

PRODUCER PRICE INDEX – MANUFACTURING (PPI-M)
(Base year 2018 = 100)

December 2024	November 2025	December 2025
159.5	169.0	169.6

The Producer Price Index for the manufacturing sector (PPI-M) registered an increase of 0.6 point or 0.4% from November 2025 to December 2025. This is mainly explained by higher prices of “Wearing apparel” and “Other manufacturing products” such as gold jewellery, partly offset by lower prices of “Printing and reproduction of recorded media”.

Compared to December 2024, PPI-M for December 2025 was higher by 10.1 points or 6.3%.

It is to be noted that the above figures are provisional.

Revised figures are usually published on a quarterly basis at:
