periods are nevertheless comparable because of the small number of tourists staying for more than 6 months.

2. Visitors include the following:

(a) tourists as defined above; and

(b) non-residents who stayed in the country for less than a day, other than those who do not leave the airport.

3. Method of compilation

Certain data on tourism (such as type of visitor, tourist arrivals by month of arrival, tourist arrivals by country of residence and mode of transport) are compiled from disembarkation (arrival) cards which all passengers have to fill in when they arrive in this country. However, information on duration of stay of visitors can be compiled only from the embarkation (departure) cards which they fill in when leave the country.

Prior to 1994, figures have been compiled from a 10% sample of embarkation and disembarkation cards filled in by passengers. However, as from January 1994, they are based on movements of all passengers. Thus disaggregated data for 1994 may not be strictly comparable to previous series.

4. Visitor nights

Tables on visitor nights show the number of nights spent by tourists who were present in the country during the period under review. Thus the number of visitor nights for 1994 include:

- (a) the nights spent during 1994 by tourists who arrived prior to 1st January 1994; and
- (b) the nights spent during 1994 by tourists who arrived during the same year.

However, nights spent after 31st December 1994 by tourists who arrived in 1994 are excluded.
