

External Trade – 2nd Quarter 2004

Introduction

This issue of the Social and Economic Indicators presents external trade statistics for the second quarter of 2004 and for the years 2002 and 2003. These statistics are compiled from declarations lodged at Customs by importers and exporters. Some of these declarations are at times revised at a later period and corrections made accordingly on the computerised database of the Customs Department.

Thus while figures for 2002 and 2003 published in this indicator are final, those for 2004 are subject to revision as and when the Customs Department submits latest amendments to the Central Statistics Office.

Data on international trade are compiled as per the recommendations of the United Nations General Trade System. According to this system, all goods entering and leaving the national frontier, including trading activities of the Freeport zone should be accounted for. However, it was not possible prior to 2002 to include Freeport transactions in our general trade statistics because of different processing systems at the Customs Department and at the Mauritius Freeport Authority. Since mid-October 2001, transactions of the Freeport are being lodged through the Customs Management System (CMS), thus making it possible to integrate data of the Freeport zone with those of Customs.

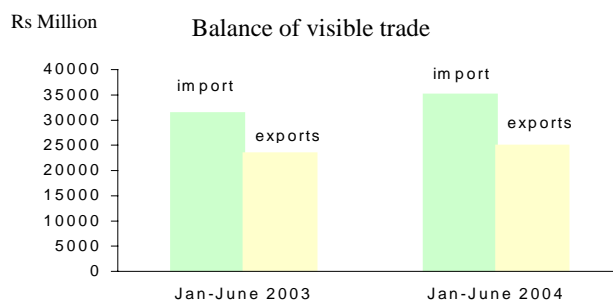

Hence, as from 2002, data on imports and exports include transactions through the Mauritius Freeport. It is to be noted that all exports of the Freeport are included in re-exports of Mauritius because it is not possible to distinguish between domestic exports and re-exports of freeport licensees. It is estimated that currently some 35% of freeport exports are sourced locally.

A new table showing imports and exports of the Freeport Zone (Table 2) has been introduced as from the first quarter of 2004.

1. Total value of trade and trade balance

Total international trade for the second quarter of 2004 was valued at Rs 31,453 million, a figure which is 10.4% higher than that of the previous quarter and 18.5% higher than that of the corresponding quarter of 2003.

During the second quarter of 2004, total exports reached Rs 12,520 million compared to total imports of Rs 18,933 million, thus resulting in a trade deficit of Rs 6,413 million.

Based on the trends for previous years, total exports for the year 2004 are expected to be of the order of Rs 56,500 million, as against Rs 71,000 million for imports which would include aircraft worth Rs 219 million. The trade deficit would be around Rs 14,500 million.

2. Terms of trade (base year : 2002 = 100)

The base period for the calculation of unit value indices (imports and exports) has been revised from 1997 to 2002. During the second quarter of 2004, the terms of trade index, which shows price movements of exports relative to those of imports, increased by four percentage points to 99, from 95 in the first quarter of 2004 (Table 3). This movement was due to increases of 10.4% in export prices and 6.3% in import prices. It should be noted that these price movements are based on unit value indices which, unlike genuine price changes, are affected by changes in country of origin/destination, product mix and quality.

Details of price changes for exports and imports are given in Tables 4 and 5.

3. Exports

Total export proceeds for the second quarter of 2004, including domestic exports, re-exports and ship's stores and bunkers, amounted to Rs 12,520 million, showing an increase of 1.2% over the previous quarter and an increase of 7.6% over the corresponding quarter of 2003.

Total exports for the first semester attained Rs 24,893 million, that is, a 6.3% increase over the first semester of 2003.

Domestic exports, which represented about 79% of total exports, increased by 10% in nominal terms, compared to the first semester 2003. This change in value was accompanied by 5% rise in price and a similar expansion in volume.

The table below shows the main changes in domestic exports between the first semesters of 2003 and 2004.

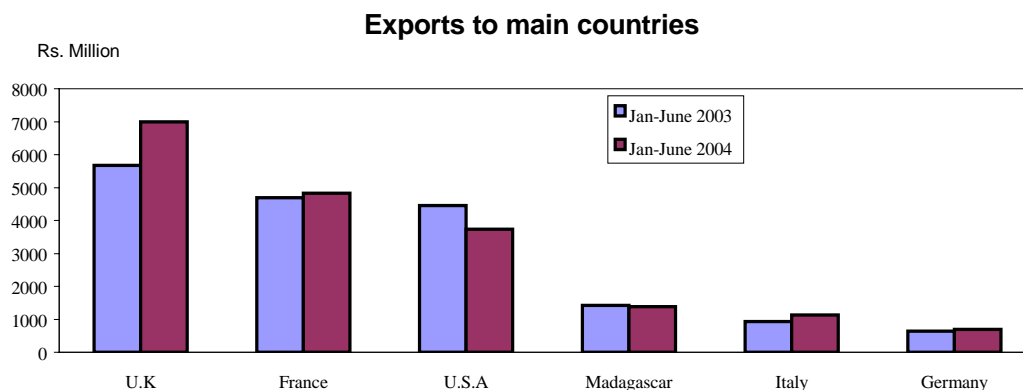

(f.o.b value): Million Rupees

S.I.T.C Section	Jan - June 2003	Jan - June 2004	----- Change (%) -----		
			Value	Price	Volume
Domestic Exports	17,915	19,626	+10	+5	+5
of which					
Food and live animals	3,787	4,217	+11	+3	+8
<i>of which Sugar</i>	2,333	2,630	+13	+3	+10
Crude materials, inedible, except fuels	139	135	-3	-12	+10
Chemicals & related products	158	155	-2	+30	-25
Manufactured goods classified chiefly by materials	1,245	1,660	+33	+7	+24
Miscellaneous manufactured articles	12,496	13,347	+7	+6	+1

The value of exports of “*Food and live animals*” increased by 11% as a result of 3% increase in prices, and 8% increase in volume. Export receipts from “*Manufactured goods classified chiefly by materials*” improved by 33% in nominal terms, resulting from an increase of 7% in prices and 24% increase in volume. Exports of “*Miscellaneous manufactured articles*” registered an increase of 7% in value, following an increase of 6% in price and 1% in volume.

Exports of “*Articles of apparel and clothing accessories*”, representing 56% of total exports, reached Rs 13,454 million in the first semester of 2004 ie an increase of 5% over the corresponding period of last year. During the same period, exports of sugar, representing 11% of total, registered a 13% increase to reach Rs 2,630 million (Table 6).

Analysis by country of destination shows that our main buyers, i.e the European countries, purchased some 66% of our exports for Rs 15,866 million. The United Kingdom remained the main buyer with Rs 6,991 million, or 29% of total exports, followed by France with Rs 4,824 million (20%). The other major markets were U.S.A (16%), Malagasy Republic (6%), Italy (5%) and Germany (3%). Compared to the corresponding semester of last year, total exports to UK and France went up by 23% and 3% respectively while those to U.S.A fell by 16%. Table 9 shows further details.

4. Imports

Total imports for the second quarter of 2004 reached Rs 18,933 million, showing an increase of 17% over the previous quarter and a 27% increase compared to the corresponding quarter of 2003.

Total imports for the first semester of 2004 amounted to Rs 35,060 million, showing an increase of 12% over the corresponding period of 2003; exclusive of aircraft, they have increased by 15%. Overall import prices are estimated to have increased by around 4% and import volume by 11%.

During this semester, imports of “*Manufactured goods classified chiefly by material*” and imports of “*Machinery and transport equipment*” represented 27% and 23% of total imports respectively while imports of “*Food and live animals*” made up for 16%.

Figures for imports (excluding aircraft) by S.I.T.C (Rev 3) sections are compared to those of the first semester of 2003 below.

(c.i.f value: million rupees)

S.I.T.C Section	Jan - June 2003 ¹	Jan - June 2004 ¹	-----Change (%)-----		
			Value	Price	Volume
Total Imports	30,264	34,841	+15	+ 4	+ 11
Food & live animals	4,891	5,525	+13	+7	+6
Beverages & tobacco	259	281	+8	+ 13	-4
Crude materials, inedible except fuel	756	1,050	+39	-1	+40
Mineral fuels, lubricants & related materials	3,645	4,465	+22	+12	+9
Animals & vegetable oils & fats	335	348	+4	+2	+2
Chemicals & related products	2,657	2,961	+11	+10	+1
Manufactured goods classified chiefly by material	8,838	9,403	+6	+10	-4
Machinery & transport equipment	5,945	7,899	+33	-17	+60
Miscellaneous manufactured articles	2,875	2,812	-2	-5	+3

(¹excluding the purchase of aircraft)

In nominal terms, the highest increase was registered in the group “*Crude materials, inedible except fuel*” whose imports value rose by 39% as a result of a 40% increase in volume and a 1% decline in prices. A substantial increase of 33% was also noted in the value of imports of “*Machinery and transport equipment*” due to a 60% expansion in volume and a 17% fall in prices. Imports of “*Mineral fuels, lubricants & related materials*” went up by 22% due to a rise of 12% in prices and a 9% increase in volume.

Further details by section and commodity are given in tables 12 and 13.

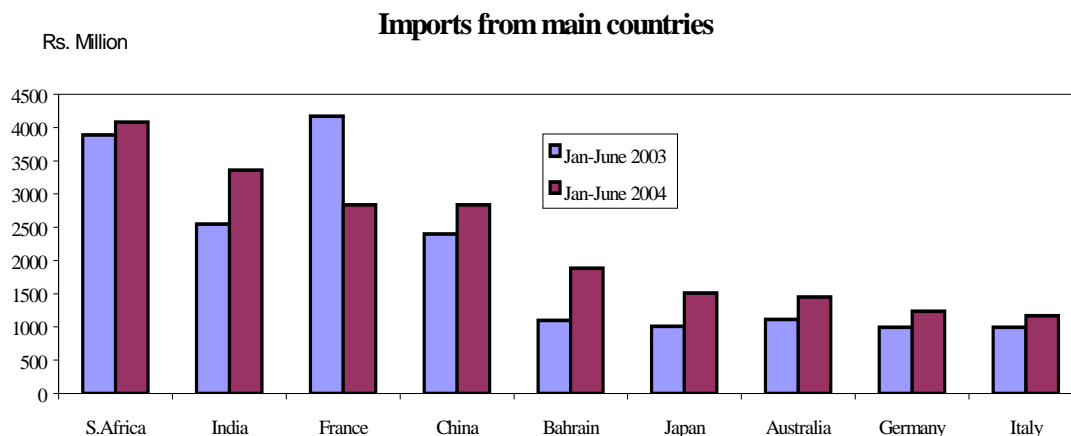

Table 14 shows imports by country of origin. During the first semester of 2004, imports from Asia totalled Rs 16,347 million, representing 47% of total imports for that period. Our main supplier countries were Republic of South Africa (12%), India (10%), France (8%), China (8%), Bahrain (5%), Japan (4%), Australia (4%), Germany (4%) and Italy (3%).

Imports from France registered a 32% decrease, from Rs 4,168 million in the first semester of 2003 to Rs 2,840 million in the same period of 2004. This is explained by the fact that the 2003 figure included the purchase of an aircraft.

5. Trade with Regional Organisations

Total exports to African, Caribbean and Pacific (ACP) States during the second quarter of 2004 amounted to Rs 1,222 million, while imports stood at Rs 2,804 million (Table 15).

During the first semester, total exports to these countries were valued at Rs 2,274 million and imports, Rs 5,396 million.

During the second quarter of 2004, Mauritius exported goods to a value of Rs 944 million to COMESA countries. Imports from these countries amounted to Rs 580 million, resulting in a favourable balance of Rs 364 million for Mauritius (Table 16).

For the first semester, total exports to COMESA countries amounted to Rs 1,768 million and imports, Rs 1,230 million. Madagascar was the main buyer (78%) and also the main supplier (54%).

Trade with SADC countries for the second quarter showed a deficit of Rs 1,955 million, resulting from imports to a value of Rs 2,305 million and exports amounting to Rs 350 million (Table 17).

For the first semester, Mauritius imported Rs 4,394 million worth of goods from SADC countries while exports were of the order of Rs 645 million. The main supplier was the Republic of South Africa (93%). Our main buyers were Republic of South Africa (48%), Seychelles (21%), Tanzania (14%) and Zimbabwe (7%).

6. Trade in Freeport Zone

During the second quarter of 2004, total imports of the Freeport Zone from overseas amounted to Rs 897 million, a figure which is 4% higher than that of the previous quarter and 3% higher than that of the corresponding quarter of 2003. Re-exports to overseas markets were valued at Rs 1,693 million, that is 9% higher than that of the previous quarter and 4% higher than the corresponding quarter of 2003.

For the first six months of the year, total imports amounted to Rs 1,756 million compared to Rs 3,251 million worth of re-exports.

External Trade

Notes

(1) Coverage

Trade figures are compiled according to the **General Trade System** as recommended by the United Nations. Using the national boundary as the statistical frontier, the General Trade System is a record of all goods entering (imports) and leaving the country (exports).

- Imports include goods brought in directly for domestic consumption plus goods imported into customs bonded warehouses
- Exports cover domestic exports and re-exports which include re-exports from customs bonded warehouses. Domestic exports are defined as goods of national origin. Re-exports are goods which are exported in the same condition as imported or after undergoing minor operations which leave them essentially unchanged.
- Ships stores and bunkers are included in total exports and are shown separately.
- Trade by parcel post is also included in imports and exports

(2) Valuation

Imports are valued on a C.I.F. (Cost, Insurance and Freight) basis whilst exports on a F.O.B. (Free On Board) basis.

C.I.F. value is the value in the market at the Customs frontier of a country of her imports of merchandise, other goods, etc. including all charges for transporting and insuring the goods from the country of exports to the given country but excluding the cost of unloading from the ship, aircraft etc. unless it is borne by the carrier.

F.O.B. value is the value in the market at the Customs frontier of a country of her exports of merchandise and other goods, including all costs of transporting the goods to the Customs frontier, export duties and the cost of loading the goods on to the carrier unless the latter cost is borne by the carrier.

(3) Classification

(i) Commodity Code

Commodities are coded according to the Harmonised Commodity Description and Coding System Nomenclature (HS 2002). However, for the purposes of economic analysis and to facilitate international comparison of trade by commodity data, the commodities are also classified according to the Standard International Trade Classification (Revision 3) or SITC Rev. 3. The HS and the SITC Rev. 3 are six and five digit codes respectively but have been extended to eight and seven digits to accommodate national requirements.

4. **Terms of trade**

The terms of trade index measures the price movements of exports relative to imports. It is the ratio of exports price index to import price index. A rise in this ratio indicates that the real purchasing power of exports has increased whilst a decrease indicates a drop in the purchasing power
