

PRODUCER PRICE INDEX – MANUFACTURING (PPI-M)
(Base year 2018 = 100)

November 2022	October 2023	November 2023
147.7	149.9	149.5

The Producer Price Index for the manufacturing sector (PPI-M) registered a decrease of 0.4 point or 0.3% from October 2023 to November 2023. This is mainly explained by lower prices of “Food products and beverages” and “Chemicals and chemical products”, partly mitigated by higher prices of “Other non-metallic mineral products” and “Other transport equipment”.

Compared to November 2022, PPI-M for November 2023 was higher by 1.8 points or 1.2%.

It is to be noted that the above figures are provisional.

Revised figures are usually published on a quarterly basis at:
