

PRODUCER PRICE INDEX – MANUFACTURING (PPI-M)
(Base year 2018 = 100)

September 2022	August 2023	September 2023
148.1	151.1	151.0

The Producer Price Index for the manufacturing sector (PPI-M) registered a decrease of 0.1 point or 0.1% from August 2023 to September 2023. This is mainly explained by lower prices of “Food products and beverages”, “Printing and reproduction of recorded media” and “Other transport equipment”, partly mitigated by higher prices of “Fabricated metal products” and “Furniture”.

Compared to September 2022, the PPI-M for September 2023 was higher by 2.9 points or 2.0%.

It is to be noted that the above figures are provisional.

Revised figures are usually published on a quarterly basis at:
