External Merchandise Trade Statistics

4th Quarter and Year 2024

1. Introduction

This issue of Economic and Social Indicators presents external merchandise trade statistics for the years 2023 and 2024. These statistics are compiled from declarations lodged at the Customs Department of the Mauritius Revenue Authority (MRA), by importers and exporters. Some of these declarations are usually revised at a later period and corrections are made accordingly on the computerised database at the Customs Department.

Thus, while figures for 2023 are published in this indicator, those for 2024 are still provisional and subject to revision as and when the Customs Department of the MRA submits latest amendments to Statistics Mauritius.

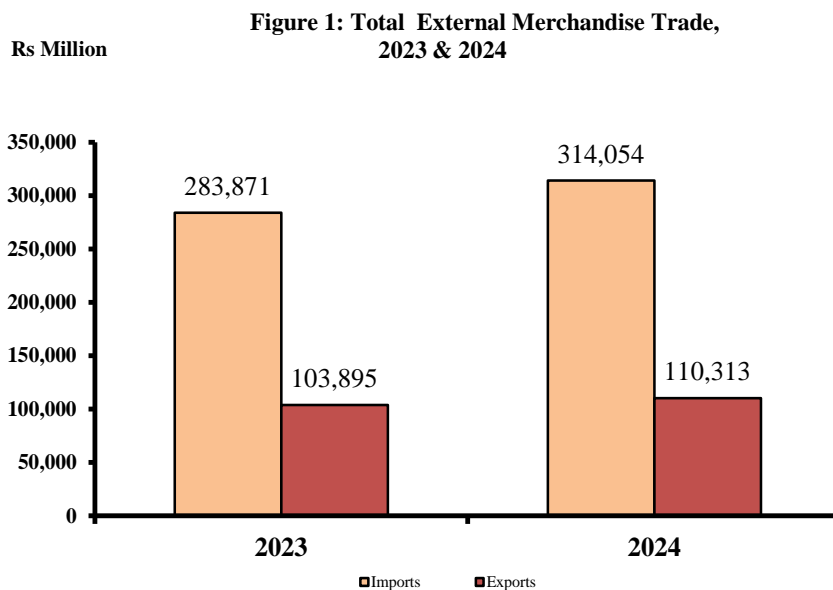

Data on external merchandise trade are compiled as per the recommendations of the United Nations General Trade System. According to this system, all goods entering and leaving the national frontier, including trading activities of the Freeport zone should be accounted for.

2. Total value of trade and trade balance

Total external merchandise trade for the fourth quarter of 2024 was valued at Rs 113,402 million, i.e. 1.8% higher than the value of Rs 111,362 million of the previous quarter and 14.3% higher than the value of Rs 99,250 million of the corresponding quarter of 2023.

For the fourth quarter of 2024, total exports (including ship's stores & bunkers) were valued at Rs 26,869 million against imports of Rs 86,533 million. This resulted in a trade deficit of Rs 59,664 million, 16.0% higher than the deficit of Rs 51,442 million of the previous quarter and 25.4% higher than the deficit of Rs 47,594 million of the corresponding quarter of 2023.

Total export proceeds for the year 2024 stood at Rs 110,313 million, representing an increase of 6.2% over the 2023 figure of Rs 103,895 million. Total imports for the year 2024 amounted to Rs 314,054 million, representing an increase of 10.6%, compared to Rs 283,871 million in 2023. The trade deficit for year 2024 worked out to Rs 203,741 million, around 13.2% higher than the deficit of Rs 179,976 million for the year 2023.

Notes

(1) Scope and coverage

External merchandise trade statistics are compiled according to the General Trade System as recommended by the United Nations. Using the national boundary as the statistical frontier, the General Trade System is a record of all goods entering (imports) and leaving the country (exports).

Imports include goods brought in directly for domestic consumption plus goods imported into customs bonded warehouses.

Exports cover:

- Domestic exports defined as goods of national origin, that is goods produced in the exporting country.
- Re-exports which are exported in the same condition as imported or after undergoing minor operations which leave them essentially unchanged and include re-exports from customs bonded warehouses.
- Ship's Stores and Bunkers (SSB) are included in total exports and are shown separately.

Trade by parcel post is also included in imports and exports.

(2) Valuation

Imports are valued on a C.I.F. (Cost, Insurance and Freight) basis, whilst exports on a F.O.B. (Free on Board) basis.

Cost, Insurance and Freight (C.I.F) value is the value of a country's imports of goods, including all charges for transporting and insuring the goods from the country of exports to the given country but excluding the cost of unloading from the ship, aircraft unless it is borne by the carrier.

Free on Board (F.O.B) value is the value of a country's exports of goods, including all costs of transporting the goods to the customs frontier, export duties.

(3) Classification of commodities

Commodities are coded according to the **Harmonised Commodity Description and Coding System Nomenclature (HS 2022)**. However, for the purposes of economic analysis and to facilitate international comparison of trade by commodity data, the commodities are also classified according to **the Standard International Trade Classification (Revision 4) (SITC Rev. 4)**. The HS and the SITC Rev. 4 are six- and five-digit codes respectively but have been extended to eight and seven digits to accommodate national requirements.
