STATISTICS

Year 1997

Foreword

External Trade - Year 1997

This report on External Trade Statistics was published on a semester basis from 1989 up to 1994. As from 1995 an annual report incorporating data for the four quarters is published.

This issue contains quarterly and yearly data on exports and imports relating to the years 1996 and 1997. Data relating to the year 1996 have been revised.

The basic data for the preparation of this publication are obtained from the Bills of entry filed in at the Customs and Excise Department, The Mauritius Sugar Syndicate and The State Trading Corporation provide supplementary information. The Central Information Systems Division (CISD) is responsible for the processing of the data. Grateful acknowledgement is expressed here to all these departments and organisations for their continued co-operation.

It is hoped that data given in this report proves useful to the public in general and to users of External Trade Statistics in particular.

External Trade

Notes

(1) Coverage

Trade figures are compiled according to the **General Trade System** as recommended by the United Nations. Using the national boundary as the statistical frontier, the General Trade System is a record of all goods entering (imports) and leaving the country (exports).

- Imports include goods brought in directly for domestic consumption plus goods imported into customs bonded warehouses
- Exports cover domestic exports and re-exports which include re-exports from customs bonded warehouses. Domestic exports are defined as goods of national origin. Re-exports are goods which are exported in the same condition as imported or after undergoing minor operations which leave them essentially unchanged.
- Ships stores and bunkers are included in total exports and are shown separately.
- Trade by parcel post is also included in imports and exports

(2) Valuation

Imports are valued on a C.I.F. (Cost, Insurance and Freight) basis whilst exports on a F.O.B. (Free On Board) basis.

C.I.F. value is the value in the market at the Customs frontier of a country of her imports of merchandise, other goods, etc. including all charges for transporting and insuring the goods from the country of exports to the given country but excluding the cost of unloading from the ship, aircraft etc. unless it is borne by the carrier.

F.O.B. value is the value in the market at the Customs frontier of a country of her exports of merchandise and other goods, including all costs of transporting the goods to the Customs frontier, export duties and the cost of loading the goods on to the carrier unless the latter cost is borne by the carrier.

(3) Classification

(i) Commodity Code

Commodities are coded according to the Harmonised Commodity Description and Coding System Nomenclature (HS). However, for the purposes of economic analysis and to facilitate international comparison of trade by commodity data, the commodities are also classified according to the Standard International Trade Classification (Revision 3) or SITC Rev. 3. The HS and the SITC Rev. 3 are six and five digit codes respectively but have been extended to eight and seven digits to accommodate national requirements.

4. **Terms of trade**

The terms of trade index measures the price movements of exports relative to imports. It is the ratio of exports price index to import price index. A rise in this ratio indicates that the real purchasing power of exports has increased whilst a decrease indicates a drop in the purchasing power

5. **Symbols used**

- Nil or negligible

External Trade - Year 1997

Introduction

Data on international trade are compiled as per the recommendations of the United Nations General Trade System. As this System accounts for all goods entering and leaving the national frontier, trading activities of the freeport zone should also be covered. However, for the sake of comparability and continuity, data from the two sources, namely the Customs Department and the Mauritius Freeport Authority are shown separately. Data pertaining to imports and re-exports of the Freeport are given at **Table 2**. With the exception of this table, all tables refer to usual customs data.

1 Total value of trade and trade balance

Total exports for the year 1997 reached Rs. 33,618 million, that is 4% higher than in 1996, while the import bill increased by 12% to reach Rs. 46,093 million. Thus the balance of visible trade showed a higher deficit of Rs. 12,475 million, compared to Rs. 8,770 million in 1996 (**Table 1**). This higher deficit includes the purchase of aircraft and marine vessels to the tune of Rs. 2,950 million. Exclusive of the purchase of these irregular items, the deficit works out to Rs. 9,525 million.

2 Terms of Trade (base year 1992=100)

The terms of trade for the year 1997 improved to 101 from 99 in the previous year. Between 1996 and 1997, export (unit value) prices increased by 4% while import prices increased by 2%. Prices of EPZ products were up by 9% whilst those of sugar increased by 2% (**Table 4**).

3 Exports

Total export proceeds for the year 1997 (domestic exports, re-exports and ship's stores and bunkers) amounted to Rs. 33,618 million, showing an increase of Rs. 1,306 million or 4% over the year 1996.

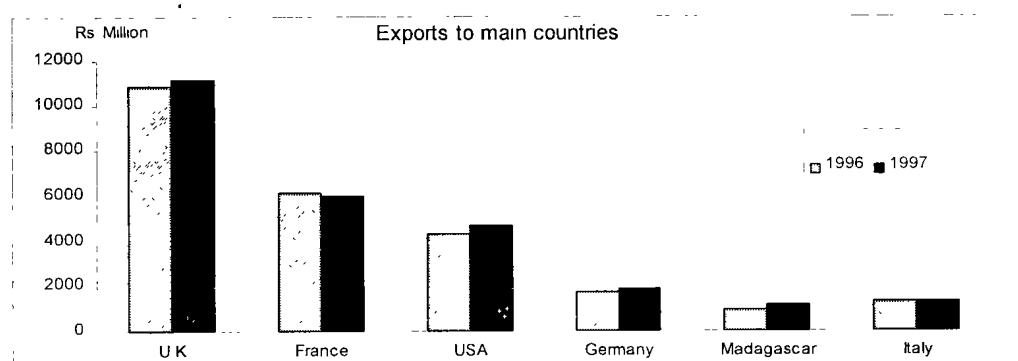

Domestic exports which represents 95% of total exports increased from Rs. 30,776 million to Rs. 31,888 million (4%) over these two years. After allowing for a price increase of around 4%, domestic exports showed no growth in volume. Proceeds from EPZ, which accounted for 69% of total exports, increased by 10% whilst proceeds from sugar fell by 10%. Some 575,000 metric tonnes of sugar were sold compared to 613,000 metric tonnes in 1996.

The table below shows the main changes in total exports between 1996 and 1997.

(f.o.b value: Million Rupees)

Exports	1996	1997	Change (%)		
			Value	Price	Volume
Total	32,312	33,618	+ 4	+4	-
<i>of which</i>					
Sugar	8,347	7,495	- 10	+2	- 12
EPZ products	21,000	23,049	+10	+9	+ 1

In 1997, nearly 74% of our exports were sold to countries of the European Union. The value of exports to these countries increased marginally by 1% from Rs. 24,160 million in 1996 to Rs. 24,478 million in 1997. On a countrywise basis, our main buyers were the United Kingdom, France and the U.S.A with shares of 34%, 18% and 14% respectively. Exports to the United Kingdom and the U.S.A increased by 3% and 14% respectively, while exports to France fell by 2%. (Table 13)

4. Imports

The import bill for the year 1997 was valued at Rs. 46,093 million, representing an increase of 12% over the previous year's figure of Rs. 41,082 million. However, excluding the purchase of aircraft and marine vessels amounting to Rs. 2,950 million, import figures for the year 1997 would stand at Rs. 43,143 million. This represents an increase of 5% over 1996. As overall import prices are estimated to have increased by around 2%, in real terms, imports exclusive of aircraft increased by 3%.

5 The EPZ Sector

During the year 1997, exports of EPZ enterprises increased by some Rs. 2,000 million to Rs. 23,049 million from Rs. 21,000 million in 1996. This nominal increase of 10% reflects a 9% increase in price and 1% increase in volume. More than 70% of the exports were directed to countries of the European Union.

On the other hand, imports rose by 15% from Rs. 12,077 million to Rs. 13,880 million during the same period. Purchase of raw materials went up by 14% and machinery by 29%.

Net EPZ exports, which is the difference between exports and imports, works out to Rs. 9,169 million in 1997, that is 3% higher than that of 1996. The ratio of net exports to total exports dropped to 40% from 42% registered last year.

6. Trade in Freeport Zone

A summary table on data pertaining to activities in the Freeport compiled by the Mauritius Freeport Authority is given at **Table 2**.

During the year 1997, total imports of the Free Zone amounted to Rs. 2,421 million compared to Rs. 958 million in 1996, whilst re-exports totalled Rs. 2,101 million against Rs. 1,028 million in 1996. However, please note that these figures include goods sourced locally (already in customs exports) and goods sold locally (customs imports).

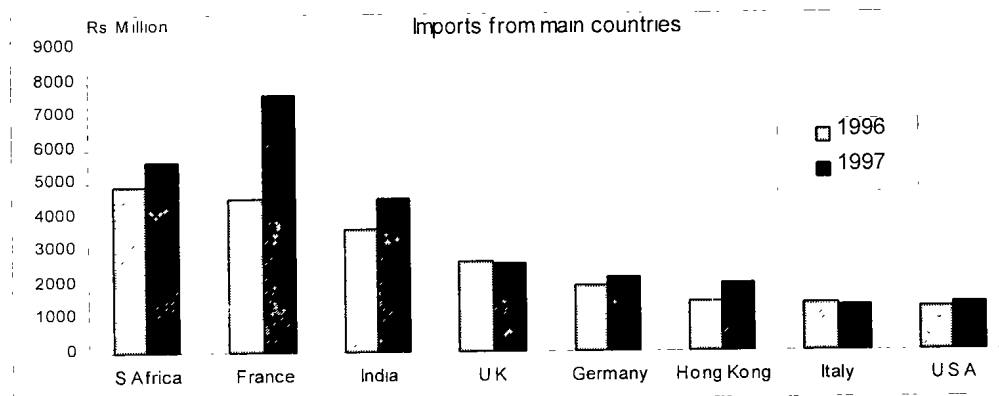

Central Statistical Office
Ministry of Economic Development and Regional Co-operation
PORT LOUIS

October 1998

The table below shows comparative import figures for the years 1996 and 1997.

Product group	(c.i.f value : Million Rupees)		Change (%)		
	1996	1997	Value	Price	Volume
Food and live animals, beverages and tobacco	6,057	6,353	+ 5	- 9	+ 15
Mineral fuels, lubricants and related materials	3,211	3,471	+ 8	-	+ 8
Chemicals and related products	3,164	3,340	+ 6	- 2	+ 8
Manufactured goods	16,979	18,751	+ 10	- 1	+ 11
Machinery & transport equipment (excluding aircraft)	9,195	8,752	- 5	+ 6	- 10
Other goods	2,476	2,476	-	+ 2	- 2
Total imports (excluding aircraft)	41,082	43,143	+ 5	+ 2	+ 3

During the year 1997, all product groups recorded nominal increases ranging from 5% to 10% with the exception of "machinery and equipment" which fell by 5%. The highest increase of 10% was registered for "Manufactured goods" resulting from higher imports of intermediate goods by the EPZ sector. "Food, live animals, beverages and tobacco" increased by only 5% following a lower volume of rice, maize and wheat imported. The increase in the bill for petroleum products is totally explained by an increase in volume whilst prices remained at previous year's level. However, it should be pointed out that price changes are unit value average price changes which do not reflect genuine price changes since they are affected by factors like changes in country of origin and product mix.

As shown in **Table 20**, during the year 1997, 34% of our imports originated from the European Union countries. On a countrywise basis, France was our main supplier with a share of 16%, followed by the Republic of South Africa (12%), India (10%), United Kingdom (6%), Germany (5%), Hong Kong (4%), Italy (3%) and U.S.A (3%).
