INTERNATIONAL TRAVEL AND TOURISM

Vol. 4 No. 2

December 1977

"International Travel and Tourism", a publication of the Central Statistical Office, is designed to present data on international travel and tourism in more detail than those that are currently published in the Bi-annual Digest of Statistics.

With the help of the computer of the Ministry of Finance it has been possible to process in more detail the information recorded on the international embarkation and disembarkation cards which passengers fill in on leaving and entering the country.

It is hoped that the results, especially those on tourism, which have been assembled in this report will be useful to all those who take an interest in the evolution of the tourist industry in this country.

The co-operation of the Immigration and Passport Office of the Police Department and the Data Processing Division of the Ministry of Finance is gratefully acknowledged.

At the 1962 Census each householder was asked for the first time to state the population group to which each member of his household claimed to belong.

Prior to 1962, it is probable that, from one census to another, different criteria have been used in classifying the population by population groups. Figures are therefore not strictly comparable from one census to another, before 1962.

IV - TOURISM

Definition and notes

1. Definition of tourist :

- (a) Prior to 1964, a tourist has been defined as a non-resident staying in Mauritius for more than 24 hours but less than 6 months;
- (b) As from 1964, a tourist is defined as a non-resident staying in the island for more than 24 hours but less than a year.

The figures for the two periods are nevertheless comparable because of the small number of tourists staying for more than 6 months.

2. Visitors include the following:

- (i) tourists as defined above; and
- (ii) non-residents who stay in the country for less than a day, other than those who do not leave the airport.

3. Method of compilation :

Certain data on tourism (such as type of visitor, tourist arrivals by month of arrival, tourist arrivals by country of residence and mode of transport) are compiled from disembarkation cards which visitors fill in when they arrive in this country. However, information on duration of stay of visitors can be compiled only from the embarkation cards which they fill in when they leave the country. Since it is not possible to wait for the departure of all the visitors who come during the period under review, we restrict our analysis of duration of stay only to those visitors who arrive during the reference period but who have left by a given date after the end of the period.

However, the error due to this limitation is not considerable since visitors arriving in 1976 and leaving before 1.2.1977 represent 99.1% of total visitor arrivals for 1976 and visitors arriving in 1977 and leaving before 1.2.78 represent 99.4% of total visitor arrivals for 1977.

4. Tourist nights :

Tables 30, 35 and 37 show the number of nights spent by tourists who were on visit in the country during the period under review. The figures there include nights spent during the reference period by tourists who arrived before the beginning of the period. On the other hand, nights spent after the end of the reference period by tourists who arrived during the period are excluded.

5. Visitor nights :

In tables 39-42 and table 44 an analysis is made of nights spent by visitors who arrive during the period under review and who have left by a given date after the end of the period. Figures for 1977 thus show the total number of nights spent by visitors who arrived in 1977 and left before 1.2.1978.

6. Mauritians settled abroad are excluded from figures of tourists and visitors. Data referring to them are shown separately in tables 45 - 47. Table 45 shows the total nights spent by Mauritians settled abroad who arrive during the period under review and who have left by a given date after the end of the period. Thus the figures for 1977 include nights spent in 1978 by Mauritians settled abroad who arrived in 1977. Table 47 shows the nights spent during the period under review only. Thus the figures for 1977 include nights spent in 1977 by Mauritians settled abroad who arrived in 1976, but exclude nights spent in 1978 by those who arrived in 1977.
