INTERNATIONAL TRAVEL AND TOURISM STATISTICS

Vol. 15

1 9 8 8

"International Travel and Tourism Statistics", a publication of the Central Statistical Office, is designed to present data on international travel and tourism in more details than are currently published in the Annual Digest of Statistics.

As from January 1979, owing to the increase in the volume of passenger traffic, it has been decided to process the data on a 10% sample. Cases where the number of passengers are too small have been omitted in order to avoid large sampling errors. It is to be noted, however, that figures for official emigrants published in this report have been compiled from the Passport Office register.

With the help of the computer of the Ministry of Finance it has been possible to process in more details the information recorded on the international embarkation and disembarkation cards which passengers fill in on leaving and entering the country.

The co-operation of the Immigration and Passport Office of the Police Department, the Mauritius Government Tourist Office and the Data Processing Division of the Minister of Finance is gratefully acknowledged.

1/ figures refer to total population (i.e. Mauritian and non-Mauritian). Data for 1963-71 have been revised in the light of the 1972 population census results; data for 1973-82 have been revised in the light of the 1983 population census results adjusted for underenumeration of young children.

2/ deaths of children under 1 year of age

Note: The increase in the number of civil marriages as from 1982 is due largely to improved registration of religious marriages with the coming into force of a new Civil Status Act as from January, 1982.

IV - TOURISM

Definition and notes

1. Definition of tourist

- (a) prior to 1964, a tourist has been defined as a non-resident staying in Mauritius for more than 24 hours but less than 6 months,
- (b) as from 1964, a tourist is defined as a non-resident staying in the island for more than 24 hours but less than a year.

The figures for the two periods are nevertheless comparable because of the small number of tourists staying for more than 6 months.

2. Visitors include the following:

- (a) tourists as defined above; and
- (b) non-residents who stay in the country for less than a day, other than those who do not leave the airport.

3. Method of compilation

Certain data on tourism (such as type of visitor, tourist arrivals by month of arrival, tourist arrivals by country of residence and mode of transport) are compiled from disembarkation (arrival) cards which all passengers have to fill in when they arrive in this country. However, information on duration of stay of visitors can be compiled only from the embarkation (departure) cards which they fill in when they leave the country.

As from January 1979 figures are based on a 10% sample. Data on "visitor arrivals" are compiled both from embarkation and disembarkation cards. Since the compilation has been done on a sample basis the figures of "visitor arrivals" obtained when working with records of arrivals do not tally with those obtained when working with records of departures. The figures in the latter case have been prorated to the totals obtained when working with records of arrivals.

4. Tourist nights

Tables 34, 40 and 41 show the number of nights spent by tourists who were present in the country during the period under review. Thus the number of tourist nights for 1988 include:

- (a) the nights spent during 1988 by tourists who arrived prior to 1st January 1988; and
- (b) the nights spent during 1988 by tourists who arrived during the same year.

However, nights spent after 31st December 1988 by tourists who arrived in 1988 are excluded.

5. Visitor nights

The concept of visitor nights is different from that of tourist nights. Here, an attempt is made to find how many nights have been spent by the total number of visitors who arrived during the period (year) under review. For instance, the total number of visitor nights for 1988 should refer to the total number of nights spent by all visitors who arrived during the year 1988. To get this figure it is necessary to wait until all visitors who came in 1988 have left the country. However, since in principle, a visitor can stay up to one year, it is not possible to wait for so long before compiling the data. Thus, the figures for the year 1988 actually refer to the total number of nights spent as at the end of February 1989. Hence, a visitor who arrived in November 1988 and who left in March 1989 will unfortunately not be recorded in the given figures. However, because of the very small number of visitors who stay for more than two months, the errors should probably not be very significant.

6. Mauritians settled abroad are excluded from figures of tourists and visitors. Data referring to them are shown separately in tables 52 - 54. Table 52 shows the total nights spent by Mauritians settled abroad who arrived during the period under review and who have left by a given date after the end of the period. Thus the figure for 1988 include nights spent in January - February 1989 by Mauritians settled abroad who arrived in 1988. Table 54 shows the nights spent during the period under review only. Thus the figures for 1988 include nights spent in 1988 by Mauritians settled abroad, who arrived in 1987 or prior but exclude nights spent in January - February 1989 by those who arrived in 1988.
