

PRODUCER PRICE INDEX – MANUFACTURING (PPI-M)
(Base year 2018 = 100)

June 2025	May 2026	June 2026
166.0	176.6	177.1

The Producer Price Index for the manufacturing sector (PPI-M) registered an increase of 0.5 point or 0.3% from May 2026 to June 2026. This is mainly explained by higher prices of “Food products and beverages”, “Fabricated metal products”, “Chemicals and chemical products” and, “Other non-metallic mineral products”, partly offset by lower prices of “Other transport equipment” and “Other manufacturing products”.

Compared to June 2025, PPI-M for June 2026 was higher by 11.1 points or 6.7%.

It is to be noted that the above figures are provisional.

Revised figures are usually published on a quarterly basis at:
