External Merchandise Trade Statistics

3rd Quarter 2025

1. Introduction

This issue of Economic and Social Indicators presents external merchandise trade statistics from the first to third quarter of 2025 and the years 2024 and 2023. These statistics are compiled from declarations lodged at the Customs Department of the Mauritius Revenue Authority (MRA), by importers and exporters. Some of these declarations are usually revised at a later period and corrections are made accordingly on the computerised database of the Mauritius Revenue Authority (MRA).

Figures for 2025 are still provisional and subject to revision as and when the Customs Department of the MRA submits latest amendments to Statistics Mauritius.

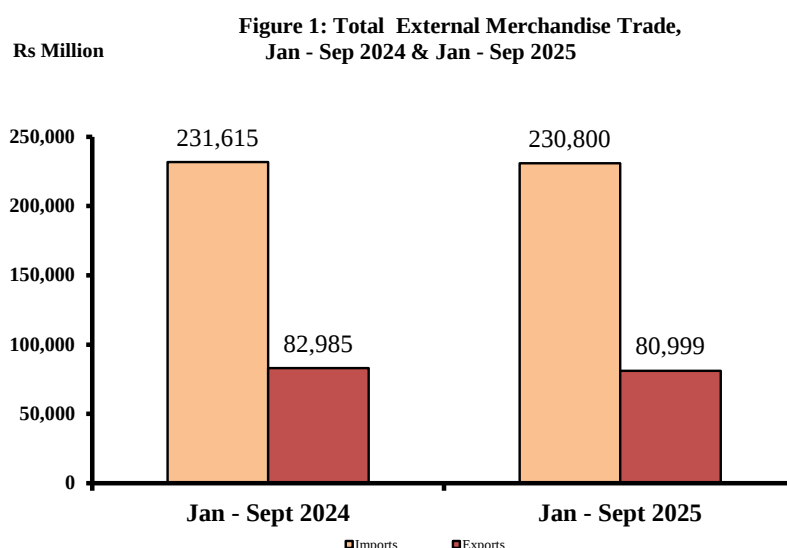

Data on external merchandise trade are compiled as per the recommendations of the United Nations General Trade System. According to this system, all goods entering and leaving the national frontier, including trading activities of the Freeport zone should be accounted for.

2. Total value of trade and trade balance

Total external merchandise trade for the third quarter of 2025 was valued at Rs 101,890 million, i.e. 7.0% lower than the value of Rs 109,595 million of the previous quarter and 11.5% lower than the value of Rs 115,134 million of the corresponding quarter of 2024.

For the third quarter of 2025, total exports (inclusive of ship's stores & bunkers¹) were valued at Rs 26,937 million against total imports of Rs 74,953 million. In the second quarter of 2025, total exports (inclusive of ship's stores and bunkers) amounted to Rs 27,718 million against total imports of Rs 81,877 million. Compared to the previous quarter, total exports and total imports were lower by 2.8% and 8.5% respectively. While compared to the corresponding quarter of 2024, total exports and total imports were lower by 9.0% and 12.4% respectively.

The resulting trade deficit for the third quarter of 2025 worked out to Rs 48,016 million, 11.3% lower than the deficit of Rs 54,159 million of the previous quarter and 14.2% lower than the deficit of Rs 55,956 million of the corresponding quarter of 2024.

¹ Ships stores and bunkers, which consist of jet fuel and victuals supplied to foreign vessels and aircraft, are included in total exports and are shown separately

Compared to the period Jan-Sep of 2024, total exports (inclusive of ship's stores & bunkers) decreased from Rs 82,985 million to Rs 80,999 million in same period of 2025, showing a decrease of around 2.4% (Figure 1). Total imports decreased by 0.4% for period Jan-Sep of 2025, compared to the corresponding period of 2024. Consequently, the trade deficit for the first nine months of 2025 rose by 0.8% and worked out to around Rs 149,801 million, compared to Rs 148,630 million in the corresponding period of 2024.

Notes

(1) Scope and coverage

External merchandise trade statistics are compiled according to the General Trade System as recommended by the United Nations. Using the national boundary as the statistical frontier, the General Trade System is a record of all goods entering (imports) and leaving the country (exports).

Imports include goods brought in directly for domestic consumption plus goods imported into customs bonded warehouses.

Exports cover:

- Domestic exports defined as goods of national origin, that is goods produced in the exporting country.
- Re-exports which are exported in the same condition as imported or after undergoing minor operations which leave them essentially unchanged and include re-exports from customs bonded warehouses.
- Ship's Stores and Bunkers (SSB) are included in total exports and are shown separately.

Trade by parcel post is also included in imports and exports.

(2) Valuation

Imports are valued on a C.I.F. (Cost, Insurance and Freight) basis, whilst exports on a F.O.B. (Free on Board) basis.

Cost, Insurance and Freight (C.I.F) value is the value of a country's imports of goods, including all charges for transporting and insuring the goods from the country of exports to the given country but excluding the cost of unloading from the ship, aircraft unless it is borne by the carrier.

Free on Board (F.O.B) value is the value of a country's exports of goods, including all costs of transporting the goods to the customs frontier, export duties.

(3) Classification of commodities

Commodities are coded according to the **Harmonised Commodity Description and Coding System Nomenclature (HS 2022)**. However, for the purposes of economic analysis and to facilitate international comparison of trade by commodity data, the commodities are also classified according to **the Standard International Trade Classification (Revision 4) (SITC Rev. 4)**. The HS and the SITC Rev. 4 are six- and five-digit codes respectively but have been extended to eight and seven digits to accommodate national requirements.
