The present "Tableau de Bord" or Dashboard offers snapshots of key performance indicators compiled by the Statistics Mauritius and other organizations whether local or foreign. Our objective in producing the Dashboard is to put useful information in the hands of policymakers, researchers, students and the general public.

The indicators that have been selected are those considered to be the most closely watched performance indicators available on trends in development and are grouped into tables according to main themes. They are meant to provide a comprehensive, up-to-date picture of the social and economic situation of the country. The Statistics Mauritius expects the coverage to evolve and grow in future, reflecting emerging issues in the economy and greater availability of data.

The tables show indicators in the form of time series and have been u	pdated to reflect the latest figures available.	Most indicators are given on a vearly basis.

Other Themes	
<u>Historical Series</u>	

^a Provisional

^b Revised

¹ Mid-year population excluding Agalega & St. Brandon

 2 Ratio of Mauritian Labour Force to that of Mauritian population aged 16 and above

³ Ratio of unemployed to that of Mauritian Labour Force

⁴ Definition of EOEs: comprise manufacturing enterprises formerly operating with an Export Certificate and those export manufacturing enterprises holding a registration certificate issued by Ex-Board of Investment(BOI).

⁵ There has been an increase in enrolment Grade 1 due to a change in School Calendar from January-December to June-April following COVID-19 induced school closures

⁶ Academic & Prevocational

⁷ Source: Higher Education Commission (Public Funded Institutions)

⁸ Including GBC

⁹ The **SEM-10** replaced the **SEM-7** Index as from 2nd October 2014

... not available

n.ap: not applicable

* Unemployment for persons aged 16-24

** including net primary income of GBC from abroad

*** Number of new entrants in Grade 1 in primary schools as a percentage of the population aged 5 years

**** All Indices are converted to Base January to December 2017 = 100

***** Data prior to 2006 are not strictly comparable due to different accounting systems (SNA 1993 and SNA 2008) and different industrial classifications for national economic activities (NSIC Rev. 1 and NSIC Rev. 2)

******Due to COVID-19 Pandemic, the Annual Survey in Schools was carried out in October 2021. The school calendar 2021 has been extended to year 2022 and data collection has been adapted accordingly. Available indicators are for 2021/2022.

As at end November 2024 Online Tuesday 10 December 2024
