INTERNATIONAL TRAVEL AND TOURISM

Vol. 1 No. 1

June 1974

This is the first volume of a new series in the publications of the Central Statistical Office. It is designed to present data on international travel and tourism in more detail than those that are currently published in the Bi-annual Digest of Statistics.

With the help of the computer of the Ministry of Finance it is now possible to process in more detail the information recorded on the international embarkation and disembarkation cards which passengers fill in on leaving and entering the country.

It is hoped that the results, especially those on tourism, which have been assembled in this report will be useful to all those who take an interest in the evolution of the tourist industry in this country.

The co-operation of the Immigration and Passport Office of the Police Department and the Data Processing Division of the Ministry of Finance is gratefully acknowledged.

<sup>1/</sup> Persons who have obtained a permit to emigrate to another country.

1V - TOURISM

Definition and notes

1. Definition of tourist:

- (a) Prior to 1964, a tourist has been defined as a non-resident staying in Mauritius for more than 24 hours but less than 6 months;
- (b) As from 1964 a tourist is defined as a non-resident staying in the island for more than 24 hours but less than a year.

The figures for the two periods are nevertheless comparable because of the small number of tourists staying for more than 6 months.

2. Visitors include the following:

- (i) tourists as defined above; and
- (ii) non-residents who stay in the country for less than a day, other than those who do not leave the airport.

3. Mauritians settled abroad are excluded from figures of tourists and visitors. They are shown separately in Table 35.

4. Method of compilation:

Certain data on tourism (such as type of visitor, tourist arrivals by month of arrival, tourist arrivals by country of residence and mode of transport) are compiled from disembarkation cards which visitors fill in when they arrive in this country. However, information on duration of stay of visitors can be compiled only from the embarkation cards which they fill in when they leave the country. Since it is not possible to wait for the departure of all the visitors who come during the period under review, we restrict our analysis of duration of stay only to those visitors who arrive during the reference period but who have left by a given date after the end of the period.

However, the error due to this limitation is not considerable since only a very small number of visitors stay in the country for more than 1 month whilst almost all of them leave in the three months following their date of arrival. Thus visitors arriving in 1973 and leaving before 1.4.74 represent 99.9% of total visitor arrivals for 1973 whilst visitors arriving in January-June 1974 and leaving before 1.8.74 represent 99.2% of total visitor arrivals for the first half of 1974.

5. Tourist nights:

Tables 23, 26 and 29 show the number of nights spent by tourists who were on visit in the country during the period under review. The figures therefore include nights spent during the reference period by tourists who arrived before the beginning of the period. On the other hand, nights spent after the end of the reference period by tourists who arrived during the period are excluded.

6. Visitor nights:

In tables 31-35 an analysis is made of nights spent by visitors who arrive during the period under review and who have left by a given date after the end of the period. Figures for 1973 thus show the total number of nights spent by visitors who arrived in 1973 and left before 1.4.74; the number of nights spent in 1973 by visitors who arrived in 1972 is excluded.

Table 23 - Tourist<sup>1/</sup> arrivals by mode of transport and total nights spent during period, 1963-74
