

PRODUCER PRICE INDEX – MANUFACTURING (PPI-M)
(Base year 2013 = 100)

| July 2019 | June 2020 | July 2020 |
|------------------|------------------|------------------|
| 110.1 | 113.4 | 114.3 |

The Producer Price Index for the manufacturing sector (PPI-M) registered an increase of 0.9 point or 0.8 % from June 2020 to July 2020. This increase was mainly due to higher prices in “Food products and beverages” and “Fabricated metal products”, partly offset by decreases in the prices of “Motor vehicles, trailers and semi-trailers” and “Printing and reproduction of recorded media”.

Compared to July 2019, the PPI-M for July 2020 was higher by 4.2 points or 3.8%.

It is to be noted that the above figures are provisional.

Revised figures are usually published on a quarterly basis at
