FOREWORD

The report on External Trade Statistics is a regular publication of the Central Statistical Office issued quarterly since 1985. It is designed to disseminate in summary form, data on the exports and imports of the country for the relevant quarter or for a year as soon as they become available. More detailed data are published in the Annual Report of the Customs and Excise department.

In 1987 and 1988, only annual issues of this report have come out, in 1987 mainly because of delays in processing and in 1988 due to the introduction of the Harmonized Commodity Description and Coding System. Owing to backlog, it has not been possible to issue a report on the first quarter of 1989. The present report is therefore the first issue for 1989 and contains data relating to the second quarter as well as to the first semester of 1989.

Basic data for the preparation of this publication have been obtained from bills of entry of the Customs and Excise Department, the use of which is herewith acknowledged.

The figures for 1988 and 1989 are provisional and are liable to revision in the future. Figures have been rounded off to the nearest final digit, and in some tables there may be discrepancies between the sum of the constituent items and the total.

It is hoped that data contained in this report will be useful to the public in general and to all those in the field of external trade.

External Trade - Second Quarter and First Semester 1989

NOTES

Figures for 1988 and 1989 are provisional and subject to revision

1. COVERAGE

EXPORTS

- Cover
1. Domestic exports (including exports from the Export Processing Zone)
 2. Re-Exports
 3. Export ex Warehouse
 4. Returned goods

Include 1. Government, Parcel Post and Air Freight

- Exclude
1. Trade with Outer Islands
 2. Ships' stores and bunkers

IMPORTS

- Cover
1. Landed merchandise sent to warehouse for subsequent delivery
 2. Landed merchandise issued for home consumption

Include

1. Government, Parcel Post and Air Freight
2. Donations from other Government and International Organisations

- Exclude
1. Trade with Outer Islands
 2. Bullion and specie

2. VALUATION

Exports are valued F.O.B. and imports C.I.F.

F.O.B. Free on Board

C.I.F. Cost, Insurance and Freight

All figures quoted are in Mauritian Rupees

3. COMMODITY CLASSIFICATION

The classification used for the compilation of trade statistics is since January 1988 based on the Standard International Trade Classification (Revised III) or S.I.T.C. (Rev. III). Prior to 1988 the classification was based on S.I.T.C. (Rev. II). However, import and export bills of entry are now being worked upon according to the Harmonized Commodity Description and Coding System Nomenclature, shortly known as the Harmonized System Nomenclature (H.S.N.). Prior to 1988, the goods items were coded according to the Customs Cooperation Council Nomenclature (C.C.C.N.).

4. ROUNDING OF FIGURES

Figures have been rounded off to the nearest final digit and in some cases to the nearest one decimal place and as a result in some tables there may be discrepancies between the sum of the constituent items and to the total as shown.

EXTERNAL TRADE - SECOND QUARTER AND FIRST SEMESTER 1989

1. Total Trade.

Total international trade during the second quarter of 1989 saw a 10% increase over the previous quarter's figure and attained the value of Rs 8,530 million. This figure is apparently not much different from the value obtained for the corresponding period of last year which was Rs 8,457 million. However it must be pointed out that the latter includes the value of two aircrafts purchased for a total of Rs 1,775 million during the second quarter of 1988.

With exports contributing about 45%, the total trade for the semester reached a level of Rs 16,300 million, that is, 8% higher than the corresponding figure for last year. This however includes the effect of the purchase of the two abovementioned aircrafts, without which a nominal increase of 23% would have been observed.

2. Balance of Visible Trade.

The second quarter is usually an unfavourable period for the trade balance of the country with export earnings from sugar at its minimum. Accordingly, the balance of visible trade of the country registered a deficit of over Rs 1,100 million in the second quarter of 1989, as against Rs 872 million in the previous quarter.

With exports totalling Rs 7,160 million and imports Rs 9,140 million, the first semester of 1989 saw an overall trade deficit amounting to Rs 1,980 million. This compares with the figure of Rs 2,874 million obtained during the first half of 1988, which however takes into account the purchase of the aircrafts. Ignoring the latter, the deficit of the first half of 1988 works out to around Rs 1,100 million.

3. Terms of Trade (1988 = 100):-

After a decline of 8 percentage points during the first quarter of 1989, the terms of trade registered another fall of 8 percentage points during the second quarter, relative to the year 1988, which is now the new base for the calculation of import and export unit value indices.

In fact the terms of trade during the second quarter declined to 84 from 92 in the previous quarter, with 1988 as 100. This is mainly due to a fall of nearly 5% in the price level of exported goods, particularly sugar. On the other hand, the level of prices of imported commodities rose by about 6%, resulting from higher prices of petroleum products and manufactured goods.

4. Exports.

Compared with the previous quarter, total exports during the second quarter increased by some 13% in volume to reach Rs 3,710 million. The first semester therefore saw exports totalling Rs 7,140 million, which is 18% higher than the corresponding figure of 1988 in nominal terms. The real increase, on elimination of price effects however, works out to be just over 3%.

A breakdown of total exports, sector-wise, is given below:

Commodity/Sector	Value Rs Mn	
	1st Semester 1988	1st Semester 1989
Sugar	1,870	2,081
Molasses	22	21
Tea	61	60
EPZ	3,616	4,380
Re-exports	111	192
Ships' stores and bunkers	210	240
Other	199	184
Total Exports	6,089	7,158

During the first half of 1989 over three quarters of the country's exports were directed towards the EEC which absorbed some Rs 5,300 million worth of goods as against Rs 4,661 million for the corresponding period of last year. Again the main partners were the United Kingdom (Rs 2,152 million), France (Rs 1,646 million), the United States of America (Rs 952 million) and the Federal Republic of Germany (Rs 572 million). These countries together contributed over 75% in the country's exports.

5. Imports.

From a figure of Rs 4,319 million in the previous quarter, total imports reached Rs 4,820 million during the second quarter, that is, an increase of 12% nominally. Correspondingly, the first half of 1989 saw the imports into Mauritius of Rs 9,140 million worth of goods, barely 2% higher than the Rs 8,963 million (which include 2 aircrafts) imported during the first semester of 1988. Excluding the purchase of the aircrafts, the nominal increase amounts to 27%, almost exclusively accounted for by the effect of price increases.

A breakdown of main changes is as follows:-

Commodity	Value Rs Million		
	1st Semester 1988	1st Semester 1989	Change
Milk and cream	107	179	+ 72
Other food items	693	974	+ 281
Refined petroleum products	405	587	+ 182
Chemicals	481	587	+ 106
Textile fibres, yarn and fabrics	2,080	2,564	+ 484
Pearls, precious and semi-precious stones	107	217	+ 110
Cement, iron and steel	243	355	+ 112
Telecommunications equip- ment and parts thereof	125	253	+ 128
General industrial machinery & equipment	191	246	+ 55
Miscellaneous manufactured articles	625	769	+ 144

The main sources were: France (Rs 1,253 million), the Republic of South Africa (Rs 786 million), the Federal Republic of Germany (Rs 713 million) and the United Kingdom (Rs 614 million) which together supplied nearly 40% of the country's imports during the first semester. Among the general tariff countries, Japan and China together contributed a further 13%.

6. The Performance of the EPZ Sector.

During the second quarter of 1989, total EPZ exports increased by nearly 40% to reach over Rs 2,500 million. For the whole of the first semester of 1989, EPZ exports amounted to Rs 4,380 million as against Rs 3,616 million in the first six months of 1988. More than half of this 20% rise in the export level of the country is attributable to articles of apparel and clothing accessories.

The main buyers of the EPZ products during the second quarter of 1989 were, as usual, France (Rs 864 million), the United States of America (Rs 508 million), the United Kingdom (Rs 355 million) and the Federal Republic of Germany (Rs 320 million).

On the other hand, the value of EPZ imports reached Rs 1,930 million in the second quarter, bringing the EPZ import bill to nearly Rs 3,500 million for the first half of the year 1989. This is about 20% above the level obtained during the corresponding period of the previous year. The increase is attributed mainly to raw materials, whose value reached Rs 3,100 million as against Rs 2,500 million during the corresponding period last year. Imports of machinery, at the same time, dropped from Rs 450 million to Rs 360 million.

7. Forecasts - Year 1989.

On the basis of data available for the first six months of the year, a forecast has been attempted. It is thus estimated that total exports may reach around Rs 15,800 million during 1989. With imports around the Rs 19,500 million mark, a deficit of the order of Rs 3,700 million is expected for the year 1989 as compared to Rs 3,350 million (including the purchase of the aircrafts) or Rs 1,575 million excluding the purchase of the aircrafts a year ago.
