

The present "Tableau de Bord" or Dashboard offers snapshots of key performance indicators compiled by the Statistics Mauritius and other organizations local or foreign. Our objective in producing the Dashboard is to put useful information in the hands of policymakers, researchers, students and the general public.

The indicators that have been selected are those considered to be the most closely watched performance indicators available on trends in development grouped into tables according to main themes. They are meant to provide a comprehensive, up-to-date picture of the social and economic situation of Mauritius. The Statistics Mauritius expects the coverage to evolve and grow in future, reflecting emerging issues in the economy and greater availability of data.

The tables show indicators in the form of time series and have been updated to reflect the latest figures available. Most indicators are given on a yearly basis.

Selected Social and Economic Indicators, Republic of Mauritius, 2019 - 2023								
More	Population and Social Indicators		Period	Unit	2019	2020	2021	2022
