External Merchandise Trade Statistics

4th Quarter and Year 2025

1. Introduction

This issue of Economic and Social Indicators presents external merchandise trade statistics for the years 2024 and 2025. These statistics are compiled from declarations lodged at the Customs Department of the Mauritius Revenue Authority (MRA), by importers and exporters. Some of these declarations are usually revised at a later period and corrections are made accordingly on the computerised database at the Customs Department.

Thus, while figures for 2024 are published in this indicator, those for 2025 are still provisional and subject to revision as and when the Customs Department of the MRA submits latest amendments to Statistics Mauritius.

Data on external merchandise trade are compiled as per the recommendations of the United Nations General Trade System. According to this system, all goods entering and leaving the national frontier, including trading activities of the Freeport zone should be accounted for.

2. Total value of trade and trade balance

Total external merchandise trade for the fourth quarter of 2025 was valued at Rs 114,866 million, i.e. 12.7% higher than the value of Rs 101,890 million of the previous quarter and 1.5% higher than the value of Rs 113,167 million of the corresponding quarter of 2024.

For the fourth quarter of 2025, total exports (including ship's stores & bunkers) were valued at Rs 26,704 million against imports of Rs 88,162 million. This resulted in a trade deficit of Rs 61,458 million, 28.0% higher than the deficit of Rs 48,016 million of the previous quarter and 3.8% higher than the deficit of Rs 59,207 million of the corresponding quarter of 2024.

Total export proceeds for the year 2025 stood at Rs 107,703 million, representing a decrease of 2.1% over the 2024 figure of Rs 109,965 million. Total imports for the year 2025 amounted to Rs 318,962 million, representing an increase of 0.4%, compared to Rs 317,802 million in 2024. The trade deficit for year 2025 worked out to Rs 211,259 million, around 1.6% higher than the deficit of Rs 207,837 million for the year 2024.

Notes

(1) Scope and coverage

External merchandise trade statistics are compiled according to the General Trade System as recommended by the United Nations. Using the national boundary as the statistical frontier, the General Trade System is a record of all goods entering (imports) and leaving the country (exports).

Imports include goods brought in directly for domestic consumption plus goods imported into customs bonded warehouses.

Exports cover:

- Domestic exports defined as goods of national origin, that is goods produced in the exporting country.
- Re-exports which are exported in the same condition as imported or after undergoing minor operations which leave them essentially unchanged and include re-exports from customs bonded warehouses.
- Ship's Stores and Bunkers (SSB) are included in total exports and are shown separately.

Trade by parcel post is also included in imports and exports.

(2) Valuation

Imports are valued on a C.I.F. (Cost, Insurance and Freight) basis, whilst exports on a F.O.B. (Free on Board) basis.

Cost, Insurance and Freight (C.I.F) value is the value of a country's imports of goods, including all charges for transporting and insuring the goods from the country of exports to the given country but excluding the cost of unloading from the ship, aircraft unless it is borne by the carrier.

Free on Board (F.O.B) value is the value of a country's exports of goods, including all costs of transporting the goods to the customs frontier, export duties.

(3) Classification of commodities

Commodities are coded according to the **Harmonised Commodity Description and Coding System Nomenclature (HS 2022)**. However, for the purposes of economic analysis and to facilitate international comparison of trade by commodity data, the commodities are also classified according to **the Standard International Trade Classification (Revision 4) (SITC Rev. 4)**. The HS and the SITC Rev. 4 are six- and five-digit codes respectively but have been extended to eight and seven digits to accommodate national requirements.
