

**National Accounts Estimates (2016 – 2019)**  
**June 2019 issue**

**1. INTRODUCTION**

This issue of Economic and Social Indicators presents National Accounts estimates for the period 2016 to 2019. Concepts and definitions used in the computation of estimates are given at section 6.3.

**2. MAIN AGGREGATES**

	<b>2018<sup>1</sup></b>	<b>2019<sup>2</sup></b>
(i) GDP at current market prices (R billion)	482.2	507.9
(ii) GVA at current basic prices (R billion)	423.3	443.6
(iii) GDP growth rate at market prices (%)	+3.8	+3.9
(iv) GVA growth rate at basic prices (%)	+3.6	+3.6
(v) Investment (GFCF) growth rate (%)	+10.9	+6.6
<i>Exclusive of aircraft and marine vessel</i>	+12.2	+6.3
(vi) Investment (GFCF) as a % of GDP at current market prices	18.7	19.3
<i>Exclusive of aircraft and marine vessel</i>	18.7	19.3
(vii) Public sector investment as a % of GDP at market prices	4.5	5.6
<i>Exclusive of aircraft and marine vessel</i>	4.5	5.5
(viii) Private sector investment as a % of GDP at market prices	14.2	13.8
<i>Exclusive of aircraft and marine vessel</i>	14.2	13.8
(ix) Public sector investment as a % of investment (GFCF)	24.2	28.8
<i>Exclusive of aircraft and marine vessel</i>	24.2	28.6
(x) Private sector investment as a % of investment (GFCF)	75.8	71.2
<i>Exclusive of aircraft and marine vessel</i>	75.8	71.4
(xi) Growth rate of final consumption expenditure (%)	+3.5	+3.1
(xii) Gross Domestic Saving as a % of GDP at market prices	9.0	9.5
(xiii) Gross National Saving as a % of GNDI (Excl. GBC)	10.1	10.8
(xiv) Net exports of goods and services as a % of GDP	-13.5	-14.3

<sup>1</sup>Revised <sup>2</sup> Forecast

**3. HIGHLIGHTS**

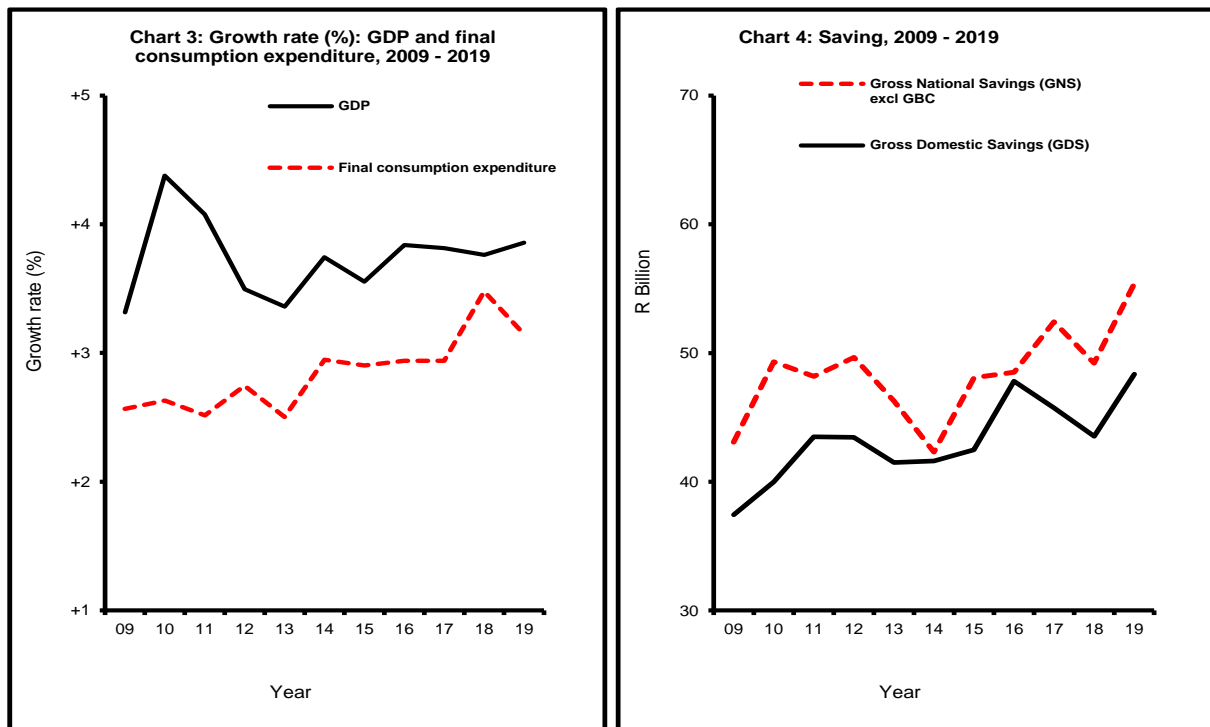

**3.1 Gross Domestic Product - 2018 and 2019**

- (i) **GDP at market prices in 2018 grew by 3.8%** and **GVA at basic prices by 3.6%**, same as in 2017. Excluding sugar, the GVA growth rate was 3.7%, same as in 2017.
- (ii) On the basis of information gathered on key sectors of the economy and taking into consideration policy measures announced in the budget 2019/2020:
  - **GDP at market prices in 2019 is forecasted to grow by 3.9%, higher than the 3.8% growth in 2018.**
  - **GVA at basic prices in 2019 is expected to grow by 3.6%, same as in 2018.** Exclusive of sugar, the rate would remain at 3.6%.
- (iii) Main contributors to the 3.6% growth in GVA at basic prices would be: **“Financial and insurance activities” (0.6 percentage point), and “Construction” and “Wholesale & retail trade; repair of motor vehicles and motorcycles” each contributing 0.4 percentage point.** (Chart 2).

### 3.2 Final consumption expenditure, 2019

Final consumption expenditure would grow by 3.1% in 2019 compared to 3.5% in 2018 (Chart 3).

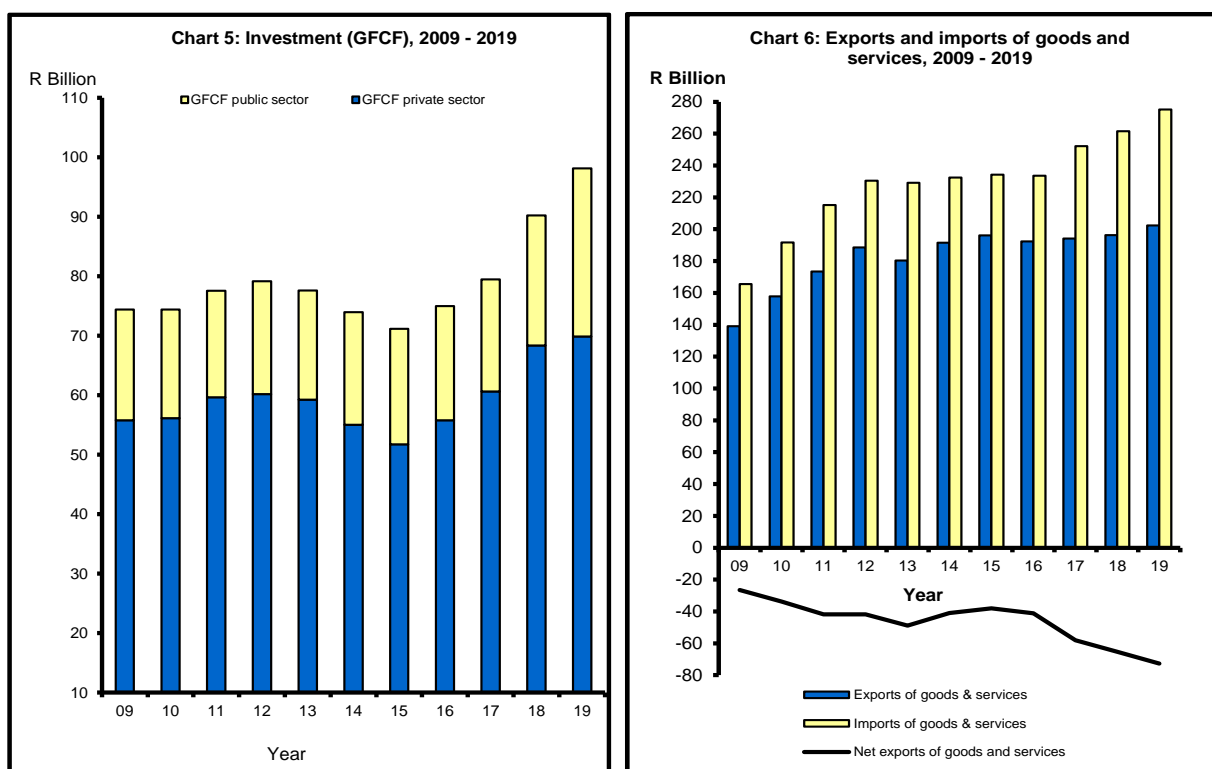

### 3.3 Saving, 2019

Gross Domestic Saving (GDS) as a percentage of GDP at market prices for 2019 would be 9.5 compared to 9.0 in 2018. Gross National Saving (GNS)<sup>1</sup> as a % of Gross National Disposable Income (GNDI)<sup>1</sup> would be 10.8 in 2019, higher than the figure of 10.1 in 2018 (Table 11).

<sup>1</sup> Excluding net primary income and net transfer of Global Business Companies (GBC) from the rest of the world

### 3.4 Investment (GFCF), 2019

- (i) **Investment would grow by 6.6% in 2019, after a growth of 10.9% in 2018.** Exclusive of aircraft and marine vessel, investment would grow by 6.3% compared to 12.2% in 2018.
- (ii) **Private sector investment is expected to grow by 0.1% in 2019** compared to the 10.4% growth in 2018.
- (iii) **Public sector investment would expand by 26.7% in 2019, after a growth of 12.7% in 2018.** Exclusive of aircraft and marine vessel, public sector investment is expected to grow by 26.0% in 2019 after a growth of 18.3% in 2018.
- (iv) **Investment rate, defined as the ratio of GFCF to GDP at market prices would increase to 19.3% in 2019, from 18.7% in 2018.**
- (v) **Private investment rate would decrease to 13.8% in 2019 from 14.2% in 2018 while public investment rate would increase to 5.6% in 2019 from 4.5% in 2018.** Exclusive of aircraft and marine vessel, private investment rate in 2019 would be 13.8% and that of public sector would be 5.5%.
- (vi) **The share of private sector investment in GFCF is expected to decrease to 71.2% in 2019 from 75.8% in 2018 while that of the public sector would increase to 28.8% from 24.2% in 2018.** Exclusive of aircraft and marine vessel, the share of private sector investment in 2019 would be 71.4% and that of the public sector, 28.6%.

### 3.5 Net exports of goods and services, 2019

- (i) **Imports of goods and services would rebound by 3.3% in 2019** after a 'no growth' registered in 2018.
- (ii) **Exports of goods and services would grow by 1.2% in 2019** compared to 2.3% in 2018.
- (iii) Net exports of goods and services would result in **a deficit representing 14.3% of GDP at market prices**, higher than the figure of 13.5% recorded in 2018.

## 4. REVISIONS IN THIS ISSUE

The **GDP growth rate at market prices for 2019 would be 3.9%, same as forecasted in March 2019**. Based on performance observed in the first quarter of 2019, **the GVA growth rate at basic prices would be 3.6%, same as forecasted in March 2019**.

At industry level, the main changes compared to the forecast made in March 2019 are:

- (i) **Agriculture, forestry and fishing:** A slightly higher growth rate (2.4% instead of 2.3%), mainly explained by an expected increase in sugarcane (0.5% instead of 0.2%) based on a revised forecast of local sugar production (325,000 tonnes instead of 324,000 tonnes),
- (ii) **Manufacturing:** to grow by 1.1% instead of 1.3%, due to lower performance expected in “textile manufacturing” (-1.4% instead of -0.5%), partly offset by “sugar milling” (7.5% instead of 7.0%),
- (iii) **Accommodation and food service activities:** to grow by 2.5% instead of 3.6%, due to a downward revision in the expected number of tourist arrivals (1,435,000 instead of 1,450,000),
- (iv) **Education:** A lower growth rate (1.1% instead of 2.0%), mostly explained by lower than expected performance of public education services (0.0% instead of 1.8%),
- (v) **Arts, entertainment and recreation:** to grow by 3.9% instead of 3.1%, mainly attributed to an increase in gambling and betting activities observed in the first quarter of 2019,
- (vi) **Public administration and defence; compulsory social securities:** to grow by 3.2% compared to 2.1%, mainly due to higher number of new recruits expected in the public sector.
- (vii) **Other services:** a growth of 3.3% instead of 3.5%, mainly due to a drop in personal service activities such as dry cleaning and massage salons recorded in the first quarter of 2019.

## 5. FORECAST - YEAR 2019

### 5.1 Gross Domestic Product

#### 5.1.1 Production

GVA at current basic prices, which comprises the sum of value added of all industry groups, is expected to reach R 443,588 million compared to R 423,274 million in 2018, representing a nominal increase of 4.8%. Around 76.8% of GVA in 2019 would be generated by the tertiary sector comprising the services industries compared to 19.8% by the secondary sector. The remaining 3.4% would be attributed to the primary sector which consists mainly of agricultural activities.

Taxes on products (net of subsidies) as provided by the Ministry of Finance and Economic Development are expected to rise by 9.1% to reach around R 64,300 million from R 58,936 million in 2018.

GDP at current market prices, which is equal to GVA at current basic prices plus taxes on products (net of subsidies), would reach R 507,888 million, 5.3% higher than the figure of R 482,210 million in 2018.

Per capita GDP, defined as the ratio of GDP at current market prices to population, is projected to increase by 5.3% to attain R 401,151 from R 381,020 in 2018 (Table 1).

#### 5.1.2 Growth rate

After removing the price effect estimated at 1.4% (known as the GDP deflator), **GDP at market prices is forecasted to grow by around 3.9%**, higher than the 3.8% growth in 2018.

In light of information gathered on key sectors of the economy, performance observed in the first quarter of 2019 and policy measures announced in the budget 2019/2020, **GVA at basic prices is expected to grow by 3.6%**, same as in 2018 (Tables 2 & 6).

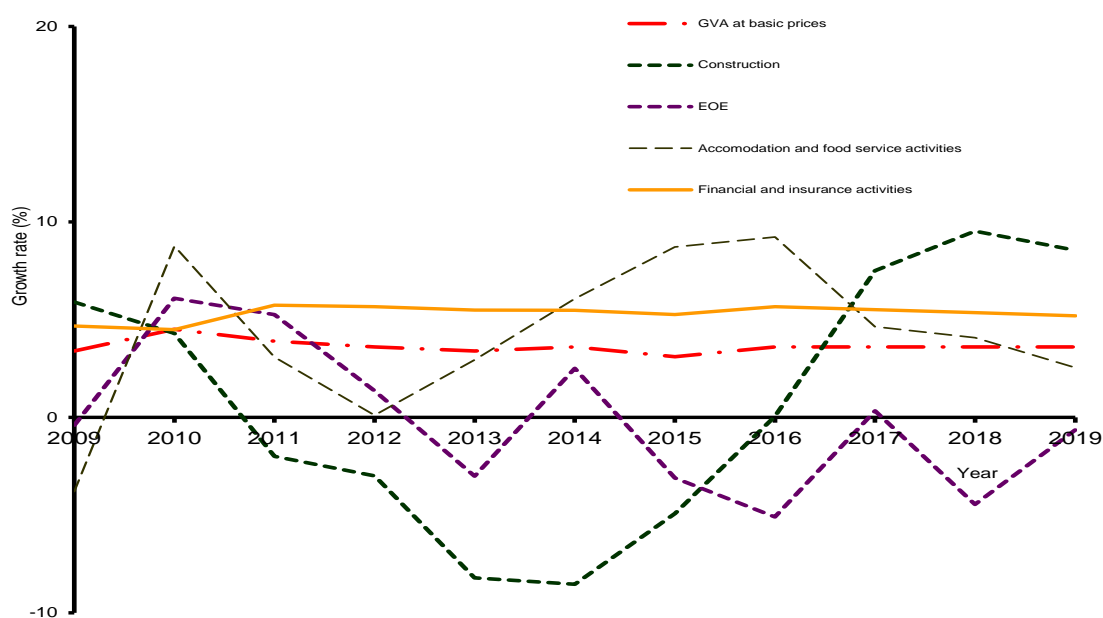

### 5.2 Growth rate by industry

The main assumptions used are as follows:

- a) **Agriculture, forestry and fishing:** to grow by 2.4% compared to a decline of 1.3% in 2018. Within the sector,
  - (i) “Sugarcane”: a sugar production of 325,000 tonnes compared to 323,406 tonnes in 2018, resulting in a growth of 0.5% compared to a drop of 9.1% in 2018, and

- (ii) “Other agriculture”: to grow by 2.7% compared to 0.4% in 2018.
- b) **Manufacturing:** to grow at a rate of 1.1%, after a growth of 0.7% in 2018. The expected performances of its sub sectors are as follows:
- (i) “Sugar milling” to rebound by 7.5% after a contraction of 19.0% in 2018. This growth is the combined effect of a local sugar production of 325,000 tonnes and the refining of 40,000 tonnes of imported raw sugar. In 2018, the local sugar production was 323,406 tonnes and no raw sugar was imported for refining;
  - (ii) “Food processing” to grow by 2.0%, lower than the 3.4% growth in 2018;
  - (iii) “Textile manufacturing” to dip further by 1.4%, after the decline of 6.8% in 2018; and
  - (iv) “Other manufacturing” to grow by 2.0%, lower than the 4.7% growth in 2018.
- Within the manufacturing sector, activities of **Export Oriented Enterprises (EOEs)** are expected to decline by 0.7%, after a contraction of 4.5% in 2018.
- c) **Construction:** to grow by 8.5% compared to 9.5% in 2018, assuming implementation of major public investment projects.
- d) **Wholesale & retail trade; repair of motor vehicles and motorcycles:** to grow at a lower rate of 3.4% compared to 3.6% in 2018.
- e) **Transportation and storage:** to grow by 3.2%, lower than the 3.5% growth in 2018.
- f) **Accommodation and food service activities:** to grow by 2.5% compared to 4.1% in 2018, based on expected tourist arrivals of 1,435,000 in 2019 compared to 1,399,408 in 2018.
- g) **Information and communication:** to grow by 5.4%, lower than the 5.5% growth in 2018.
- h) **Financial and insurance activities:** to grow by around 5.2%, lower than the 5.4% growth in 2018. This would be due to expected growths of 5.5% and 4.8% in “Monetary intermediation” and “Insurance, reinsurance and pension” respectively.
- i) **Professional, scientific and technical activities:** to grow by 4.9%, lower than the 5.1% growth observed in 2018.
- j) **Public administration and defence; compulsory social security:** to grow at a higher rate of 3.2% compared to 1.8% in 2018.
- k) **Other sectors:** growth rates based on recent past trends.

**Chart 7: Growth rate (%) - GVA and selected industries, 2009 - 2019**

### 5.3 Expenditure on Gross Domestic Product

#### 5.3.1 Final Consumption Expenditure

Final consumption expenditure of households and general government, the major component of expenditure on GDP, is expected to increase by 4.8% to attain R 459,535 million in 2019 from R 438,686 million in 2018. The real growth rate would be 3.1%, lower than the 3.5% in 2018, mostly due to a lower expected growth in the final consumption expenditure of general government. Final consumption expenditure of households would grow by 3.3%, same as in 2018 while that of general government is expected to grow by 2.4% compared to 4.2% in 2018 (Tables 9 and 10).

#### 5.3.2 Investment (GFCF)

Based on latest information gathered from stakeholders and taking into consideration measures announced in the budget 2019/2020, investment in 2019 would reach R 98,131 million, representing an increase of 8.7% in nominal terms over the 2018 figure of R 90,242 million (Tables 9 and 12). In real terms, it is expected to grow by 6.6% compared to 10.9% in 2018. Exclusive of aircraft and marine vessel, the growth would be 6.3% compared to 12.2% in 2018 (Table 13).

Investment rate, measured by the ratio of investment to GDP at market prices would work out to 19.3% in 2019, higher than the rate of 18.7% in 2018 (Table 2).

##### *Investment by type*

In real terms, investment in "Building and construction work" is expected to expand further by 8.5%, following a growth of 10.3% in 2018. Within this category, "Residential building" would rebound by 8.0% after a contraction of 4.3% in 2018. "Non-residential building" is expected to expand at a rate of 23.6%, after a growth of 4.6% in 2018. "Other construction work" would decline by 1.8% as opposed to a high growth of 45.3% registered in 2018.

Investment in "Machinery and equipment" is estimated to grow by 3.2% in 2019, following a growth of 12.1% in 2018. Excluding investment on aircraft and marine vessel, it would grow by 2.6% compared to 15.5% in 2018.

##### *Investment by sector*

Private sector investment would increase by 2.2% in nominal terms to reach R 69,866 million in 2019 from R 68,375 million in 2018. In real terms, this represents a growth of 0.1% compared to 10.4% observed in 2018 (Tables 9 and 10).

Public sector investment is estimated at R 28,265 million in 2019, representing a nominal increase of 29.3% from R 21,867 million in 2018. After removing the price effect, public sector investment would expand by 26.7% compared to 12.7% in 2018.

The share of private sector investment in GFCF is expected to reach 71.2% from 75.8% in 2018 and that of the public sector, to increase to 28.8% from 24.2%. Excluding aircraft and marine vessel, the share of private sector investment in GFCF would be 71.4% (compared to 75.8% in 2018) and that of the public sector, 28.6% (compared to 24.2% in 2018).

#### 5.3.3 Imports and exports of goods and services

Imports of goods and services would reach R 275,175 million in 2019 from R 261,492 million in 2018, representing a nominal increase of 5.2% (Table 9). In real terms, a growth of 3.3% is expected following a 'no growth' observed in 2018. Imports of goods measured on an f.o.b. basis would grow by 4.8% compared to 1.4% in 2018 and imports of services, which include insurance and freight paid in respect of imported goods and imports of FISIM, would decline further by 0.4% following a decrease of 3.1% in 2018 (Table 10).

Exports of goods and services would increase by 3.1% to R 202,395 million in 2019 from R 196,232 million in 2018. In real terms, this represents a growth of 1.2% compared to 2.3% in 2018. Exports of goods measured on an f.o.b. basis are expected to grow by 2.9% compared to 0.7% in 2018 while exports of services (inclusive of FISIM exports) would record a 'no growth' compared to a growth of 3.4% in 2018 (Tables 9 and 10).

Net exports of goods and services would result in a deficit of R 72,780 million in 2019 after the R 65,260 million deficit of 2018. This represents 14.3% of GDP at market prices in 2019, higher than the figure of 13.5% in 2018 (Tables 1 and 2).

#### 5.4 GDP at market prices by category of income

'Compensation of employees' is estimated at R 183,734 million in 2019, representing a nominal increase of 4.6% over the 2018 figure of R 175,651 million. Gross operating surplus which accounts for over half of GDP at market prices, would increase by 5.0% to reach R 256,517 million in 2019 from R 244,404 million in 2018. Taxes (net of subsidies) on production and imports would increase by around 8.8% to R 67,637 million from R 62,155 million in 2018 (Table 11).

#### 5.5 Gross National Disposable Income and Saving

Gross National Disposable Income (GNDI)<sup>2</sup> is expected to reach R 514,899 million in 2019 compared to R 487,904 million in 2018, representing a nominal increase of 5.5%.

Gross Domestic Saving (GDS) in 2019 would reach R 48,353 million, 11.1% higher than the figure of R 43,524 million in 2018. GDS as a percentage of GDP at current market prices would be 9.5 compared to 9.0 in 2018.

Gross National Saving (GNS)<sup>2</sup> would reach R 55,364 million in 2019 from R 49,217 million in 2018. The saving rate as measured by the ratio of GNS<sup>2</sup> to GNDI<sup>2</sup> would be 10.8% compared to 10.1% in 2018.

---

<sup>2</sup> Excluding net primary income and net transfer of GBC from the rest of the world

## 6. TECHNICAL NOTE

### 6.1 Release of National Accounts data

Annual National Accounts aggregates are compiled and published in the “Economic and Social Indicators” in March, June, September and December according to an advance calendar posted on the website of Statistics Mauritius (<http://statsmauritius.govmu.org>). This issue covers the period 2016 to 2019 and will be updated as follows:

Issue	Date posted on website
September 2019	27 September 2019
December 2019	23 December 2019

### 6.2 Revisions policy

Benchmark data for the compilation of annual National Accounts estimates are obtained from the Census of Economic Activities (CEA) which is conducted every five years. For non-census years, the estimates are worked out based on results of quarterly and annual surveys as well as data from administrative sources. These are updated as and when additional information becomes available. Revisions to published series may therefore be made in subsequent issues of the publication.

There will also be occasional major revisions, such as rebasing on results of the quinquennial CEA, methodological changes and adoption of latest international recommendations. Users will be informed in advance of these major changes while comparable series will be worked out as far back as possible and published.

### 6.3 Definitions of main aggregates

#### (i) Gross Value Added (GVA) at current basic prices

Value added is obtained as the difference between output and intermediate consumption whereby output is valued at basic prices and intermediate consumption at purchasers' prices.

The basic price is the amount receivable by the producer exclusive of taxes on products and inclusive of subsidies on products. The equivalent for imported products is the c.i.f. value, i.e. the value at the border of the importing country. The purchasers' price is the amount payable by the purchaser exclusive of deductible taxes on products (e.g. deductible value added tax).

GVA at current basic prices comprises the sum of value added of each firm, government institution and producing households in a given country ( $GVA = \sum \text{Value added}$ ).

#### (ii) Gross Domestic Product (GDP) at current market prices

GDP is the aggregate money value of all goods and services produced within a country out of economic activity during a specified period, usually a year, before provision for the consumption of fixed capital. It is a measure of the overall economic activity of a country.

GDP at current market prices is equal to GVA at current basic prices plus taxes (net of subsidies) on products (i.e.  $GDP = \sum \text{Value added} + [\text{Taxes} - \text{Subsidies}] \text{ on products}$ ).

#### (iii) Primary sector

The primary sector comprises “Agriculture, forestry and fishing” and “Mining and quarrying”.

#### (iv) Secondary sector

The secondary sector includes “Manufacturing”, “Electricity, gas, steam and air conditioning supply”, “Water supply; sewerage, waste management and remediation activities” and “Construction”.

#### (v) Tertiary sector

The tertiary sector includes “Wholesale and retail trade; repair of motor vehicles and motorcycles”, “Transportation and storage”, “Accommodation and food service activities”, “Information and communication”, “Financial and insurance activities”, “Real estate activities”, “Professional, scientific and technical activities”, “Administrative and support service activities”, “Public administration and defence; compulsory social security”, “Education”, “Human health and social work”, “Arts, entertainment, recreation” and “Other services activities”.

**(vi) Contribution to GVA growth**

The contribution of an industry group to the annual GVA at basic prices growth is calculated by multiplying the annual growth rate of the group by its relative share of GVA in the previous year.

**(vii) Financial intermediation services indirectly measured (FISIM)**

In addition to charging customers directly for financial services, banks and similar institutions also generate service income by charging higher rates of interest to lenders than they pay to depositors. The margin earned by these financial institutions is treated as payment for FISIM.

It is calculated separately for loans and deposits using a reference rate. In more details, it is measured as the sum of FISIM on loans = [Interest received on loans – (Stock of loans x reference rate)] and FISIM on deposits = [(Stock of deposits x reference rate) – Interest paid on deposits].

As recommended by the SNA, it has been allocated to users as follows: intermediate consumption of businesses, final consumption of households and government and a component of exports of services.

**(viii) Gross National Income (GNI)**

GDP plus net primary income from abroad gives Gross National Income (GNI).

**(ix) Gross National Disposable Income (GNDI)**

Gross National Income (GNI) plus net of transfers from the rest of the world gives Gross National Disposable Income (GNDI).

**(x) Per capita GDP at current market prices**

Per capita GDP is the ratio of GDP at current market prices to population. It measures the level of economic development in comparison to other countries.

**(xi) Consumption expenditure**

Consumption expenditure is made up of final consumption expenditure of households and of government.

Government final consumption expenditure comprises the value of services produced and value of goods and services purchased from private producers for free distribution to households, and the output of the Central Bank. It is further disaggregated into *collective* and *individual* consumption expenditure.

*Collective* expenditure consists of the services which government provides to the community as a whole, for example, security and defence whereas *individual* expenditure is made up of expenses incurred in providing services which are mostly beneficial to individuals, mainly in respect of health and education.

**(xii) Gross Domestic Saving (GDS)**

Gross Domestic Product (GDP) at market prices less total consumption gives Gross Domestic Saving.

**(xiii) Gross National Saving (GNS)**

Gross National Disposable Income (GNDI) less total consumption gives Gross National Saving.

**(xiv) Gross Fixed Capital Formation (GFCF)**

GFCF is the net additions to the physical assets of the country in a year. These consist mainly of investment in buildings, plants, machinery and transport equipment, all valued at market prices.

**(xv) Investment rate**

Investment rate is the ratio of GFCF to GDP at current market prices.

**(xvi) Exports and Imports of goods and services**

In this publication, both exports and imports of goods are measured on an f.o.b. basis. Insurance and freight, which represent the difference between the c.i.f. and f.o.b. values of imports of goods, are recorded as import of services.

Exports and imports of goods are compiled according to the General Trade System, using the national boundary as the statistical frontier. All goods entering the country are recorded in imports and goods leaving the country in exports.

**(xvii) Change in inventories**

Change in inventories includes the value of the physical change in inventories of raw materials, work in progress, and finished goods held by producers.

**(xviii) Export Oriented Enterprises (EOEs)**

EOEs comprise manufacturing enterprises formerly operating with an export certificate and those export manufacturing enterprises holding a registration certificate issued by Board of Investment (BOI).

**(xix) Seafood**

The seafood sector covers mainly the activities of "Fishing" and "Fish processing".

**(xx) Freeport**

The Freeport sector covers "Wholesale and retail trade" and "Storage" activities of Freeport operators.

**(xxi) Tourism**

The tourism sector covers components of "Accommodation and food service activities", "Transport (incl. air travel)", "Recreational and leisure" and "Manufacturing", attributable to inbound tourism.

**(xxii) ICT**

The ICT sector covers components of "Manufacturing", "Wholesale and retail trade", "Information & communication" and "Call centres", related to ICT.

**(xxiii) Global Business**

The global business sector includes activities of GBCs and services purchased by GBCs from local enterprises (e.g. management, accounting, auditing, legal, advertising, real estate, banking, etc.).
