## Foreword

The present report on External Trade statistics contains data relative to the calendar year 1989. It is designed to disseminate data on exports and imports of the country in summary form. More detailed statistics will be published in the Annual Report of the Customs and Excise department.

Basic data for the preparation of this publication were obtained from bills of entry of the Customs and Excise Department whereas the processing was done by the Data Processing Division. The co-operation of these two departments of the Ministry of Finance is gratefully acknowledged.

It is hoped that the information published in this report will be useful to the public in general and to all those in the field of external trade.

(D. Zmanay)

Central Statistical Office  
PORT LOUIS

July 1990

External Trade - Year 1989

NOTES

Figures for 1988 and 1989 are provisional and subject to revision

1. COVERAGE

EXPORTS

Cover : 1. Domestic exports (including exports from the Export Processing Zone)

2. Re-Exports

3. Export ex Warehouse

4. Returned goods

Include : 1. Government, Parcel Post and Air Freight

Exclude : 1. Trade with Outer Islands

2. Ships' stores and bunkers

IMPORTS

Cover : 1. Landed merchandise sent to warehouse for subsequent delivery

2. Landed merchandise issued for home consumption

Include : 1. Government, Parcel Post and Air Freight

2. Donations from other Government and International Organisations

Exclude : 1. Trade with Outer Islands

2. Bullion and species

2. VALUATION AND STATUS OF FIGURES

Exports are valued F.O.B. and imports C.I.F.

F.O.B. Free on Board

C.I.F. Cost, Insurance and Freight

All figures quoted are in Mauritian Rupees

### 3. COMMODITY CLASSIFICATION

The classification used for the compilation of trade statistics is since January 1988 based on the Standard International Trade Classification (Revised III) or S.I.T.C. (Rev. III). However, import and export bills of entry are being worked upon according to the Harmonized Commodity Description and Coding System Nomenclature, shortly known as the Harmonized System Nomenclature (H.S.N).

### 4. ROUNDING OF FIGURES

Figures have been rounded off to the nearest final digit and in some cases to the nearest one decimal place. As a result in some tables there may be discrepancies between the sum of the constituent items and the total.

### 5. SYMBOLS

- Nil or negligible
- ... Not available
- Not applicable

### 6. ABBREVIATIONS

- Rs : Rupees
- 000 : Thousand
- Mn : Million
- m.ton : Metric ton : 1,000 kilos
- No. : Number
- M : Metre
- Lt : Litre
- M<sup>2</sup> : Square metre
- M<sup>3</sup> : Cubic metre

## External Trade - Year 1989

### I n t r o d u c t i o n

#### 1. Total Value of Trade

The total value of international trade of the country during 1989 attained Rs 35,750 million representing a 21% increase, in nominal terms, over the previous year's level of Rs 29,550 million (exclusive of aircrafts). This high growth is mainly attributable to imports which rose by 29%, in value terms, to reach Rs 20,200 million. Exports, on the other hand, increased by only 12% and amounted to Rs 15,500 million. The share of exports in the total value of trade consequently dropped to 43% from 45% in 1988 and 50% in 1986.

#### 2. Balance of Visible Trade

Quarterly trade data given in table 1 shows that a trade deficit of around Rs 1,100 million was registered during each of the first three quarters of 1989. The deficit for the fourth quarter increased further to around Rs 1,500 million bringing the total deficit for the year to around Rs 4,700 million. This figure compares with a deficit of Rs 3,600 million registered in 1988. The 1988 figure however included the purchase of two aircraft amounting to Rs 1,775 million; exclusive of aircraft the deficit works out to around Rs 1,800 million only. This considerable deterioration of the balance of visible trade is undoubtedly explained by the unfavourable terms of trade movements experienced in 1989.

The balance of visible trade is a component of the balance of payments and relates to the net value of transactions involving merchandise only. It should not therefore be used as the sole indicator of how the country's balance of payments is behaving. The current account which includes merchandise as well as services and unrequited transfers is a more appropriate indicator.

#### 3. Terms of Trade<sup>1/</sup>

The terms of trade (ratio of export to import price index) for the year 1989 reached the level of 93 indicating a drop of 7 percentage points over 1988. The index falling below 100 shows that export prices have lagged behind those of imports.

The price level of exported goods increased by about 11%, with sugar rising by 9% and EPZ products by around 10%. Import prices on the other hand, are estimated to have increased by around 20% mainly resulting from higher prices registered in the following products: food products (+24%), petroleum products (+36%), cement (+29%), EPZ inputs and other manufactured goods (+17%).

1/ The import and export unit value indices and terms of trade for the year 1989 have been revised. As a result they differ from the indices published in the Economic Indicator issue No. 104

#### 4. Exports

Total exports inclusive of ships' stores and bunkers amounted to Rs 15,500 million compared to Rs 13,850 million in 1988. Although, in nominal terms the increase works out to around 12%; in volume terms, exports remained at almost the same level as in 1988.

During the year 1989, a lower volume of sugar was exported, i.e. 636,000 m/tons compared to 652,000 m/tons for an amount of Rs 4,950 million. EPZ exports attained around Rs 9,050 million. EPZ exports which had been growing in real terms at an annual average rate of around 25% over the past five years registered no growth in 1989. The 10% increase, in value terms, of EPZ exports increasing from Rs 8,200 million in 1988 to Rs 9,050 million in 1989 is totally accounted for by the effect of price increases. Re-exports has more than doubled as it includes the sale of a marine vessel.

As in previous years, the EEC remained the leading buyer of our products accounting for nearly 80% of the total exports whilst the US absorbed some 14%.

#### 5. Imports

In 1989, the import bill of the country increased substantially from around Rs 15,700 million exclusive of aircraft to some Rs 20,200 million. The 1989 figure however includes the purchase of two ships which cost around Rs 500 million. The high growth in the value of our imports was mainly due to the effect of prices which increased by around 20%. In volume terms therefore, imports grew by nearly 7%.

A comparative table showing a list of imported items/product groups which have registered major increases in 1989 is given in Table 21.

The table on imports by country of origin shows that EEC was the major supplier accounting for 34% of the total followed by Japan 9% and Republic of South Africa 9%.

#### 6. The EPZ Sector

6.1 EPZ exports increased in nominal terms by around 11% to reach Rs 9,050 million from around Rs 8,200 million in 1988. After eliminating the effect of price increases which are estimated at around 10%, in volume terms, the EPZ exports have recorded no growth.

As in previous years, EPZ exports were concentrated in textiles and clothing which accounted for nearly 80% of the total.

The main markets remained the EEC which purchased 72% of the products, with France leading the way taking some 30%. The US market represented 21%.

6.2 Imports by the EPZ enterprises recorded a substantial increase of around 27% to reach Rs 7,500 million from Rs 5,900 million the previous year. Machinery and spare parts accounted for Rs 950 million which compares with Rs 800 million for 1988. The cost of raw materials and other inputs therefore amounted to Rs 6,550 million representing an increase of nearly 30% over 1988.

The main suppliers were the EEC which represented 40% of the total.

6.3 Net EPZ exports consequently witnessed a dramatic decline of around 32% in value terms falling to Rs 1,550 from Rs 2,300 million the previous year and Rs 1,800 million in 1987.

The ratio of net exports to total exports consequently dropped drastically to a low 17% from 28% in 1988 and an average of 25% during the previous three years.
