INTERNATIONAL TRAVEL AND TOURISM

Vol. 9 No. 1

June 1982

"International Travel and Tourism", a publication of the Central Statistical Office, is designed to present data on international travel and tourism in more detail than those that are currently published in the Bi-annual Digest of Statistics.

As from January 1979, owing to the increase in the volume of passenger traffic, it has been decided to process the data on a 10% sample. Cases where the number of passengers are too small have been omitted in order to avoid large sampling errors. It is to be noted, however, that figures for official emigrants published in this report have been compiled from the Passport Office register.

With the help of the computer of the Ministry of Finance it has been possible to process in more detail the information recorded on the international embarkation and disembarkation cards which passengers fill in on leaving and entering the country.

It is hoped that the results, especially those on tourism, which have been assembled in this report will be useful to all those who take an interest in the evolution of the tourist industry in this country.

The co-operation of the Immigration and Passport Office of the Police Department and the Data Processing Division of the Ministry of Finance is gratefully acknowledged.

At the 1962 census each householder was asked for the first time to state the population group to which each member of his household claimed to belong.

Prior to 1962, it is probable that, from one census to another different criteria have been used in classifying the population by population groups. Figures are therefore not strictly comparable from one census to another, before 1962.

<sup>1/</sup> persons who have obtained a permit to emigrate to another country

Note: The number of immigrants coming to settle in Mauritius is negligible.  
A net negative balance over successive years in the last column indicates that a number of persons not registered as official emigrants are permanently leaving the country

IV - TOURISM

Definition and notes

1. Definition of tourist :

- (a) prior to 1964, a tourist has been defined as a non-resident staying in Mauritius for more than 24 hours but less than 6 months;
- (b) As from 1964, a tourist is defined as a non-resident staying in the island for more than 24 hours but less than a year.

The figures for the two periods are nevertheless comparable because of the small number of tourists staying for more than 6 months.

2. Visitors include the following :

- (i) tourists as defined above; and
- (ii) non-residents who stay in the country for less than a day, other than those who do not leave the airport.

3. Method of compilation :

Certain data on tourism (such as type of visitor, tourist arrivals by month of arrival, tourist arrivals by country of residence and mode of transport) are compiled from disembarkation cards which visitors fill in when they arrive in this country. However, information on duration of stay of visitors can be compiled only from the embarkation cards which they fill in when they leave the country.

As from January 1979, figures are based on a 10% sample. Data on "visitor arrivals" are compiled both from embarkation and disembarkation cards. Since the compilation has been done on a sample basis the figures of "visitor arrivals" obtained when working with records of arrivals do not tally with those obtained when working with records of departures. The figures in the latter case have been prorated to the totals obtained when working with records of arrivals.

4. Tourist nights :

Table 30, 35 and 36 show the number of nights spent by tourists who were on visit in the country during the period under review. The figures therefore include nights spent during the reference period by tourists who arrived before the beginning of the period. On the other hand, nights spent after the end of the reference period by tourists who arrived during the period are excluded.

5. Visitor nights :

In tables 38 - 41 an analysis is made of nights spent by visitors who arrived during the period under review and who have left by a given date after the end of the period. Figures for January - June 1982 thus show the total number of nights spent by visitors who arrived in January - June 1982 and left before 1.10.1982.

6. Mauritians settled abroad are excluded from figures of tourists and visitors. Data referring to them are shown separately in tables 42 - 44. Table 42 shows the total nights spent by Mauritians settled abroad who arrived during the period under review and who have left by a given date after the end of the period. Thus the figures for January-June 1982 include nights spent in July-September 1982 by Mauritians settled abroad who arrived in January-June 1982. Table 44 shows the nights spent during the period under review only. Thus the figures for January-June 1982 include nights spent in January-June 1982 by Mauritians settled abroad who arrived in 1981, but exclude nights spent in July-September 1982 by those who arrived in January-June 1982.
