External Trade – 1st Quarter 2003

Introduction

This issue of the Social and Economic Indicators presents external trade statistics for the first quarter of 2003 and for the years 2001 and 2002. While figures for 2001 are final, those for 2002 and 2003 are subject to revision in future issues.

Data on international trade are compiled as per the recommendations of the United Nations General Trade System. According to this system, all goods entering and leaving the national frontier, including trading activities of the Freeport zone should be accounted for. However, it was not possible before the first quarter of 2002 to include Freeport transactions in our general trade statistics because of different processing systems at the Customs Department and at the Mauritius Freeport Authority. Since mid-October 2001, transactions of the Freeport are being lodged through the Customs Management System (CMS), thus making it possible to integrate data of the Freeport zone with those of Customs.

Hence, as from 2002, data on imports and exports include transactions through the Mauritius Freeport. Thus, the data for 2002 and 2003 presented in this Indicator are not comparable with those for the previous periods. It is to be noted that all exports of the Freeport are included in re-exports of Mauritius because it is not possible to distinguish between domestic exports and re-exports of freeport licensees. It is estimated that currently some 35% of freeport exports are sourced locally.

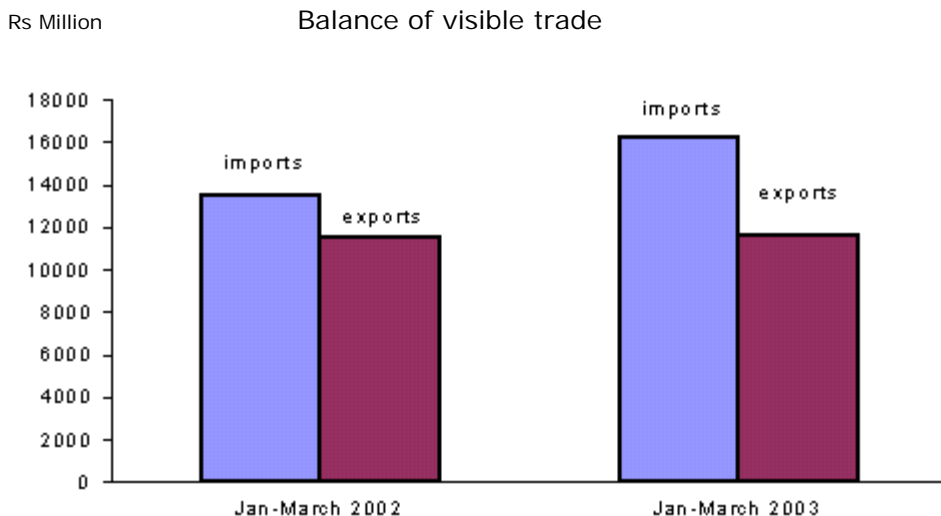

Three new tables have been introduced in this issue : re-exports of main commodities by section (Table 7), domestic exports by countries of destination (Table 9) and re-exports by countries of destination (Table 10).

Detailed statistical tables on imports and exports of the Export Processing Zone (EPZ) are published in the indicator on "EPZ and Pioneer Status Enterprises", which appears in this same issue.

1. Total value of trade and trade balance

Total international trade for the first quarter of 2003 was valued at Rs 27,797 million, a figure which is 11.0% higher than that of the corresponding quarter of 2002.

During the first quarter of 2003, total exports reached Rs 11,571 million compared to total imports of Rs 16,226 million, thus resulting in a trade deficit of Rs 4,655 million.

Based on the trends for previous years, total exports for the year 2003 are expected to be of the order of Rs 59,900 million, as against Rs 69,400 million for imports which will include aircraft worth Rs 1,073 million. The trade deficit will be around Rs 9,500 million.

2. Terms of trade (base year: 1997 = 100)

During the first quarter of 2003, the terms of trade index, which shows price movements of exports relative to those of imports, decreased by seven percentage points to 89, from 96 in the fourth quarter of 2002 (Table 2). This movement was due mainly to a decrease of 5.4% in export prices while import prices increased by 2.2%. It should be noted that these price movements are based on unit value indices which, unlike genuine price changes, are affected by changes in country of origin/destination, product mix and quality.

Details of price changes for exports and imports are given in Tables 3 and 4.

3. Exports

Total export proceeds for the first quarter of 2003, including domestic exports, re-exports and ship's stores and bunkers, amounted to Rs 11,571 million, showing an increase of 0.1% over the corresponding quarter of 2002.

Total domestic exports, which represented about 73% of total exports, decreased by 6% in nominal terms, compared to first quarter 2002. This change in value was accompanied by a 7% increase in price, thus resulting in a 12% decrease in volume.

The table below shows the main changes in domestic exports between the first quarters of 2002 and 2003.

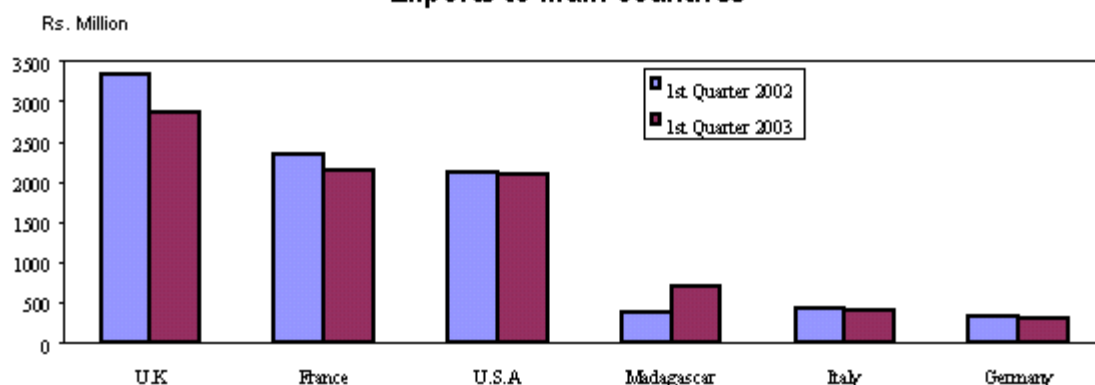

(f.o.b value): Million Rupees

S.I.T.C Section	Jan - March 2002	Jan - March 2003	Change (%)		
			Value	Price	Volume
Total Domestic Exports	8,977	8,418	- 6	+7	- 12
Food and live animals	2,387	1,816	-24	+13	-33
<i>of which Sugar</i>	<i>1,746</i>	<i>1,129</i>	<i>-35</i>	<i>+17</i>	<i>-44</i>
Crude materials, inedible, except fuels	56	71	+ 27	+14	+11
Chemicals & related products	67	76	+13	+1	+12
Manufactured goods classified chiefly by materials	542	590	+9	-8	+18
Miscellaneous manufactured articles	5,893	5,819	-1	+5	- 6

The value of exports of "Food and live animals" decreased by 24% as a result of a 13% increase in prices, and a 33% decrease in volume. Export receipts from "Manufactured goods classified chiefly by materials" improved by 9% in nominal terms, resulting from a decrease of 8% in prices and a 18% increase in volume. Exports of "Miscellaneous manufactured articles" registered a decrease of 1% in value, following an increase of 5% in prices and a 6% decrease in volume.

Exports of "Articles of apparel and clothing accessories" amounted to Rs 6,003 million, representing 55% of total exports. Analysis by country of destination shows that our main buyers, i.e the European countries, purchased some 60% of our exports for Rs 6,484 million. The United Kingdom remained the main buyer with Rs 2,853 million, or 26% of total exports, followed by France with Rs 2,138 million (20%). The other major markets were U.S.A (19%), Malagasy Republic (6%), Italy (4%) and Germany (3%). Table 8 shows further details.

Exports to main countries

4. Imports

Total imports for the first quarter of 2003 reached Rs 16,226 million, showing an increase of 20% over the figure registered during the corresponding period of 2002. Overall import prices are estimated to have increased by around 7% and import volume by 12%.

During this quarter, imports of "*Manufactured goods classified chiefly by material*" and imports of "*Machinery and transport equipment*" represented each 25% of total imports while imports of "*Mineral fuels, lubricants and related products*" made up for 12%.

Figures for imports by S.I.T.C (Rev 3) sections are compared to those of the first quarter of 2002 below.

(c.i.f value: million rupees)

S.I.T.C Section	Jan - March 2002	Jan - March 2003	-----Change (%)-----		
			Value	Price	Volume
Total Imports	13,482	16,226	+ 20	+ 7	+ 12
Food & live animals	2,507	2,708	+ 8	- 2	+10
Beverages & tobacco	73	131	+79	+ 28	+40
Crude materials, inedible except fuel	425	375	- 12	-14	+2
Mineral fuels, lubricants & related materials	1,616	2,003	+24	+ 41	-12
Animals & vegetable oils & fats	95	122	+28	+19	+8
Chemicals & related products	968	1,233	+27	+7	+19
Manufactured goods classified chiefly by material	3,882	4,026	+4	+ 4	-
Machinery & transport equipment	2,549	4,029	+58	+ 6	+49
Miscellaneous manufactured articles	1,297	1,561	+20	+10	+ 9

In nominal terms, the highest increase was registered in the group "*Beverages and tobacco*" whose imports value rose by 79% as a result of increases of 28% and 40% in prices and volume respectively. A substantial increase of 58% was also noted in the value of imports of "*Machinery and transport equipment*" due to a 6% increase in prices and 49% increase in volume. With the exception of "*Crude materials, inedible except fuel*" whose imports went down by 12%, all the other remaining sections registered increases in value ranging from 4% to 28%.

Further details by section and commodity are given in tables 11 and 12.

Imports from main countries

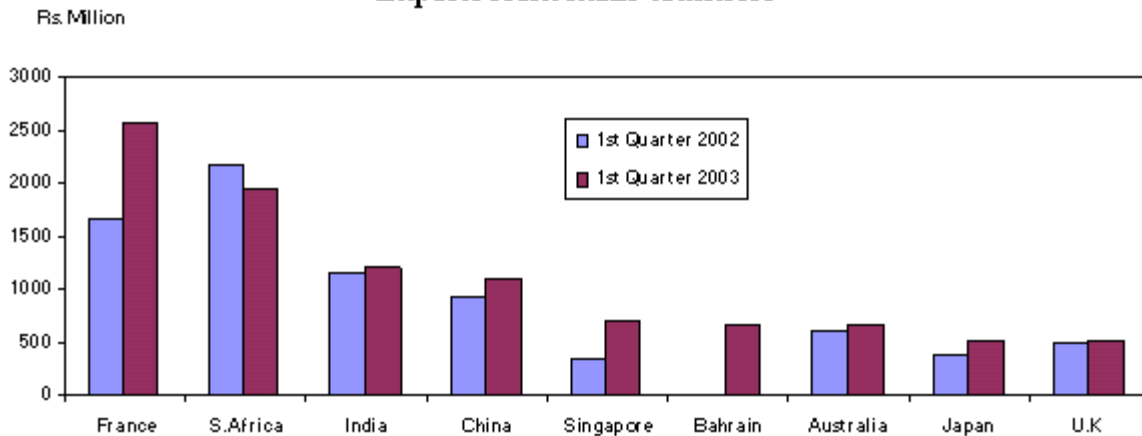

Table 13 shows imports by country of origin. During the first quarter of 2003, imports from Asia totalled Rs 6,611 million, representing 41% of total imports for that period. Our main supplier countries were France (16%), Republic of South Africa (12%), India (7%), China (7%), Singapore (4%), Bahrain (4%), Australia (4%), Japan (3%) and United Kingdom (3%).

5. Trade with Regional Organisations

Total exports to African, Carribean and Pacific (ACP) States during the first quarter of 2003 amounted to Rs 921 million, while imports stood at Rs 622 million (Table 14).

During the first quarter of 2003, Mauritius exported goods to a value of Rs 877 million to COMESA countries. Imports from these countries amounted to Rs 527 million, resulting in a favourable balance of Rs 350 million for Mauritius (Table 15).

Trade with SADC countries for the first quarter showed a deficit of Rs 1,848 million, resulting from imports to a value of Rs 2,191 million and exports amounting to Rs 343 million. The main supplier was the Republic of South Africa (88%). Our main buyers were Republic of South Africa (60%), Seychelles (21%), Tanzania (7%) and Zimbabwe (5%).

[Table of Contents](#)

External Trade

Notes

(1) Coverage

Trade figures are compiled according to the **General Trade System** as recommended by the United Nations. Using the national boundary as the statistical frontier, the General Trade System is a record of all goods entering (imports) and leaving the country (exports).

- Imports include goods brought in directly for domestic consumption plus goods imported into customs bonded warehouses

- Exports cover domestic exports and re-exports which include re-exports from customs bonded warehouses. Domestic exports are defined as goods of national origin. Re-exports are goods which are exported in the same condition as imported or after undergoing minor operations which leave them essentially unchanged.

- Ships stores and bunkers are included in total exports and are shown separately.

- Trade by parcel post is also included in imports and exports

(2) Valuation

Imports are valued on a C.I.F. (Cost, Insurance and Freight) basis whilst exports on a F.O.B. (Free On Board) basis.

C.I.F. value is the value in the market at the Customs frontier of a country of her imports of merchandise, other goods, etc. including all charges for transporting and insuring the goods from the country of exports to the given country but excluding the cost of unloading from the ship, aircraft etc. unless it is borne by the carrier.

F.O.B. value is the value in the market at the Customs frontier of a country of her exports of merchandise and other goods, including all costs of transporting the goods to the Customs frontier, export duties and the cost of loading the goods on to the carrier unless the latter cost is borne by the carrier.

(3) Classification

(i) Commodity Code

Commodities are coded according to the Harmonised Commodity Description and Coding System Nomenclature (HS 2002). However, for the purposes of economic analysis and to facilitate international comparison of trade by commodity data, the commodities are also classified according to the Standard International Trade Classification (Revision 3) or SITC Rev. 3. The HS and the SITC Rev. 3 are six and five digit codes respectively but have been extended to eight and seven digits to accommodate national requirements.

4. Terms of trade

The terms of trade index measures the price movements of exports relative to imports. It is the ratio of exports price index to import price index. A rise in this ratio indicates that the real purchasing power of exports has increased whilst a decrease indicates a drop in the purchasing power

5. Symbols used

- Nil or negligible
