VOLUME VI : Geographical and migration characteristics

November 2001

FOREWORD

This report is the fourth in the series showing the results of the 2000 Housing and Population Census. The first was published in November 2000 and contained the results of the Housing Census which preceded the Population Census by a few months. The previous two reports covered the demographic and fertility characteristics, and the economic characteristics of the population. This present report deals with the educational characteristics.

Data published in this report have been prepared at different geographical area levels. The code in the left-hand margin of the table of contents indicates the geographical level at which the tables are presented, namely, I: island level, D: district level and R: Municipal Council Ward and Village Council Area level.

Like all census data, the figures presented in the tables may still contain slight inaccuracies, which will be too costly to identify and correct. However, these do not in any way detract from the quality of the data and their usefulness. It is hoped that the present report will be particularly useful to administrators, planners and policy makers, and the public in general.

This report is the result of the efforts of many persons and organisations and I am grateful to all of them. In particular, I would like to thank members of the public for their understanding and co-operation, the census fieldstaff, the Mauritius Broadcasting Corporation, the Government Printer, the Central Information Systems Division and my own staff.

Introduction

1. Background

The history of census taking in Mauritius dates back to the eighteenth century. The Population Census conducted in year 2000 was the seventeenth for the Island of Mauritius and the seventh for the Island of Rodrigues.

2. Strategy

The 2000 Housing and Population Census, which cost about 70 million rupees and mobilised some 6,200 field officers, was taken in two distinct rounds: the Housing Census followed by the Population Census. The main reason for adopting this procedure was to obtain at the Housing Census a list of names and addresses of heads of households which served as frame for the Population Census.

The Housing Census was conducted from 7 February to 18 June 2000 and the Population Census from 19 June to 16 July 2000 in respect of all persons alive at midnight on 2 July 2000.

The Housing Census questionnaire was filled in by fieldstaff. The Population Census questionnaire, a copy of which appears at the end of the report, was filled in by heads of households or by persons in charge of communal establishments; however, field enumerators had to provide assistance if needed and to check every questionnaire for completeness and consistency.

The processing of the census data was done on microcomputers using the software Integrated Microcomputer Processing System (IMPS) for Censuses and Surveys, which has been developed by the International Programs Center of the US Bureau of the Census.

3. Coverage

The Housing and Population Census covered the Islands of Mauritius, Rodrigues and Agalega. As regards St Brandon, only a count of persons spending the census night was made; these islands are mainly fishing outposts, with no permanent residents.

4. Population enumerated

The Census counted all persons present on Census night in all private households and communal establishments, including collective quarters, as well as usual residents who were absent on Census night. Combinations of answers to questions asked on whereabouts and usual address enable both the present population (de facto) and the resident population (de jure) counts. At the 2000 Census the "de facto" population was 1,179,146 in the Republic of Mauritius whereas the resident population was 1,179,137. Census tables, unless otherwise stated, show the resident population; the distribution by the different islands was as follows:

	Area (sq.km)	Both Sexes	Male	Female
Island of Mauritius	1,865	1,143,069	566,056	577,013
Island of Rodrigues	104	35,779	17,700	18,079
Agalega	70	289	193	96
St. Brandon	1	-	-	-
Mauritius	2,040	1,179,137	583,949	595,188

None of the published tables include Agalega and St. Brandon. The exclusion of the very small resident population in Agalega does not affect the usefulness of the tables. As for St. Brandon, there were no permanent residents at the time of the census, although 63 men, mostly fishermen, were present on the island on Census night.

5. Area level of tabulation

Different area levels of tabulation are used in this publication. An indication on the area levels at which tables are presented is given in the table of contents.

Several census tables have been prepared down to the level of Municipal Council Wards or Village Council Areas (MCW/VCA).

Maps showing boundaries of the Municipal Council Wards and Village Council Areas are included in the Appendices together with a list of these areas within each district and their codes. All Municipal Ward and Village Council Area boundaries are given as they were on 2 July 2000, and all census data are in relation to these boundaries. Comparison of the 2000 Census data with the 1990 Census data at MCW/VCA level should be made with caution since there have been revisions of boundaries between the two censuses.

As regards Rodrigues, 14 zones grouping adjacent localities were demarcated as at the 1990 Census and some tables are published accordingly. A map showing the boundaries of these 14 zones as well as a list of localities found therein are included in the Appendices.

6. Publication of results

The Housing Census data were published in November 2000 as Volume I of the series of the 2000 Census reports. Volume II dealt with demographic and fertility characteristics while Volume III showed the economic characteristics of the population. This report deals with educational characteristics. In the coming month, additional reports will be published showing information on household, migration and disability characteristics.

7. Concepts, definitions and classifications

(a) Household	A household is either a person living on his own and making his own provision for food and other essentials for living, or a group of two or more persons, whether related or not, who live together and make common provision for food and other essentials for living. Cases of persons having varying degrees of housekeeping have been considered as one household if there is any arrangement to share at least one meal a day.
(b) Household -Single Combined	Households living in housing units are referred to as private households to distinguish them from other households, namely households in communal establishments (hotels, infirmaries, hospitals and other institutions), households in collective quarters and the homeless. A household has been referred to as single when its members occupy a single housing unit; when the members are lodged in rooms located in two or more buildings then household is referred to as combined.
(c) Household type	<p>One person household is defined as a private household with only one usual resident.</p> <p>A nuclear household is defined as a private household consisting entirely of a single family nucleus.</p> <p>An extended household is defined as a private household consisting of any one of the following:</p> <ol style="list-style-type: none"> i. a single family nucleus plus other persons related to the nucleus ii. two or more family nuclei related to each other, without any other persons iii. two or more family nuclei related to each other with other persons related to at least one of the family nuclei iv. two or more persons related to each other, none of whom constitute a family nucleus <p>A composite household is defined as a private household consisting of any one of the following:</p> <ol style="list-style-type: none"> i. a single family nucleus plus other persons, some or none of whom being related to the nucleus ii. two or more family nuclei related to each other plus other persons, some or none of whom being related to any of the nuclei iii. two or more persons related to each other, none of whom constitute a family nucleus plus other unrelated persons iv. two or more family nuclei not related to each other v. non-related persons only
(d) Head of household	The head of household is any adult member, whether male or female, who is acknowledged as such by the other members.
(e) Family nucleus	A family nucleus is either a couple with or without unmarried children, or a lone parent with unmarried children.
(f) Enumerated population	This category includes all persons who spent census night in the household (whether private or communal) as well as persons who usually live in the household but were absent on census night.
(g) Present population	This category includes all persons who spent census night in the household.
(h) Resident population	The resident or usually resident population includes all persons who usually live in the household whether they were present or absent on census night.
(i) Languages read & written (literacy)	<p>Persons were asked to state the language(s) in which they could, with understanding, both read and write a simple statement in their everyday life. The categories tabulated and their meaning are given below. Each person has been counted in one category only.</p> <ol style="list-style-type: none"> i. None - illiterate ii. Creole only - literate in Creole only iii. Bhojpuri only - literate in Bhojpuri only iv. Creole and Bhojpuri only - literate in Creole and Bhojpuri only v. (k) Disability	<p>Persons were asked about any long-term disability, i.e. any limitation to perform a daily life activity in a manner considered normal for persons of their age. A disability was taken to be long-term if it had lasted or was expected to last for six months or more.</p> <p>Persons were asked to list all disabilities that they had. However, each disabled person was counted only once. The classification used for tabulation is as follows:</p>
	<p>MTION - Walking, running and other ambulation disabilities.</p> <p>MANU - Manual activity disability such as fingering, gripping and holding</p> <p>MTION & MANU - Ambulation and manual activity disabilities.</p> <p>EYE - Seeing disabilities even with glasses</p> <p>EAR - Hearing and listening disabilities even with heavy aid.</p> <p>EYE & EAR - Seeing disabilities and hearing and listening disabilities</p> <p>SPEECH - Speaking and talking disabilities</p> <p>EAR & SPEECH - Hearing and listening disabilities and speaking and talking disabilities</p> <p>LEARN - Disturbance of ability to learn and acquire education</p> <p>BEHAVIOUR - Disturbances of behaviour, including anti-social behaviour, maladjustment and liability to self injury.</p> <p>PERSONAL CARE - Inability to look after oneself with regard to personal care and hygiene, feeding, etc.</p>
