External Merchandise Trade Statistics

3rd Quarter 2024

1. Introduction

This issue of Economic and Social Indicators presents external merchandise trade statistics from the first to third quarter of 2024 and the years 2023 and 2022. These statistics are compiled from declarations lodged at the Customs Department of the Mauritius Revenue Authority (MRA), by importers and exporters. Some of these declarations are usually revised at a later period and corrections are made accordingly on the computerised database of the Mauritius Revenue Authority (MRA).

Figures for 2024 are still provisional and subject to revision as and when the Customs Department of the MRA submits latest amendments to Statistics Mauritius.

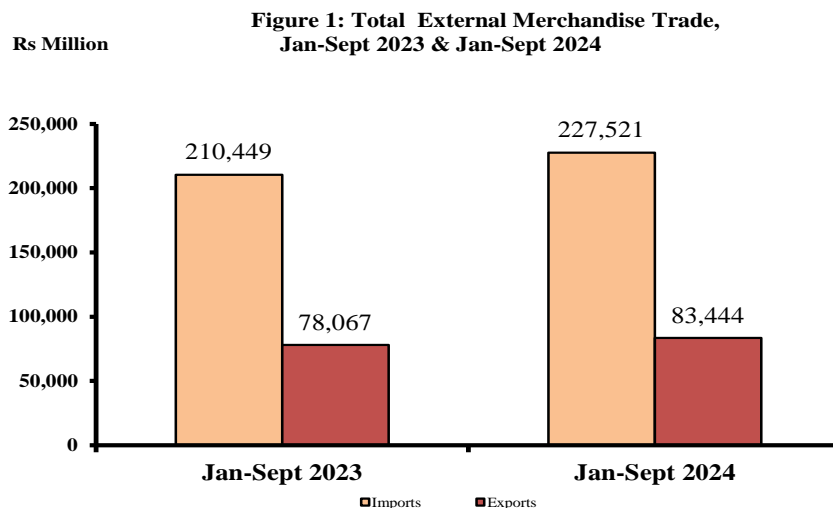

Data on external merchandise trade are compiled as per the recommendations of the United Nations General Trade System. According to this system, all goods entering and leaving the national frontier, including trading activities of the Freeport zone should be accounted for.

2. Total value of trade and trade balance

Total external merchandise trade for the third quarter of 2024 was valued at Rs 111,362 million, i.e. 4.8% higher than the value of Rs 106,291 million of the previous quarter and 11.8% higher than the value of Rs 99,604 million of the corresponding quarter of 2023.

For the third quarter of 2024, total exports (inclusive of ship's stores & bunkers¹) were valued at Rs 29,960 million against total imports of Rs 81,402 million. In the second quarter of 2024, total exports (inclusive of ship's stores and bunkers) amounted to Rs 29,579 million against total imports of Rs 76,712 million. Compared to the previous quarter, total exports were higher by 1.3% and total imports were higher by 6.1%. While compared to the corresponding quarter of 2023, total exports and total imports were higher by 9.3% and 12.7% respectively.

The resulting trade deficit for the third quarter of 2024 worked out to Rs 51,442 million, 9.1% higher than the deficit of Rs 47,133 million of the previous quarter and 14.9% higher than the deficit of Rs 44,790 million of the corresponding quarter of 2023.

¹ Ships stores and bunkers, which consist of jet fuel and victuals supplied to foreign vessels and aircraft, are included in total exports and are shown separately

Compared to the period Jan-Sep of 2023, total exports (inclusive of ship's stores & bunkers) rose from Rs 78,067 million to Rs 83,444 million in same period of 2024, showing an increase of around 6.9% (Figure 1). Total imports increased by 8.1% for period Jan-Sep of 2024, compared to the corresponding period of 2023. Consequently, the trade deficit for the first nine months of 2024 rose by 8.8% and worked out to around Rs 144,077 million, compared to Rs 132,382 million in the corresponding period of 2023.

Notes

(1) Scope and coverage

External merchandise trade statistics are compiled according to the General Trade System as recommended by the United Nations. Using the national boundary as the statistical frontier, the General Trade System is a record of all goods entering (imports) and leaving the country (exports).

Imports include goods brought in directly for domestic consumption plus goods imported into customs bonded warehouses.

Exports cover:

- Domestic exports defined as goods of national origin, that is goods produced in the exporting country.
- Re-exports which are exported in the same condition as imported or after undergoing minor operations which leave them essentially unchanged and include re-exports from customs bonded warehouses.
- Ship's Stores and Bunkers (SSB) are included in total exports and are shown separately.

Trade by parcel post is also included in imports and exports.

(2) Valuation

Imports are valued on a C.I.F. (Cost, Insurance and Freight) basis, whilst exports on a F.O.B. (Free on Board) basis.

Cost, Insurance and Freight (C.I.F) value is the value of a country's imports of goods, including all charges for transporting and insuring the goods from the country of exports to the given country but excluding the cost of unloading from the ship, aircraft unless it is borne by the carrier.

Free on Board (F.O.B) value is the value of a country's exports of goods, including all costs of transporting the goods to the customs frontier, export duties.

(3) Classification of commodities

Commodities are coded according to the **Harmonised Commodity Description and Coding System Nomenclature (HS 2022)**. However, for the purposes of economic analysis and to facilitate international comparison of trade by commodity data, the commodities are also classified according to **the Standard International Trade Classification (Revision 4) (SITC Rev. 4)**. The HS and the SITC Rev. 4 are six- and five-digit codes respectively but have been extended to eight and seven digits to accommodate national requirements.
