

# SOCIAL SECURITY STATISTICS

2014 – 2018

## 1. INTRODUCTION

This issue of the 'Economic and Social Indicators' presents statistics on the main social security benefits provided by the Ministry of Social Security, National Solidarity and Environment and Sustainable development (Social Security and National Solidarity Division) for the period January 2014 to June 2018. Social Security benefits are classified as:

- ❖ Non-contributory benefits financed by government and are payable to every Mauritian citizen under certain conditions; and
- ❖ Contributory benefits payable only to, or on behalf of, those persons who have contributed to the National Pensions Fund (NPF)

Social Security Statistics was reported on a calendar (January to December) year basis instead of the financial (July to June) year basis from year 2010 to year 2014. This followed Government decision taken in July 2008 to change reporting period of Government account from year ending 30<sup>th</sup> June to year ending 31<sup>st</sup> December. Then in 2015, following Government decision, reporting period reverted to the financial year basis (July to June). This publication presents main summary statistics on Social Security for the period July 2017 to June 2018.

For the financial year 2017/2018, the number of beneficiaries relates to June 2018, while the amount paid refers to financial year. Figures for 2017/2018 are subject to revision in future issues as additional information becomes available.

Detailed explanatory notes on the different benefits are given at section 9.
