

PRODUCER PRICE INDEX – MANUFACTURING (PPI-M)
(Base year 2018 = 100)

February 2025	January 2026	February 2026
160.5	170.8	172.8

The Producer Price Index for the manufacturing sector (PPI-M) registered an increase of 2.0 points or 1.2% from January 2026 to February 2026. This is mainly explained by higher prices of “Food products and beverages”, “Fabricated metal products”, “Other non-metallic mineral products”, “Other transport equipment” and, “Other manufacturing products” such as gold jewellery, partly offset by lower prices of “Machinery and equipment”.

Compared to February 2025, PPI-M for February 2026 was higher by 12.3 points or 7.7%.

It is to be noted that the above figures are provisional.

Revised figures are usually published on a quarterly basis at:
