Note: Readers are invited to make the distinction between official data which are published in the Economic and Social indicators and the analysis presented for the benefit of general readers. Differences of opinion may arise regarding the analytical part but these do not in any way, undermine the quality of the data. The Editors welcome constructive critical comments.

Labour force, Employment and Unemployment – Third quarter 2022

Introduction

1. This issue of Economic and Social Indicators (ESI) presents a set of estimates of labour force, employment and unemployment for the third quarter of 2022, based on the results of the Continuous Multi-Purpose Household Survey (CMPHS) from July to September 2022. The estimates refer to the **Mauritian population aged 16 years and above**.
2. Annual estimates of labour force including foreign workers, derived after integrating data from the CMPHS with other data sources, are given at Annex 3.

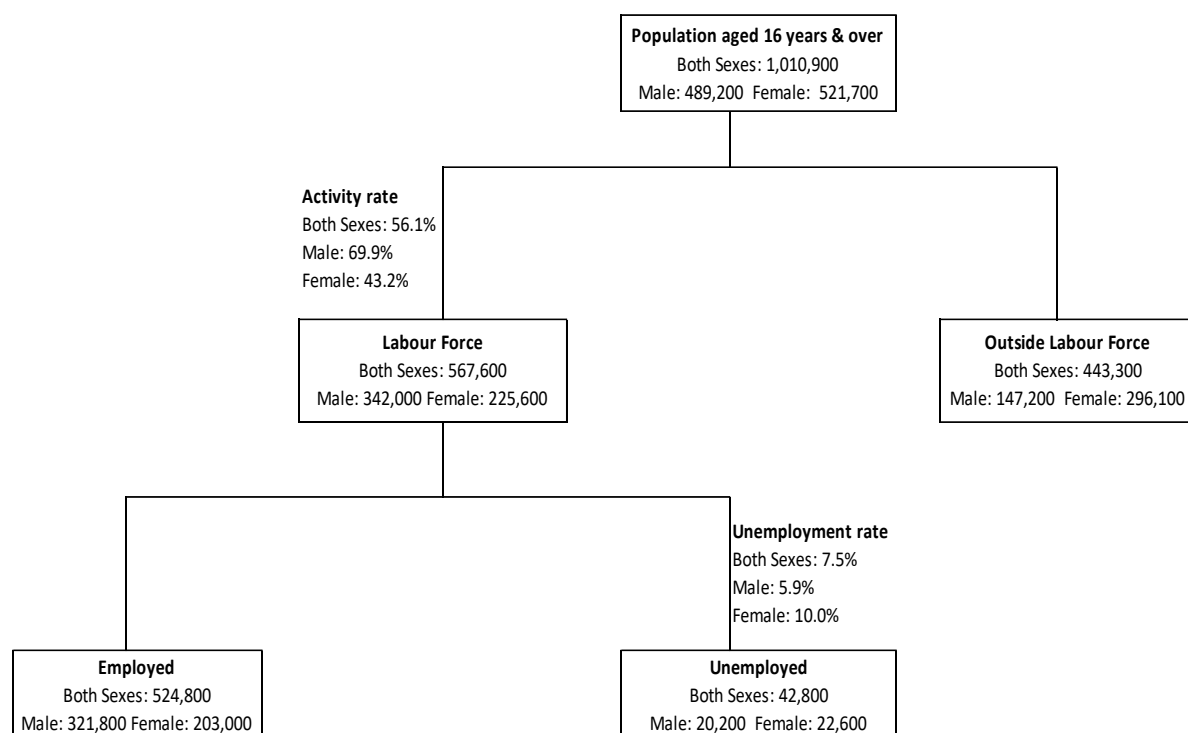

Key figures

	Q3 2021	Q2 2022	Q3 2022	Change	
				Q3 2021 to Q3 2022	Q2 2022 to Q3 2022
Population (aged 16+)	1,010,100	1,012,300	1,010,900	+800	-1,400
Labour Force (Economically active)	525,900	560,800	567,600	+41,700	+6,800
<i>Of which Employment</i>	<i>476,100</i>	<i>515,500</i>	<i>524,800</i>	<i>+48,700</i>	<i>+9,300</i>
<i>Unemployment</i>	<i>49,800</i>	<i>45,300</i>	<i>42,800</i>	<i>-7,000</i>	<i>-2,500</i>
Outside Labour Force (Economically inactive)	484,200	451,500	443,300	-40,900	-8,200
Activity rate (%)	52.1	55.4	56.1	+4.0	+0.7
Unemployment rate (%)	9.5	8.1	7.5	-2.0	-0.6
Youth unemployment	14,600	15,500	15,400	+800	-100
Youth unemployment rate (%)	26.4	26.1	24.8	-1.6	-1.3

Labour market overview, third quarter 2022

3. Compared to the corresponding quarter of 2021, the labour force has increased by 41,700. Employment increased by 48,700 while unemployment decreased by 7,000. The number of persons outside labour force declined by 40,900 during the same period.
4. Compared to second quarter of 2022, labour force increased by 6,800 with a rise in employment (+9,300) and a fall in unemployment (-2,500). The number of persons outside labour force decreased by 8,200 during the same period.

Chart 1: The Labour Market, 3rd Quarter 2022

Labour force participation

	Q3 2021	Q2 2022	Q3 2022	Change	
				Q3 2021 to Q3 2022	Q2 2022 to Q3 2022
Both sexes	52.1	55.4	56.1	+4.0	+0.7
Male	65.1	68.4	69.9	+4.8	+1.5
Female	39.8	43.2	43.2	+3.4	-

- The activity rate for third quarter 2022 increased by 4.0 percentage points to 56.1% compared to the corresponding quarter of 2021. The male activity rate increased by 4.8 percentage points to 69.9% and the female activity rate increased by 3.4 percentage points to 43.2%.
- Compared to second quarter 2022, the activity rate increased by 0.7 percentage point. The male activity rate increased by 1.5 percentage points and the female activity rate remained unchanged.

Employment

	Q3 2021	Q2 2022	Q3 2022	Change Q3 2021 to Q3 2022	Q2 2022 to Q3 2022
Both sexes	476,100	515,500	524,800	+48,700	+9,300
Male	289,100	312,600	321,800	+32,700	+9,200
Female	187,000	202,900	203,000	+16,000	+100

7. From third quarter 2021 to third quarter 2022, employment increased by 48,700 to 524,800; male employment increased by 32,700 and female employment by 16,000.
8. Compared to second quarter 2022, employment increased by 9,300; both male and female employment increased by 9,200 and 100 respectively.

Unemployment

	Q3 2021	Q2 2022	Q3 2022	Change Q3 2021 to Q3 2022	Q2 2022 to Q3 2022
Both sexes	49,800	45,300	42,800	-7,000	-2,500
Male	29,300	22,200	20,200	-9,100	-2,000
Female	20,500	23,100	22,600	+2,100	-500
Unemployment rate (%)					
Both sexes	9.5	8.1	7.5	-2.0	-0.6
Male	9.2	6.6	5.9	-3.3	-0.7
Female	9.9	10.2	10.0	+0.1	-0.2

3rd Quarter 2021 to 3rd Quarter 2022

9. From third quarter 2021 to third quarter 2022, the number of unemployed persons decreased by 7,000. Male unemployment decreased by 9,100 while female unemployment increased by 2,100.
10. The unemployment rate decreased by 2.0 percentage points from 9.5% in third quarter 2021 to 7.5% in third quarter 2022. Male unemployment rate decreased by 3.3 percentage points to reach 5.9% and female unemployment went up by 0.1 percentage point to 10.0%.

2nd Quarter 2022 to 3rd Quarter 2022

11. When compared to second quarter 2022, the total number of unemployed persons decreased by 2,500, with decreases of 2,000 among males and 500 among females.
12. Total unemployment rate decreased by 0.6 percentage point from 8.1% in the second quarter of 2022 to 7.5% in the third quarter of 2022. Male unemployment rate decreased by 0.7 percentage point from 6.6% to 5.9% and female unemployment rate decreased by 0.2 percentage point from 10.2% to 10.0%.

Unemployment of the youth aged 16-24 years

	Q3 2021	Q2 2022	Q3 2022	Change	
				Q3 2021 to Q3 2022	Q2 2022 to Q3 2022
Both sexes	14,600	15,500	15,400	+800	-100
Male	7,600	8,300	8,000	+400	-300
Female	7,000	7,200	7,400	+400	+200
Youth unemployment rate (%)					
Both sexes	26.4	26.1	24.8	-1.6	-1.3
Male	25.9	25.4	23.1	-2.8	-2.3
Female	27.0	27.0	26.9	-0.1	-0.1

13. At the third quarter of 2022, unemployed youth aged 16 to 24 years was estimated at 15,400 (8,000 males and 7,400 females) compared to 15,500 (8,300 males and 7,200 females) at the previous quarter and 14,600 (7,600 males and 7,000 females) at the third quarter of 2021.
14. The youth unemployment rate decreased in the third quarter of 2022 to 24.8% from 26.4% in the corresponding quarter of 2021. During the same period, the rate for young men decreased by 2.8 percentage points to 23.1%, and that for young women decreased by 0.1 percentage point to 26.9%.
15. Compared to second quarter 2022, the youth unemployment rate decreased from 26.1% to 24.8%, with decreases of 2.3 percentage points for young men and 0.1 percentage point for young women.

Characteristics of the unemployed as at third quarter 2022

16. The main characteristics of the unemployed as at third quarter 2022 were as follows:

- (i) The 42,800 unemployed comprised 20,200 males (47%) and 22,600 females (53%).
- (ii) Around 26,600 (62%) of the unemployed were single; males (83%) and females (44%).
- (iii) Some 24,300 (57%) of the unemployed did not have the Cambridge School Certificate (SC) or equivalent and among them 2,500 had not even passed the Primary School Achievement Certificate (PSAC)/Certificate of Primary Education (CPE) or equivalent.
- (iv) Around 30,700 (72%) had been looking for work for up to one year and the remaining 12,100 (28%) for more than one year.
- (v) About 25,500 (60%) had working experience and 17,300 (40%) were looking for a first job.
- (vi) Around 12,900 (30%) were registered at the Employment Service Information Centre.
- (vii) There were 9,800 (23%) young persons aged 16 to 24 years, not yet married and looking for a first job. Some 5,400 possessed a qualification below SC.
- (viii) Some 5,900 or 14% of the unemployed were heads of households.
- (ix) Around 10,900 (25%) lived in households with no employed persons.

Seasonally adjusted unemployment rate

17. Seasonally adjusted unemployment rate for the third quarter of 2022 was 7.6%, lower than the rates of 9.6% and 7.7% at the corresponding quarter of 2021 and at the previous quarter respectively.

Population outside Labour Force

18. The number of persons aged 16 years and over, not forming part of the labour force (inactive population) was estimated at 443,300 at the third quarter of 2022 compared to 451,500 in the second quarter of 2022 and 484,200 in the third quarter of 2021.

19. The population outside labour force comprised 147,200 males and 296,100 females. Among males, around 56% were retired/old persons and 31% were students. Among females, 60% were homemakers and 17% were retired/old persons.

Reliability of the Labour Force estimates

20. The estimates in this publication are based on the results of a sample survey and are thus subject to sample variability. Standard errors (SE) and coefficient of variation (CV) give an indication of this variability. The standard error of the estimates and the coefficient of variation (SE/estimate) are given in the table that follows.

Estimated labour force, employment and unemployment by sex, 3rd Quarter 2021 to 3rd Quarter 2022

Both Sexes

		Estimates	Standard Error	Coefficient of Variation (%)

NOTES

Release of Labour Force data

Labour Force statistics are compiled and published in the “Economic and Social Indicators” in March, June, September and December according to an advance calendar posted on the website of Statistics Mauritius (<https://statsmauritius.govmu.org>). This issue provides data for the third quarter 2022 compared to the previous quarter and to the same quarter a year ago.

The CMPHS methodology

Data collection

Following the COVID-19 outbreak in March 2020, the face-to-face interviews of household members have been replaced by telephone interviews until further notice.

Frequency of data collection

As from 2005, data collection is carried out monthly except in 2020 after the COVID-19 outbreak of in March 2020, it was carried out only in May, June, July, September, October and December 2020.

The reference week is the second week of the survey month so that quarterly estimates can be published within the quarter following the reference quarter, as required by the IMF Special Data Dissemination System (SDDS) to which the country has graduated on 28 February 2012.

Scope and coverage of collection

All private Mauritian households in the islands of Mauritius and Rodrigues are covered.

Sampling method

A stratified two-stage sampling design is used. At the first stage, Primary Sampling Units (PSUs) are selected in proportion to square root of the total number of households in the geographical district and at the second stage, a fixed number of households is selected from each selected PSU.

Prior to 2005, the first stage stratification factors were urban, semi urban and rural geographical locations. As from 2005, the Relative Development Index (RDI) is used as the spatial stratification factor. This index is based on 12 variables encompassing housing and living conditions, literacy and education, and employment derived from the 2011 Housing and Population Census to rank PSUs. A set of RDIs for administrative regions has been published in the series "Economic and Social Indicators" - Issue No. 977.

The second stage stratification criteria are community, household size and average monthly expenditure of the household.

Sample size

From 1999 to 2003, around 6,500 households were covered each year. In 2004, the sample was increased to 8,640 so that reliable quarterly estimates of labour force, employment and unemployment could be worked out. As from 2005, the sample for the year has been further increased to 11,280. Furthermore, in order to measure quarterly changes, 50% of the households sampled in a quarter are re-interviewed in the following quarter; for example, 50% of the households sampled in the first quarter of 2005 have been re-interviewed in the second quarter of 2005.

Questionnaire

The CMPHS questionnaire comprises three modules: (a) a basic module common to all rounds of the survey covering the general characteristics of the population (b) a second module covering labour force with in-depth investigation and a core set of questions which are kept constant at all rounds of the survey and (c) a third module grouping other topics of interest but investigated in less details.

Estimation and reliability of results

Estimates worked out from a household survey data are inevitably subject to sampling variability since they are based on information collected from only a sample of households rather than from all households. Standard errors and coefficient of variation for the main labour force estimates are given in this report.

Definitions

Household

A household is defined as either a person living on his/her own or a group of two or more persons, who may or may not be related, but who live together and make common provision for food and other essentials for living.

Employment

Employed population consists of Mauritians aged 16 years and above who have worked for pay, profit or family gain for at least one hour during the reference week of a month. It includes those who are temporarily absent from work for reasons such as leave with pay, leave without pay and temporary disorganisation of work (bad weather, break down of equipment, lack of order, etc.).

It is to be noted that as from year 2007, labour force estimates are based on population aged 16 years and above, following the amendment to the Labour Act in December 2006 whereby the minimum legal working age is 16 years, and the subsequent recommendation by the ILO to be in line with the amended Labour Act.

Unemployment

Unemployed population comprises all Mauritians aged 16 years and above who are not working but who are looking for work and are available for work during the reference period.

Labour force

Labour force or active population is made up of employed and unemployed population.

Unemployment rate

Unemployment rate is the ratio (%) of unemployment to labour force.

Outside the Labour Force (previously known as inactive population)

Outside the labour force includes all Mauritians aged 16 years and above, not forming part of the labour force for reasons such as attendance at educational institutions, engagement in household duties, retirement, old age and infirmity/disablement.

Activity rate

Activity rate is the ratio (%) of labour force to population aged 16 years and above.

Employer

An employer is a person who operates his/her own business or trade and hires one or more employees

Own account worker

An Own account worker is a person who operates his/her own business or trade but does not hire employees. He/She may be working alone or with the help of contributing family workers.

Employee

An Employee is a person who works for pay for someone else, even in a temporary capacity.

Apprentice

An Apprentice is a person being trained for a job or trade and is paid.

Contributing family worker

A Contributing family worker is a person who works without pay in an enterprise operated by a family member.

Educational attainment

Primary: comprises persons who have studied from Grade 1 (Standard 1) to Grade 6 (Standard 6) or to Primary School Achievement Certificate (PSAC)/Certificate of Primary Education (CPE) or equivalent.

Secondary: comprises persons who have studied from Grade 7 (Form 1) to Grade 13 (Form 6) or to Higher School Certificate (HSC) or equivalent.

Tertiary: comprises persons who in addition to their secondary educational certificates (SC and HSC or equivalent) also possess either a certificate/diploma (which is above the HSC but below a first degree) or a degree.

Annual labour force estimates based on data from different data sources, 2014 - 2021

	Labour force			Employment				Unemployment ¹

¹ Unemployment figures and rate refer to Mauritians

Note:

1. The above figures have been worked out in order to give a set of comparable labour force estimates obtained from different sources. Users are cautioned in the use of these figures given that there are differences related to the reference period, coverage and methodology. The different sources from which these estimates have been obtained are as follows:

- i CMPHS for Mauritian labour force estimates which are subject to sampling variability as mentioned at Annex 1.
- ii The Annual Survey of Employment and Earnings (SEE) in large establishments carried out in March of each year. Employment figures refer to jobs in large establishments employing 10 or more persons and include both Mauritians and foreign workers.
- iii Employment in 'other than large' establishments has been estimated after reconciling data from CMPHS, SEE and administrative sources.
