DIGEST OF EDUCATION STATISTICS – 2012

FOREWORD

This is the twenty ninth issue of a yearly publication on education statistics prepared by Statistics Mauritius.

Tables presented in this report relate to the Republic of Mauritius and cover latest available information on pre-primary, primary, secondary, technical and vocational, tertiary as well as education in specialised institutions.

The data have been compiled on the basis of information collected through surveys conducted in 2012 among educational institutions, as well as from the Mauritius Examinations Syndicate and the Tertiary Education Commission.

It is hoped that the data assembled in this report will be of valuable help to the public in general, particularly to education planners and policy makers. The preparation of this report has necessitated the collaboration of the Ministry of Education and Human Resources, the Central Information Systems Division, educational institutions, and several other organisations. Their co-operation and assistance are herewith gratefully acknowledged.

(11) Repetition Rate

The proportion of pupils who repeat a grade once or twice.

Census of Schools - Methodology

Introduction

Statistics Mauritius conducts a school census in March every year in the Republic of Mauritius.

Objective

The main objective of the census is to collect reliable and updated data on the functioning of schools, teaching and learning conditions for effective policy and decision-making in the education sector. The questionnaires have been designed to collect information at school level on:

- available infrastructure and facilities;
- enrolment;
- examination results;
- ICT facilities, and
- teaching and non-teaching personnel.

Coverage

The survey covers all public and private pre-primary, primary, secondary and specialised institutions as well as all public-funded vocational training institutions in the Republic of Mauritius. They numbered 1,508 in 2012.

Data collection

Data are collected from schools through mail questionnaires. For the 2012 round of the census, relevant questionnaires with a covering letter and instructions were mailed to all schools during the last week of February 2012. The reference date for the survey was 1st March 2012. The schools had to submit the completed questionnaires by mail within a given deadline.

Response rate

A close monitoring of response from the schools are done by staff of the Statistics Unit at the Ministry of Education and Human Resources. Reminders are sent to all schools which do not respond by a given deadline. Those which still do not respond after phone calls and reminders are visited. In 2012, of the 1,508 schools, returns could not be obtained from 6 schools only, all of them in the pre-primary sector.

Editing and Coding

The editing and coding exercise are done by a team of Statistical Officers. The questionnaires are scrutinized to identify missing and inconsistent data. The data are also checked against previous year's questionnaires. Schools which report major changes or missing and inconsistent data are contacted by phone and any necessary corrections made. The questionnaires are then coded for data entry.

Data Processing

Data capture for the 2012 School Census was performed by the Central Information Systems Division (CISD) of the Ministry of Information and Communication Technology using the Integrated Microcomputer Processing System (IMPS) software. Questionnaires were entered twice by two officers to ensure that there was no input error. Data validation and cleaning were then done by Statistical Officers using the same software. Once all the data files were cleaned, IMPS was used for tabulation.
